Now complete in one volume, this time-honored method addresses the six-string lap steel guitar in E7 tuning. This approach incorporates both note reading and melody chord playing. The melody chord approach is the one utilized and made famous by New Orleans' great guitarist and teacher, Roger Filiberto. This book constitutes one of the most practical, well-written methods available for the lap steel guitar; it teaches

techniques and chord harmony applicable to Hawaiian, bottleneck/slide and even resonator styles.

Through the study of this method you will quickly master the fingerpicking technique. It is not a simple exposition of tedious exercises but rather a course of interest and learning. It will guide you through a step by step process that will allow the execution of complete songs of average technical difficulty. Is not important that you have a high level of ability at the start. The book is designed so that even absolute beginners can learn from using it. Every aspect of the technique is explained in detail and all the fingerings and techniques used are clearly indicated. The book is divided into three levels of increasing difficulty: - The first level is for absolute beginners and in it are numerous combinations of fingerings for the right hand. - The second level introduces new incremental technical difficulties and the first simple complete songs. - In the third level some intermediate guitar techniques are explained with some songs using these techniques. The method is completely written in tablature to be readily accessible to all students, many of whom can not read music. The use of tablature will allow everyone to play the music and do the exercises very quickly. Not only beginners but also intermediate level guitarists can find, especially in the second and third levels, exercises and songs useful to refine the technique of alternating bass. Once you have completed the book you will have acquired the basic technical skills needed to approach the study of

advanced level songs
