of the Year
 Netflix
 cofounder
 Reed Hastings
 reveals for the
 first time the
 unorthodox
 culture behind
 one of the
 world's most
 innovative,
 imaginative,
 and successful
 companies
 There has
 never before
 been a
 company like
 Netflix. It has
 led nothing
 short of a
 revolution in
 the
 entertainment
 industries,
 generating
 billions of
 dollars in
 annual
 revenue while
 capturing the
 imaginations

of hundreds of
 millions of
 people in over
 190 countries.
 But to reach
 these great
 heights,
 Netflix, which
 launched in
 1998 as an
 online DVD
 rental service,
 has had to
 reinvent itself
 over and over
 again. This
 type of
 unprecedente
 d flexibility
 would have
 been
 impossible
 without the
 counterintuitiv
 e and radical
 management
 principles that
 cofounder
 Reed Hastings
 established
 from the very
 beginning.

Hastings
 rejected the
 conventional
 wisdom under
 which other
 companies
 operate and
 defied
 tradition to
 instead build a
 culture
 focused on
 freedom and
 responsibility,
 one that has
 allowed Netflix
 to adapt and
 innovate as
 the needs of
 its members
 and the world
 have
 simultaneoussl
 y transformed.
 Hastings set
 new
 standards,
 valuing people
 over process,
 emphasizing
 innovation
 over

efficiency, and giving employees context, not controls. At Netflix, there are no vacation or expense policies. At Netflix, adequate performance gets a generous severance, and hard work is irrelevant. At Netflix, you don't try to please your boss, you give candid feedback instead. At Netflix, employees don't need approval, and the company pays top of market. When

Hastings and his team first devised these unorthodox principles, the implications were unknown and untested. But in just a short period, their methods led to unparalleled speed and boldness, as Netflix quickly became one of the most loved brands in the world. Here for the first time, Hastings and Erin Meyer, bestselling author of *The Culture Map* and one of the world's most influential business thinkers, dive

deep into the controversial ideologies at the heart of the Netflix psyche, which have generated results that are the envy of the business world. Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never-before-told stories of trial and error from Hastings's own career, *No Rules Rules* is the fascinating and untold

account of the philosophy behind one of the world's most innovative, imaginative, and successful companies.

No RULES RULES

Ramsey Press
It's time to rewrite the rules—to curb the runaway flow of wealth to the top one percent, to restore security and opportunity for the middle class, and to foster stronger growth rooted in broadly shared prosperity. Inequality is a

choice. The United States bills itself as the land of opportunity, a place where anyone can achieve success and a better life through hard work and determination. But the facts tell a different story—the U.S. today lags behind most other developed nations in measures of inequality and economic mobility. For decades, wages have stagnated for the majority of workers while economic gains have

disproportionately gone to the top one percent. Education, housing, and health care—essential ingredients for individual success—are growing ever more expensive. Deeply rooted structural discrimination continues to hold down women and people of color, and more than one-fifth of all American children now live in poverty. These trends are on track to become even worse in the

future. Some economists claim that today's bleak conditions are inevitable consequences of market outcomes, globalization, and technological progress. If we want greater equality, they argue, we have to sacrifice growth. This is simply not true. American inequality is the result of misguided structural rules that actually constrict economic growth. We have stripped away worker

protections and family support systems, created a tax system that rewards short-term gains over long-term investment, offered a de facto public safety net to too-big-to-fail financial institutions, and chosen monetary and fiscal policies that promote wealth over full employment. *British Women's Histories of the First World War* Routledge What is happening to the goals of all

the ambitious women in the world after they have a child? What is standing between an ambitious working mother's goals and her success? And, most importantly, what does ambition mean to us today? This book is a discovery journey about the reality of ambitious professional mothers today. It's a tale with the intention of rewriting the meaning of ambition, the narrative of

working mothers and the way women achieve their goals and well-being. You will discover what the ambition factor is and how working mothers can cultivate their ambition to achieve their goals.

