Drug addiction: Pathways to the disease and ... A person with an addiction uses a substance, or engages in a behavior, for which the rewarding effects provide a compelling incentive to repeat the activity, despite detrimental consequences.... Addiction | Psychology Today United Kingdom The amazing thing to be explained is that substance abuse is so limited. Instead of asking what is wrong with people who are especially vulnerable to drug use, we should ask why some people do not use drugs, and especially why some people can use drugs and then stop. This perspective also helps to explain why substance abuse is so devastating. Evolution And Addiction - Nesse - 2002 - Addiction - Wiley ... If you take or are administered a truly addicting drug such as heroin, morphine, or any of the barbiturates in sufficient doses over a long period of time, you will become addicted—that is, your cells will crave the drug, and if the drug is discontinued, you will undergo withdrawal sickness It does not matter what you think, what ideas and attitudes you have about the use or effects of the drug, your cells will still crave that drug. A SOCIOLOGICAL PERSPECTIVE ON DRUGS AND DRUG USER Recent research has shed new light on psychological perspectives of time among patients undergoing addiction treatment. This promises to provide psychiatrists and psychologists with a better... Psychological Perspectives of Time and Addiction Treatment ... Many people view drug abuse and addiction as strictly a social problem. Drug abuse affects society in many ways. In the workplace it is costly in terms of lost work time and inefficiency. More than half the deaths in the United States involve alcohol, in some form, such as in homicides and suicides.
