TREVINO SHYANNE

Philosophy Of Law The Lawbook Exchange, Ltd.

Jurisprudence offers a comprehensive overview of legal theory and philosophy. Written in plain English, it examines and demystifies the discipline's major ideas, promoting a deeper understanding of the social, moral and economic dimensions of the law. It critically assesses the major schools of jurisprudential thought throughout history and to the present, from Plato and Aristotle to Enlightenment thinkers, postmodernists and economic analysts. The book challenges students to reconsider their moral intuitions in light of established theories. This edition examines recent debates and literature in legal philosophy. It features new material on scientific advances in cognition and human behaviour in relation to the law. The book expands significantly on its discussion of natural law theory, evolutionary jurisprudence and theories of justice. Special attention is paid to the revival of theological natural law, challenges to legal positivism, assessments of Scandinavian realism and

critiques of law and economics from the Austrian economic perspective.

The Constitutional Jurisprudence of the Federal Republic of Germany NYU Press
Cavendish LawCards are complete, pocket-sized guides to key examinable areas of the law for both undergraduate and PGDL courses. Their concise text, user-friendly layout and compact format make Cavendish LawCards the ideal revision aid for identifying, understanding, and committing to memory the salient points of each area of law.

Outlines of Historical Jurisprudence Cambridge University Press

"The impetus for this collection derives from a set of seminars given by various guest speakers to the Advanced and Honours class in Jurisprudence in the University of Glasgow in the Session 1973-4. The contributors include persons engaged primarily in the disciplines of civil law, medieval history, modern history, moral philosophy, political economy, politics and private law as well as in that of jurisprudence itself. While on a diversity of topics, the essays have in common the fact that they attempt, in varying degree, either to illustrate the relationship between legal theory and law as an existing institution or to place legal

theories in a wider philosophical or historical context. The contributors wish to dedicate the collection to Sir Charles Wilson not only as a mark of esteem on his retiral as Principal and Vice-Chancellor of the University of Glasgow but also as a tribute to his own scholarship in the field of jurisprudence"--Preface.

Institutes of Jurisprudence (1866)

Cambridge University Press
Savigny, Frederick Charles von. Of the Vocation of Our Age for Legislation and Jurisprudence. Translated by Abraham Hayward. London: Littlewood, [1831]. ix, [9]-192 pp. Reprinted 2002 by The Lawbook Exchange, Ltd. LCCN 2001041396. ISBN 1-58477-189-5. Cloth. \$65. * Written in the wake of the Napoleonic Wars and the Congress of Vienna, the Vocation proposed a common legal code for the newly liberated German states, and attacked Thibaut's advocacy of a code based on natural law. Though he aimed in part to improve the administration of justice, von Savigny [1779-1861] hoped that a common legal system would serve a larger goal: the promotion of a spirit of unity among Germans.

Jurisprudence the Philosophy and Method of the Law Readings in Jurisprudence and

Legal Philosophy

In *Dangerous Supplements* expert legal scholars employing a variety of theoretical perspectives--feminism, poststructuralism, semiotics, and Marxism--challenge predominating views in jurisprudence. Prevailing notions of the nature of the law, they argue, have failed to recognize the law's dependence on social constructs and the indeterminance of language. The contributors further claim that proponents of traditional notions have borrowed knowledge from other fields, only to reject that knowledge as ultimately subversive and dangerous in its ramifications. Taking as a point of departure H. L. A. Hart's *The Concept of the Law*, Peter Fitzgerald shows how Hart adopted Wittgenstein's linguistic theory to overthrow J. L. Austin's "simple" conception of rules and habits in law, only to jettison this theory in order to locate the essence of law in its evolution from a "primal scene." Other chapters examine the way in which the setting of English law above social relations has masked an imperial mission; how the philosophies of Hayek and Marx, as well as the discourses of liberalism, feminism, semiotics, and poststructuralism, have been assiduously marginalized and rendered inessential to jurisprudence.