FROM THEORY TO PRACTICE

Penguin
New York
Times
bestselling

technique:
“grab 'em by
the pussy.”
Golden
Handcuffs is a
comprehensiv
e and
provocative
account of the
women who
have been
closest to

Trump—his German-immigrant grandmother, Elizabeth, the uncredited founder of the Trump Organization; his Scottish-immigrant mother, Mary, who acquired a taste for wealth as a maid in the Andrew Carnegie mansion; his wives—Ivana, Marla, and Melania (the first and third of whom are immigrants); and his eldest daughter, Ivanka, groomed to take over the Trump brand from a young

age. Also examined are Trump's two older sisters, one of whom is a prominent federal judge; his often-overlooked younger daughter, Tiffany; his female employees; and those he calls "liars"—the women who have accused him of sexual misconduct. Of these women, Burleigh writes, "where they come from and what they do now and in the future matters because they have or have

had the ear of the most powerful man on earth."

HUSTLE AND GIG

Abrams Presents fresh research and powerful stories to give voice to a new generation of women driven by challenge and change Offers compelling advice on how to make wandering a life strategy, not just a series of unplanned events Includes probing questions and thought-provoking

exercises to help readers find peace in life's chaos and confusion
 2011 Axiom Award Gold Medal winner in the category of Women in Business
 There's a new generation of high-achieving women today—confident, ambitious, accomplished, driven. And yet, as master coach Marcia Reynolds discovered, many of them are also anxious, discontented, and frustrated. They're

constantly questioning their purpose, juggling multiple roles, and reevaluating their goals. As a result they're restless—they move from job to job, from challenge to challenge, almost on impulse. They're wander women. Existing personal growth books, so focused on empowerment and encouragement, can't help these women. They don't need to find their

voice—they know how to roar. They don't expect balance in their lives—but they long to find peace in the chaos. They aren't necessarily focused on gaining a seat in the boardroom—they want projects that mean something or businesses they run on their own. Reynolds helps wander women understand the roots of their restlessness and make their

wandering a conscious strategy, not a reaction. Drawing on extensive research and interviews she illuminates the needs that drive their decisions and the core assumptions that lock them into rigid perfectionist patterns. She offers a wealth of exercises and practices that will enable wander women to reset their mental programming, discover new ways of finding direction, and thoughtfully

choose and plan their futures, whether they climb the corporate ladder, find satisfaction below the glass ceiling, or set out on their own. For every woman plagued by frustration and self-doubt—"Will what I've done ever feel good enough?"—Wander Woman sets the stage to uncover the answers to life's tough questions about meaning and purpose, significance and value, and the legacy you

can leave from a life lived well. *Representing, Remembering, Rewriting* Univ of California Press
A powerful collection of 36 stories about how the world's most successful women have overcome some of life's biggest challenges to reach the top of their professions. This is a book written for every current and aspiring leader, revealing the things that leaders rarely talk about; the behind the

scenes struggles. The women in these stories are powerful, internationally diverse and have impressive leadership accomplishments. They were brought together through one unifying experience: they have all completed the Harvard Business School Women on Boards program, a course that has turned into a movement. Today there are over 130 members of

the WomenExecs on Boards network, from 17 countries. This is the network where organizations go to find educated, prepared, qualified and diverse women for corporate board seats. After reading this book you will be inspired to lead and make a difference for others whether it's running a company or leading a division, team, project, community event or your

family and home. You will discover that you already have all you need to succeed when it gets hard, to never give up, and how to keep going through life's difficult and sometimes terrible challenges. These women want you to know that you are not alone, and that you can lean on the strength of those who have gone before you, keep leading and keep getting back up again and again.

REWRITING THE RULES FOR

SUCCESS

Nicholas Brealey Ivanka Trump is an American businesswoman and former fashion model who is currently assistant to President Donald Trump. She is the daughter of the president and his first wife, former model Ivana Trump. Trump has been an executive vice president of her father's company - The Trump Organization - as well as

serving as a boardroom advisor on her father's TV show The Apprentice. She moved to Washington, D.C in January 2017 as her husband, Jared Kushner, was appointed as a Senior Advisor to the President of the United States by her father. Starting in late March 2017, Trump began serving in her father's administration as assistant to the president. She assumed this official, unpaid federal government position after

multiple ethics concerns were raised about her access to sensitive material while not being held to the same ethics restrictions as a federal employee. She is considered part of her father's inner circle.

