In Bioware's dark fantasy world of Thedas there are those who are willing to

sacrifice their humanity for wealth and power, and those who will die to protect innocent people from them. The heroes of Thedas are often from unlikely places, some are pulled in to save the day by an odd string of fate, others seek adventure out on their own. These are their stories. The lonely king Alistair seeks out his father who was "lost at sea" fifteen years prior, but now he has a reason to think the old king is still alive. With the help of his friends, Varric the silver tongued Dwarven rogue

and Isabella the legendary pirate, Alistair just may find out what happened to his father. The small party will face down assassins, dragons, Qunari elites, corrupted mages and more in their epic quest. As a great cataclysm causes a rift in the sky to tear open, two mercenaries find themselves pulled into fighting alongside the Inquisition against eldritch horrors from the Fade and monstrous soldiers corrupted by red lyrium. Meanwhile, across the sea, in Kirkwall, a drunken

knight and his deft squire stumble upon a nefarious plot to steal a priceless relic. Their best solution: steal it first. This will be a must have collection for Dragon Age fans everywhere. Collects Dragon Age: The Silent Grove #1-6, Dragon Age: Those Who Speak #1-3, Dragon Age: Until We Sleep #1-3, Dragon Age: Magekiller #1-5, and Dragon Age: Knight Errant #1-5.

DRAGON AGE: THE WORLD OF THEDAS

Dark Horse Comics
This first novel in Jack Whyte's riveting Arthurian series tells how the story of Camelot may have actually come to be. We all know the story—how Arthur pulled the sword from the stone and how Camelot came to be. But how did it really happen? The Roman citizens of

Britain faced a deadly choice: leave to live in a corrupt Roman world, or stay amidst the violence of the warring factions of Picts, Celts, and invading Saxons. For Publius Varrus and Caius Britannicus, there is only one answer. They will stay, try to preserve the best of Roman life, and create a new culture from the wreckage. In doing so, they will plant the seeds of a legend. For these two men are Arthur's great-grandfathers and their actions will shape a nation...and forge the

sword known as Excalibur. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. Tor Books

Yet few outside this world have thought deeply about how these games work, why they are so appealing, and what they are capable of artistically. Blending memoir, criticism, and first-rate reportage, *Extra Lives* is a milestone work about what might be the dominant popular art form of our time.

DRAGON AGE: WRAITHS OF TEVINTER

Dark Horse Comics Return to the "vivid and unusual" (Kirkus Reviews) world of Larry Niven and Jerry Pournelle's The Burning City, where the fire god has retreated into myth, leaving the residents of Tep's Town unprotected for the first time in their history. Unfortunately, a fiery fate isn't the only danger the

town is facing. From out of the desert come monsters -- great birds with blades instead of wings, driven by some unknown force. Although they can be killed, the threat these terror birds pose is worse than death. Danger on the roads means no trade. No trade means that Tep's Town will be no more. Sent by the Lords of Lordshills to discover the source of the terror birds, Lord Sandry and his beloved, Burning Tower, must travel into a world where magic is still strong -- and where

someone or something waits to destroy them! Filled with the sweeping adventure, memorable characters, and imaginative world-building that have defined the novels of Larry Niven and Jerry Pournelle, Burning Tower is another triumph.

Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian

believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian

society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little

more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention.

Which is bound to draw the attention of the Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef is can't-miss sci-fi. Safehold Series 1. Off Armageddon Reef 2. By Schism Rent Asunder 3. By Heresies