An Analysis of Austin's Lectures on Jurisprudence Or the Philosophy of Positive Law
Beard Books

We live in a world of legal pluralism, where a single act or actor is potentially regulated by multiple legal or quasi-legal regimes imposed by state, substate, transnational, supranational and nonstate communities. Navigating these spheres of complex overlapping legal authority is confusing and we cannot expect territorial borders to solve all these problems. At the same time, those hoping to create one universal set of legal rules are also likely to be disappointed by the sheer variety of human communities and interests. Instead, we need an alternative jurisprudence, one that seeks to create or preserve spaces for productive interaction among multiple, overlapping legal systems by developing procedural mechanisms, institutions and practices that aim to manage, without eliminating, the legal pluralism we see around us. *Global Legal Pluralism* provides a broad synthesis across a variety of legal doctrines and

academic disciplines and offers a novel conceptualization of law and globalization.

A TREATISE ON EQUITY JURISPRUDENCE, AS ADMINISTERED IN THE UNITED STATES OF AMERICA

Duke University Press
Based on a symposium held at New College, Oxford in September 2008.

LEGAL POSITIVISM IN AMERICAN JURISPRUDENCE

Oxford University Press
Understood one way, the branch of contemporary philosophical ethics that goes by the label "metaethics" concerns certain second-order questions about ethics--questions not in ethics, but rather ones about our thought and talk about ethics, and how the ethical facts (insofar as there are any) fit into reality. Analogously, the branch of contemporary philosophy of law that is often called "general jurisprudence" deals with certain second order questions about law--questions not in the law, but rather ones about our thought and talk about the law, and how legal facts (insofar as there are any) fit into reality. Put more roughly (and using an alternative spatial metaphor), metaethics concerns a range of foundational questions about ethics, whereas general jurisprudence concerns analogous questions about law. As these characterizations suggest, the two sub-disciplines have much in common, and could be thought to run parallel to each other. Yet, the connections between the two are currently mostly ignored by philosophers, or at least under-scrutinized. The new essays collected in this book are aimed at changing this state of affairs. *Dimensions of Normativity* collects together works by metaethicists and legal philosophers that address a number of issues that are of common interest, with the goal of accomplishing a new rapprochement between the two sub-disciplines.

Postmodern Legal Movements
Psychology Press

Offers a comprehensive overview of legal theory and philosophy and demystifies the discipline's major ideas and debates.

The Principles of Jurisprudence
Oxford University Press

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's

literature in affordable, high quality, modern editions that are true to the original work.

The Elements of Jurisprudence
MICHIE Minda (law, Brooklyn Law School) surveys the current state of legal scholarship and activism, describing movements that focus on the effects of law on human lives. He outlines the origins of modern normative and conceptual jurisprudence, discusses movements of the 1980s, and analyzes postmodern jurisprudence. He demonstrates how the new forms of scholarly discourse at the end of this century have ruptured the modern styles of jurisprudence, and how those discourses themselves have been reshaped by a postmodern perspective. Annotation copyright by Book News, Inc., Portland, OR

Principles and Maxims of Jurisprudence
Butterworth-Heinemann
In this revised edition, two distinguished philosophers have extended and strengthened the most authoritative text available on the philosophy of law and jurisprudence. While retaining their comprehensive coverage of classical and modern theory, Murphy and Coleman have added new discussions of the Critical Legal Studies movement and feminist jurisprudence, and they have strengthened their treatment of natural law theory, criminalization, and the law of torts. The chapter on law and economics remains the best short introduction to that difficult, controversial, and influential topic. Students will appreciate the careful organization and clear presentation of complicated issues as well as the emphasis on the relevance of both law and legal theory to contemporary society. *Foundations of Jurisprudence*
Yale University Press
First published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