Rewriting the Script

Berrett-Koehler Publishers Career success guide for female engineers. [The Trump Women](#) Penguin "You cannot win without a workplace

where women and men have equal opportunities, equal input, and equal power."

—Dominic Barton, Global Managing Partner, McKinsey & Company On almost a daily basis, we read stories in the news about high-profile male leaders, CEOs, venture capitalists, and entrepreneurs harassing and acting inappropriately toward the women with whom they work.

Following such revelations,

these men generally lose their jobs, and their companies lose valuable female talent, customers/clients, and their reputations.

And, although we regularly hear stories about the "bro culture" that obstructs women's progress and creates hostile work environments for them, we haven't heard as much about the efforts of good men who want to change the in-office behavior of their teams and

companies so that they and women they work with can realize their full potential and their businesses can thrive.

This book teaches men and managers how to respond in these situations and how to lead by example. In *WE: Men, Women, and the Decisive Formula for Winning at Work*, Rania Anderson lends her guidance on this exact topic. Social mores have changed, and yet, well-

intentioned managers simply don't always know what to do and what's appropriate and useful to actively recruit, retain, and advance more women into leadership. They want to be told how this can make a difference to them and how they can make a difference—this book shows you how to improve your own results and win in business: A new playbook to recruit and retain high-caliber women

Take actions to work effectively, elevate and lead with women in the workplace Discover how traditional social roles exert a powerful pull on people of both genders and what to do about it. End confusion of male leaders In the #MeToo era when everyone else is focused on what's wrong and what not to do, WE: Men, Women, and the Decisive Formula for Winning at Work, is about

what's going well and what you can do. Men who are front-line managers, middle managers, and senior managers have been sidelined and left out of efforts to achieve gender parity for too long. Now, these guys can get back in the game! The Courage To Advance Scholastic Inc. Fifty percent of the world's workforce is made up of women, yet the term overworking women is still

used as if they're an anomaly. Thanks in part to the generations of women who came before and fought hard to earn a seat at the table, today's working women—among them, tens of millions of millennials—are able to do things differently. Disappearing are the days of face time for the sake of face time, 9-to-5 hours, and perfectly mapped career paths. Today's generation of

women is the first to be able to unabashedly embrace the fact that our lives are multidimensional, writes Trump. We're deeply invested in our careers, but they don't solely define us. For us, it's about working smarter, not harder; integrating our personal passions and priorities with our professional goals in order to architect lives we love. For the CEO of her own company or a stay-at-home

mom; an assistant in a large corporation or a part-time freelancer, this book celebrates the fact that, when it comes to women and work, there isn't one right answer. By redefining what it means to be a modern working woman, and offering solution-oriented advice, *Women Who Work* will establish a new ideal, changing the conversation around

women and work to one that's more positive, accurate and inclusive.

Don't Settle For a Seat: You Don't Belong at the Boys' Table-It's Time to Join Successful Women Rewriting the Rules

Simon and Schuster
This lively collection of essays showcases recent research into the impact of the conflict on British women during the First World War and since. Looking

outside of the familiar representation of wartime women as nurses, munitionettes, and land girls, it introduces the reader to lesser-known aspects of women's war experience, including female composers' musical responses to the war, changes in the culture of women's mourning dress, and the complex relationships between war, motherhood, and politics. Written during the war's

centenary, the chapters also consider the gendered nature of war memory in Britain, exploring the emotional legacies of the conflict today, and the place of women's wartime stories on the contemporary stage. The collection brings together work by emerging and established scholars contributing to the shared project of rewriting British women's history of the First World

War. It is an essential text for anyone researching or studying this history. This book was originally published as a special issue of Women's History Review.

LUNCH WITH LUCY

Penguin
The crisis of the progressive movement is so evident that nothing less than a fundamental rethinking of its basic assumptions is required. Today's progressives now work for

professional organizations more comfortable with the inside game in Washington DC (and capitols throughout the West), where they are outmatched and outspent by corporate interests. Labor unions now focus on the narrowest possible understanding of the interests of their members, and membership continues to decline in lockstep with the narrowing of their goals.

