Flash CS5: The Missing Manual Packt
Publishing Ltd

Those creative professionals seeking the fastest, easiest, most comprehensive way to learn Adobe Flash Professional CS5 choose Adobe Flash Professional CS5 Classroom in a Book from the Adobe Creative Team at Adobe Press. The 10 project-based lessons in this book show readers step-by-step the key techniques for working in Flash CS5. Readers learn what they need to know to create engaging interactive content with Flash CS5. In addition to learning the key

elements of the Flash interface, including panels, timelines, and frames, readers learn how to work with graphics, create and edit symbols, modify text, add interactivity with ActionScript 3.0, and incorporate animation and sound into their projects. They also learn how to prepare and export their finished projects for publishing. This completely revised CS5 edition covers the new text engine, Deco drawing tools, Spring feature for inverse kinematics, video enhancements, and more. The companion DVD includes lesson files so readers can work along with the book, as well as 2 hours of video tutorials from 'Learn Adobe Flash Professional CS5 by Video' from video2brain and Adobe Press. "The Classroom in a Book series is by far the best training material on the

market. Everything you need to master the software is included: clear explanations of each lesson, step-by-step instructions, and the project files for the students." -Barbara Binder, Adobe Certified Instructor, Rocky Mountain Training. Classroom in a Book®, the best-selling series of hands-on software training workbooks, helps you learn the features of Adobe software quickly and easily. Classroom in a Book offers what no other book or training program does—an official training series from Adobe Systems Incorporated, developed with the support of Adobe product experts. This official training guide from Adobe will teach readers all they need to know to create rich interactive experiences with Flash Catalyst CS5, Adobe's exciting new interaction design tool. Flash Catalyst CS5 lets designers create real Adobe Flash and Adobe AIR applications without having to learn ActionScript. Using step-by-step instructions in projects that progressively build skills, readers of this Classroom in a Book will learn how to prepare and import artwork from applications such as Adobe Photoshop and Fireworks into Catalyst, and then add interactive functionality in a familiar interface and with tools that are intuitive to use. Readers will learn how libraries let them organize and reuse assets, how to use layers to view and control objects, how to work with pages and states to create interactive components, how to add transitions and action sequences, and how to work with video and sound. Readers will also learn to incorporate Flash files from other applications and use Flash Builder to

extend their projects' functionality. The companion CD provides users with all the sample files they need to complete all the projects. Annotation Adobes Stage3D (Molehill) is a set of 3D APIs that has brought 3D to the Flash platform. Being a completely new technology, there were almost no resources to get you acquainted with this revolutionary platform, until now. This book will show you how to make your very own next-gen 3D games in Flash. If you have ever dreamed of writing your own console-style 3d game in Flash, get ready to be blown away by the hardware accelerated power of Stage3D. This book will lead you step-by-step through the process of programming a 3D game in Actionscript 3 using this exciting new

technology. Filled with examples, pictures and source code, this is a practical and fun-to-read guide that will benefit both 3D programming beginners and expert game developers alike. Starting with simple tasks like setting up Flash to render a simple 3d shape, each chapter presents a deeper and more complete videogame as an example project. Right from a simple tech demo, your game will grow to become a finished product - your very own playable 3d game filled with animation, special effects, sounds, and tons of action. The goal of this book is to teach you how to program a complete game in Molehill that has a beginning, middle, and game over. As you progress further into your epic quest, you will learn all sorts of useful tricks such as ways to create eye-catching special effects using textures, special blend modes for transparent particle systems, fantastic vertex and fragment programs that are used to craft beautiful shaders and much more. You will learn how to upload the geometry of your 3D models to video RAM for ultra-fast rendering. You will dive into the magical art of AGAL shader programming. You will learn optimization tricks to achieve

blazingly fast frame rate even at full screen resolutions. With each chapter, you will level up your game programming skills, earning the title of Molehill Master you will be able to honestly call yourself a 3D game programmer. This book is written for beginners by a veteran game developer. It will become your trusty companion filled with the knowledge you need to make your very own 3D games in Flash.