Normative Jurisprudence
Cambridge University Press
In this first book-length study of positive law, James Bernard Murphy rewrites central chapters in the history of jurisprudence by uncovering a fundamental continuity among four great legal philosophers: Plato, Thomas Aquinas, Thomas Hobbes, and John Austin. In their theories of positive law, Murphy argues, these thinkers represent successive chapters in a single fascinating story. That story revolves around a fundamental ambiguity: is law positive because it is deliberately imposed (as opposed to customary law) or because it lacks moral necessity (as opposed to natural law)? These two senses of positive law are not

coextensive yet the discourse of positive law oscillates unstably between them. What, then, is the relation between being deliberately imposed and lacking moral necessity? Murphy demonstrates how the discourse of positive law incorporates both normative and descriptive dimensions of law, and he discusses the relation of positive law not only to jurisprudence but also to the philosophy of language, ethics, theories of social order, and biblical law.

Jurisprudence MICHIE

A complex description and analytical perspective of the growth of jurisprudence from tribal to modern law, beginning with the concept of marital union among tribes and clans and continuing to the "Jurisprudence of the Greek City" in the fourth and fifth centuries.

Lectures on Jurisprudence The Elias Clark Group

This work represents a serious and philosophically sophisticated guide to modern American legal theory, demonstrating that legal positivism has been a misunderstood and underappreciated perspective through most of twentieth-century American legal thought.

THE JOURNAL JURISPRUDENCE, VOL 1

The Lawbook Exchange, Ltd.

Normative Jurisprudence aims to reinvigorate normative legal scholarship that both criticizes positive law and suggests reforms for it, on the basis of stated moral values and legalistic ideals. It looks sequentially and in detail at the

three major traditions in jurisprudence - natural law, legal positivism, and critical legal studies - that have in the past provided philosophical foundations for just such normative scholarship. Over the last fifty years or so, all of these traditions, although for different reasons, have taken a number of different turns - toward empirical analysis, conceptual analysis, or Foucaultian critique - and away from straightforward normative criticism. As a result, normative legal scholarship - scholarship that is aimed at criticism and reform - is now lacking a foundation in jurisprudential thought. The book criticizes those developments and suggests a return, albeit with different and in many ways larger challenges, to this traditional understanding of the purpose of legal scholarship.

Essays on Jurisprudence from the Columbia Law Review Cambridge University Press

Kommers's comprehensive work surveys the development of German constitutional doctrine between 1949, when the Federal Constitutional Court was founded, and 1996. Extensively revised and expanded to take into account recent developments since German unification, this second edition describes the background, structure, and functions of the Court and provides extensive commentary on German constitutional interpretation, and includes translations of seventy-eight landmark decisions. These cases include the highly controversial religious liberty and free speech cases handed down in 1995.

Wharton and Stillé's Medical Jurisprudence ... Greenwood

This book is a contribution to current discussions in Jurisprudence or Philosophy of Law. The meaning and role of rights in society, legal discourse and judicial decision making is a topic that is the subject of much contemporary controversy. The author examines the various forms of rights discourse as language usages. The Language and Uses of Rights offers a vision of law as an activity engaged in by a variety of players, including judges, advocates for plaintiff and defendant, law reformers, and scholars. Contents: Preface; CHAPTER I: PURPOSES AND BASIC INSIGHTS; CHAPTER II: THE GRAND CONVERSATION OF LEGAL PHILOSOPHY IN THE TWENTIETH CENTURY; Introduction; Hart and the Realists: Rights as Remedies v. Rights as Conclusions in a System of Rules; Rights as Trumps; Rights as Reasons; Rights as Goals; Rights as Claims; Rights as Criticism; Rights as Resources; Crits (Rights as Ideology?); Rights as Rhetoric; CHAPTER III. HORIZONS, POINT OF VIEW AND A NEW MODEL FOR RIGHTS DISCOURSE; Introduction; Horizons; Point of View Analysis Presented; A Model for Understanding Rights Discourse; The Model AppliedóIllustrations; CHAPTER IV: A HIGHER INTERPRETATION: Introduction; Conversation, Its Possibility; Why Converse?; Rights, Obligations and Deep CommitmentsóA Hard Reference Point for Understanding Rights; Overview and Conclusion; Endnotes; Bibliography; Index.