Meanwhile, promising movements like Occupy Wall Street and Black Lives Matter lack sufficient power to accomplish meaningful change. Why do progressives in the United States keep losing on so many issues? In *No Shortcuts*, Jane McAlevey argues that progressives can win, but lack the organized power to enact significant change, to outlast their bosses in

labor fights, and to hold elected leaders accountable. Drawing upon her experience as a scholar and longtime organizer in the student, environmental, and labor movements, McAlevey examines cases from labor unions and social movements to pinpoint the factors that helped them succeed - or fail - to accomplish their intended goals. McAlevey makes a compelling

case that the great social movements of previous eras gained their power from mass organizing, a strategy today's progressives have mostly abandoned in favor of shallow mobilization or advocacy. She ultimately concludes that, in order to win, progressive movements need strong unions built from bottom-up organizing strategies that place the power for change in the hands of

workers and ordinary people at the community level. Beyond the concrete examples in this book, McAlevey's arguments have direct implications for anyone involved in organizing for social change. Much more than cogent analysis, *No Shortcuts* explains exactly how progressives can go about rebuilding powerful movements that work, in our communities, and at the ballot box.

Raising

Trump Simon and Schuster
 “Utterly charming.”
 —NPR
 “Cinematic.”
 —Teen Vogue
 “Funny and sweet.”
 —Buzzfeed
 “Dazzling.”
 —Bustle Three starred reviews for this charming romantic comedy about an aspiring teen filmmaker who finds her voice and falls in love, from the New York Times bestselling author of *When Dimple Met Rishi*. Aspiring filmmaker and wallflower

Twinkle Mehra has stories she wants to tell and universes she wants to explore, if only the world would listen. So when fellow film geek Sahil Roy approaches her to direct a movie for the upcoming Summer Festival, Twinkle is all over it. The chance to publicly showcase her voice as a director? Dream come true. The fact that it gets her closer to her longtime crush, Neil Roy—a.k.a.

Sahil’s twin brother? Dream come true x 2. When mystery man “N” begins emailing her, Twinkle is sure it’s Neil, finally ready to begin their happily-ever-after. The only slightly inconvenient problem is that, in the course of movie-making, she’s fallen madly in love with the irresistibly adorkable Sahil. Twinkle soon realizes that resistance is futile: The romance she’s got is not the one she’s

scripted. But will it be enough? Told through the letters Twinkle writes to her favorite female filmmakers, From Twinkle, with Love navigates big truths about friendship, family, and the unexpected places love can find you. *The Making of a Populist Movement* Currency The very presence of women in the law—normal as it may seem to us today—signals revolutionary change in a

social order that for centuries entrusted control over its rules to men. Mona Harrington examines both the problems women meet when they claim equal authority as rule makers, and the impact of new perspectives and issues that women bring with them into the profession. On the basis of more than one hundred interviews with women lawyers, judges, law school professors,

and law students, and through the stories of their daily experiences, Harrington pinpoints and analyzes the key factors holding women back in a profession still dominated by males—among them the “men’s club” ambience, the focus on billable hours, sexual harassment and the inequality it perpetuates, lingering unequal division of labor at home, and hostile media images

of women in positions of power. She shows us what life is like for women lawyers in practice today and how their dilemmas reflect the social issues of our time. She gives us the voices of women who have adapted to the cultural codes of corporate law and women who have broken them; women who have successfully balanced their professional and private lives and women who feel trapped

by the combination of long hours at the office and full responsibility at home. She introduces us to women in new and alternative firms, on the faculties of small public law schools, in in-house legal departments, in prosecutors' offices and courtrooms—women who are devising new rules and legal theories to bring about change. *Women Lawyers* is must reading for every woman in the

midst of—or contemplating—a career in the law, and for the men who work with them.

