**I Like Him, He Likes Her** Partners of the Heart Vivien Thomas and His Work with Alfred Blalock Mission at Nuremberg is Tim Townsend's gripping story of the American Army chaplain sent to save the souls of the Nazis incarcerated at Nuremberg, a compelling and thought-provoking tale that raises questions of faith, guilt, morality, vengeance, forgiveness, salvation, and the essence of humanity. Lutheran minister Henry Gerecke was fifty years old when he enlisted as an Army chaplain during World War II. As two of his three sons faced danger and death on the battlefield, Gerecke tended to the battered bodies and souls of wounded and dying GIs outside London. At the war's end, when other soldiers were coming home, Gerecke was recruited for the most difficult engagement of his life: ministering to the twenty-one Nazis leaders awaiting trial at Nuremberg. Based on scrupulous research and first-hand accounts, including interviews with still-living participants and featuring sixteen pages of black-and-white photos, Mission at Nuremberg takes us inside the Nuremberg Palace of Justice, into the cells of the accused and the courtroom where they faced their crimes. As the drama leading to the court's final judgments unfolds, Tim Townsend brings to life the developing relationship between Gerecke and Hermann Goering, Albert Speer, Wilhelm Keitel, Joachim von Ribbentrop, and other imprisoned Nazis as they awaited trial. Powerful and harrowing, Mission at Nuremberg offers a fresh look at one most horrifying times in human history, probing difficult spiritual and ethical issues that continue to hold meaning, forcing us to confront the ultimate moral question: Are some men so evil they are beyond redemption?

"Haunting and provocative . . . Rowland's writing is compelling and masterful." —Delia Ephron, author of *The Lion Is In Once*, there were many transcriptionists at the Record, a behemoth New York City newspaper, but new technology has put most of them out of work. So now Lena, the last transcriptionist, sits alone in a room—a human conduit, silently turning reporters' recorded stories into print—until the day she encounters a story so shocking that it shatters the reverie that has become her life. This exquisite novel, written by an author who spent more than a decade as a transcriptionist at the New York Times, asks probing questions about journalism and ethics, about the decline of the newspaper and the failure of language. It is also the story of a woman's effort to establish her place in an increasingly alien and alienating world. "The Transcriptionist is suffused with prescient insight into journalism, ethics, and alienation . . . A thought provoking, original work." —New York Journal of Books "Rowland seems that rare thing, the naturally gifted novelist . . . [She] deftly maps a very specific kind of urban loneliness, the inner ache of the intelligent, damaged soul who prefers the company of ideas and words to that of people . . . That urge—to make words holy—is at the heart of this novel's strange, sad beauty." —The Washington Post "The Transcriptionist holds many pleasures . . . [and] can be read through many lenses . . . Rowland plays with the notions of truth and reliability . . . Sharp and affecting." —The New York Times Book Review "A strange, mesmerizing novel . . . about the decline of newspapers and the subsequent loss of humanity—and yes, these are related." —Booklist, starred review "Ambitious and fascinating . . . Disturbing and powerful." —Library Journal "Entering the city Rowland creates, with its tightly strung dialogue and

soulful, lonely citizens, is a memorable experience." —The Boston Globe "Unforgettable. Written with such delight, compassion, and humanity it's newsworthy." —Alex Gilvarry, author of *From the Memoirs of a Non-Enemy Combatant*

They say it's lonely at the top. And it can be even lonelier when you are almost at the top. Church leaders who hold second-chair positions are under tremendous pressure. They are expected to do their jobs and provide leadership but to defer to the top leader too. It's a demanding balancing act. How can they lead effectively while serving under someone else's leadership? Leading from the Second Chair offers an invaluable resource to leaders who serve in second- (and third- and fourth-) chair roles, enabling them to become more productive, proactive, and fulfilled. The book reveals the paradoxes of second chair leadership. These leaders must be subordinate to the top leader yet lead in their own right. They should be deep in their expertise but wide in perspective. And they must be content in their jobs yet remain enthusiastic about their dreams for the future. Mike Bonem and Roger Patterson share their own and others' experiences of failure and success in this vital role. They offer support and practical advice for reshaping the way second-chair leaders can serve well and improve the overall performance of their church or organization. Leading from the Second Chair equips readers with the positive attitudes, skills, and strategies needed to become powerful leaders who will survive and thrive in God's service.

