Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two

years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

"As I was seated in remembrance and contemplation one night, in front of me appeared a great stag, shining and shimmering in whiteness, and there was a concentration of brilliant white light above its head. The stag was some feet away and was moving toward me. As it got closer, I could see that the white light on its head was emanating from a flaming brand, a torch, lit, glowing with brilliant white star-like light. The flaming brand, 'qabas' in Quranic Arabic, was as if a projection from the top of its head. The stag came straight toward me, approached me until it was so near I could have reached out and touched it, and then the flaming brand that was on its head, was suddenly but so naturally, held by it in its mouth. The stag bowed its head and placed this flaming brand, this qabas at my feet, and disappeared. As this happened the following verse flashed through my mind, and I knew I had been given permission to spread the teachings that are coming to me, and I was given the name under which to do so; It is 'Qabas', a flaming brand; a torch for warmth and a light for guidance. *إِذْ رَأَىٰ نَارًا فَقَالَ لِأَهْلِهِ امْكُثُوا إِنِّي بِهِ أَجِدُ عَلَى النَّارِ هُدًى* Quran: surah 20, ayah 10 When he saw a fire he said to his family, "tarry here, I have indeed perceived a fire maybe I can bring you from it a flaming brand or I can find guidance at the fire"\*\*\*This is the first volume in the four volume Qabas series. It collects 40 poems,

composed of four series of 10 pieces each, that are collected for the blessing and spiritual state of the number 40. These poems were penned by the author during the years preceding her formal initiation into spiritual training. Works written during the beginning, middle, and end stages of her training comprise volumes 2, 3 and 4 in this series.

Mercedes-Benz G-Class specialist Jörg Sand has written the ultimate book on this all-wheel-drive legend, from its design and development to its extraordinary and diverse career up to the present day. Very few automobiles remain as faithful in their character and appearance as the hardcore, all-wheel-drive Mercedes-Benz G-Class luxury SUV. Even when it comes to the most recent series, the W 463 A, with its technically profound changes, the designers at Mercedes have barely changed the classic look. And for good reason. From its first year, 1979, the G-Class has always been one of the very few off-road legends. Tourists, firefighters, foresters, race drivers, and boat owners all appreciate the unique qualities of this indestructible force, the "G Wagon," from Graz, Austria.