PLAYING TO WIN IN WORK AND LIFE

Threshold Editions
This by-the-bootstraps American success story is one for the ages! Dr. Solanges Vivens explains the 25 most important rules of life and business to the world in hopes to inspire the next generation of

female entrepreneurs . From her humble beginnings as black girl in Haiti to a triumphant nursing home director and mother, Solanges has accumulated plenty of wisdom to share. Readers will be inspired by the spiritual fortitude and can-do attitude of a woman who refused to allow herself to be limited by other people's expectations of her and achieved a boundary-

breaking level of success solely through the force of her own will. This is an American success story at its heart, one that will appeal to anyone who wants to make a difference in the world around them by rewriting the rules of who rises to the top and whose rags become riches. Pretty Good Advice HarperCollins Essays exploring the lives and literary achievements of twelve

women writers-- including Eudora Welty, Ayn Rand, Doris Lessing, Zora Neale Hurston, and Mary McCarthy-- focus on how they shaped beliefs about issues ranging from sexual freedom to racial issues to politics. Reprint. 12,500 first printing. *White Women Who Work Ten* Speed Press The author interviews a number of prominent women-- including comedian Susie Essman,

writer and director Nora Ephron and TV personality Joy Behar--to reveal the ways that everyday women can achieve their deserved recognition and financial worth in today's professional world.

Forbesbooks
Who is Donald J. Trump? To truly understand America's forty-fifth president, argues Vanity Fair journalist Emily Jane Fox, you must know his children,

whose own stories provide the key to unlocking what makes him tick. Born Trump is Fox's dishy, deeply reported, and richly detailed look at Trump's five children (and equally powerful son-in-law, Jared Kushner), exploring their lives, their roles in the campaign and administration, and their dramatic and often fraught relationships with their father and with one another. Reexamining the tabloid-

soaked events that shaped their lives in startling new detail, Born Trump is full of surprising insights, previously untold stories, and delicious tidbits about their childhoods (ridiculously privileged and painful, in equal measure) and the extraordinary power they now wield. As a version of this new kind of American royalty they wish to be, they are ensconced not in palaces but in Trump

Tower and the White House. Even before Trump's oldest child, Don Jr., was born, Donald told friends that he wanted at least five kids—to make sure there was a greater probability one would turn out just like him. His vision didn't pan out exactly as he'd imagined, but Trump's children each inherited some of his essential traits—as one source says, “collectively, they make the whole.” Ivanka is a media-savvy, hyperskilled messenger with her father's self-promotional ease but without the brash. Don Jr. has the most contentious relationship with his father yet seems prone to endlessly repeat his mistakes. Eric embraced the family's real estate business but has, in surprising ways, charted a more independent course than his siblings. While Tiffany grew up mostly separate from her father, she inherited Trump's perspective as an outsider—his unique combination of assurance and insecurity. And there is Ivanka's husband, Jared Kushner, whose own family drama and personal ambition is a crucial thread in this saga. Come for the vision of Trump as a father—a portrait of the president at his kindest and cruelest. Stay for the

revelatory gossip, including the truth about the firings of Christie and Manafort, the inside scoop on Donald's three marriages, why Ivanka and Jared are "bashert," and how this family of real estate tycoons have become the most powerful people in the world.

Women Lawyers
Simon and Schuster
Choose your hours, choose your work, be your own boss, control your own

income. Welcome to the sharing economy, a nebulous collection of online platforms and apps that promise to transcend capitalism. Supporters argue that the gig economy will reverse economic inequality, enhance worker rights, and bring entrepreneurs hip to the masses. But does it? In *Hustle and Gig*, Alexandria J. Ravenelle shares the personal stories of

nearly eighty predominantly millennial workers from Airbnb, Uber, TaskRabbit, and Kitchensurfing. Their stories underline the volatility of working in the gig economy: the autonomy these young workers expected has been usurped by the need to maintain algorithm-approved acceptance and response rates. The sharing economy upends generations of workplace protections such as

<p>worker safety; workplace protections around discrimination and sexual harassment; the right to unionize; and the right to redress for injuries. Discerning three types of gig economy workers—Success Stories, who have</p>	<p>used the gig economy to create the life they want; Strugglers, who can't make ends meet; and Strivers, who have stable jobs and use the sharing economy for extra cash—Ravenel examines the costs,</p>	<p>benefits, and societal impact of this new economic movement.