## Manthropology

Revell  
A beautiful, vibrant memoir about growing up motherless in 1970s and '80s San Francisco with an openly gay father. After his wife dies in a car accident, bisexual writer and activist Steve Abbott moves with his two-year-old daughter to San Francisco. There they discover a city in the midst of revolution, bustling with gay men in search of liberation—few of whom are raising a child. Steve throws himself into San Francisco's vibrant cultural scene. He takes Alysia to raucous parties, pushes her in front of the microphone at poetry readings, and introduces her to a world of artists, thinkers, and writers. But the pair live like nomads, moving from apartment to apartment, with a revolving cast of roommates and little structure. As a child Alysia views her father as a loving playmate who can transform the ordinary into magic, but as she gets older Alysia wants more than anything to fit in. The world, she learns, is hostile to difference. In Alysia's teens, Steve's friends—several of whom she has befriended—fall ill as AIDS starts its rampage through their community. While Alysia is studying in New York and then in France, her father tells her it's time to come home; he's sick with AIDS. Alysia must choose whether to take on the responsibility of caring for her father or continue the independent life she has worked so hard to create. Reconstructing their life together from a remarkable cache of her father's journals, letters, and writings, Alysia Abbott gives us an unforgettable portrait of a tumultuous, historic time in San Francisco as well as an exquisitely moving account of a father's legacy and a daughter's love.

An empirical study was undertaken (a) to examine the characteristics, influencing factors, and effectiveness of a distinctive Chinese management model adopted by the newly founded private enterprises in mainland China, as well as (b) to test the "fit" notion in contingency theory. The study was based on a random sample of 124 standardized personal interviews with CEOs of Chinese industrial and service companies in Beijing and Shanghai. The standardized questionnaire mainly contained the Aston structure scales (Pugh and Hickson 1976) and Khandwalla's (1977) management schedules. Besides, three case examples were studied including one state-owned bank and two private enterprises. Using AMOS structural equation modeling, size, mass-technology and uncertainty, as well as CEO need for achievement, environmental constraints and selected Chinese characteristics, were specified as influencing factors of "bureaucracy" and managerial practices, which included strategic orientation, leadership style, decision-making, communication and subcontracting. Another model analyzed the influence of various key success factors on organizational effectiveness. The findings provided support for the re-adoption of a distinctive Chinese management model in private companies, characterized by autocratic leadership, low formalization, "Chinese entrepreneurship" and network-based "webs". Private enterprises also tended to readopt and emphasize traditional Chinese family-related values. The distinctiveness of this model was, *ceteris paribus*, due to this emphasis on familism, which had a direct impact on organizational design and an indirect influence through its negative association with company size, which in turn significantly covaried with organizational design. This family-based ownership model was positively associated with organizational effectiveness. As regards contingency theory, the "traditional" fit hypotheses could not be rejected. In addition, less effective companies were not necessarily in "misfit". "Appropriate" structure, together with an optimizing planning style and firm age, were positively associated with performance. Managerial recommendations were codified in a CHINA(c) strategy framework for high effectiveness.

Like its larger counterpart, the compact *Literature: Approaches to Fiction, Poetry, and Drama* by Robert DiYanni features student-centered approaches to literature—from experience to interpretation to evaluation—and an emphasis on making connections between texts and thinking critically about literature. Known for its clear presentation of the formal elements of literature and literary analysis, this compact anthology effectively balances classic, modern, and contemporary works across the three major genres, blending well-known writers with a diverse gathering of newer, international figures. This literary breadth is supplemented by extensive coverage of writing about literature, making this book an excellent text for introduction to literature courses as well as literature-based composition courses.

Manthropology is the first of its kind. Spanning continents and centuries, it is an in-depth look into the history and science of manliness. From speed and strength, to beauty and sex appeal, to bravado and wit, it examines how man today compares to his masculine ancestors. Peter McAllister set out to rebut the claim that man today is suffering from feminization and emasculation. He planned to use his skills as a paleoanthropologist and journalist to write a book demonstrating unequivocally that man today is a triumph—the result of a hard-fought evolutionary struggle toward greatness. As you will see, he failed. In nearly every category of manliness, modern man turned out to be not just matched, but bested, by his ancestors. Stung, McAllister embarked on a new mission. If his book couldn't be a testament to modern male achievement, he decided, it would be a record of his failures. Manthropology, then, is a globe-spanning tour of the science of masculinity. It kicks off in Ice Age France, where a biomechanical analysis demonstrates that La Ferrassie 2, a Neanderthal woman discovered in the early 1900s, would cream 2004 World Arm Wrestling Federation champion Alexey Voyevoda in an arm wrestle. Then it moves on to medieval Serbia, showing how Slavic guslar poets (who were famously able to repeat a two thousand-line verse after just one hearing) would have destroyed Curtis Jackson, aka 50 Cent, in a battle rap. Finally, it takes the reader to the steaming jungles of modern equatorial Africa, where Aka Pygmy men are such super-dads, they even grow breasts to suckle their children. Now, that's commitment. For modern man, the results of these investigations aren't always pretty. But in its look at the history of men, Manthropology is unfailingly smart, informative, surprising, and entertaining.

Before I Get Old stands as one of the best books ever written about rock'n'roll. After best-selling Rolling Stone writer Dave Marsh was invited by Pete Townshend to write a history of legendary band the Who, he spent three years investigating and researching their story. The result is the first in-depth biography of the band, discarding the myth and nonsense which has become so much a part of the usual Who coverage. Before I Get Old tells the story of not one but six personalities - guitarist Pete Townshend, bassist John Entwistle, drummer Keith Moon and singer Roger Daltrey plus their original managers Kit Lambert and Chris Stamp. It describes the group's origins in the steamy nightlife of London, charts their meteoric rise to fame, and describes the creation of the rock opera Tommy which turned them into superstars. Here is the pathos, the laughter, the crazy world they worked in, the drugs, the destruction, the vandalism, the debts, the multi-million-dollar tours, and of course the music. In short, this story contains every inch of the fascinating, shocking, hilarious, and provocatively relevant material that makes up the Who and their wild lives and careers. Before I Get Old is essential reading, an exhaustive study of an exhausting band, who have always lived up to their legend.

Visitors to the Blalock Building at the Johns Hopkins University Medical Center are greeted by portraits of two great men. One, of renowned heart surgeon Alfred Blalock, speaks for itself. The other, of highschool graduate Vivien Thomas, is testimony to the incredible genius and determination of the first black man to hold a professional position at one of America's premier medical institutions. Thomas's dreams of attending medical school were dashed when the Depression hit. After spending some time as a carpenter's apprentice, Thomas took what he expected to be a temporary job as a technician in Blalock's lab. The two men soon became partners and together invented the field of cardiac surgery. Partners of the Heart is Thomas's extraordinary autobiography. Trained in laboratory techniques by Alfred Blalock and Joseph W. Beard, Thomas remained Blalock's principal technician and laboratory chief for the rest of Blalock's distinguished career. Thomas very rapidly learned to perform surgery, to do chemical determinations, and to carry out physiologic studies. He became a phenomenal technician and was able to carry out complicated experimental cardiac operations totally unassisted and to devise new ones. In addition to telling Thomas's life story, Partners of the Heart traces the beginnings of modern cardiac surgery, crucial investigations into the nature of shock, and Blalock's methods of training surgeons.
