A long-awaited reissue of James Taylor's bestselling, timeless classic, *An Everyday God*. Taylor is a master at finding God in the stuff of ordinary life.

He teaches the way Jesus taught - by telling stories about everyday things: an old song remembered from years ago, an arthritic pet cat, a lost contact lens. Along the way, he opens our eyes, ears, minds, and hearts, to the discovery that God is not only present in religious ceremonies, but in everything we do, whether we're studying the universe or diapering a baby, taking out the garbage or playing touch football. At any time, God may be telling us something new, or helping us to understand something old. The first book in Taylor's "Everyday" trilogy, *An Everyday God* remains a rewarding guide to spiritual growth.

Secrecy World is the inspiration for the Major Motion Picture *The Laundromat* from Director Steven Soderbergh, Starring Meryl Streep, Gary Oldman, and Antonio Banderas A two-time Pulitzer Prize-winning journalist takes us inside the world revealed by the Panama Papers, a landscape of illicit money, political corruption, and fraud on a global scale. A hidden circulatory system flows beneath the surface of global finance, carrying trillions of dollars from drug trafficking, tax evasion, bribery, and other illegal enterprises. This network masks the identities of the individuals who benefit from these activities, aided by bankers, lawyers, and auditors who get paid to look the other way. In *Secrecy World*, the Pulitzer Prize winning investigative reporter Jake Bernstein explores this shadow economy and how it evolved, drawing on millions of leaked documents from the files of the Panamanian law firm Mossack Fonseca—a trove now known as the Panama Papers—as well as other journalistic and government investigations. Bernstein shows how shell companies operate, how they allow the superwealthy and celebrities to escape taxes, and how they provide cover for illicit activities on a massive scale by crime bosses and corrupt politicians across the globe. Bernstein traveled to the Caribbean, Latin America, Europe, and within the United States to uncover how these strands fit together—who is involved, how they operate, and the real-world impact. He recounts how Mossack Fonseca was exposed and what lies ahead for the corporations, banks, law firms, individuals, and governments that are implicated. *Secrecy World* offers a disturbing and sobering view of how the world really works and raises critical questions about financial and legal institutions we may once have trusted.

Big Pharma Puts Profits Over People In Pharmanomics, investigative journalist Nick Dearden digs down into the way we produce our medicines and finds that Big Pharma is failing us, with catastrophic consequences. Big Pharma is more interested in profit than health. This was made clear as governments rushed to produce vaccines during the Covid pandemic. Behind the much-trumpeted scientific breakthroughs, major companies found new ways of gouging billions from governments in the West while abandoning the Global South. But this is only the latest episode in a long history of financialising medicine - from Purdue's rapacious marketing of highly addictive OxyContin, through Martin Shkreli's hiking the price of a lifesaving drug, to the 4.5 million South Africans needlessly deprived of HIV/AIDS medication. Since the 1990s, Big Pharma has gone out of its way to protect its property through the patent system. As a result, the business has focused not on researching new medicines but on building monopolies. This system has helped restructure our economy away from invention and production in order to benefit financial markets. It has fundamentally reshaped the relationship between richer and poorer countries, as the access to new medicines and the permission to manufacture them is ruthlessly policed. In response, Dearden offers a pathway to a fairer, safer system for all.

By getting a copy of this course you also have access to my video where I recall Pi to 500 decimal places on a whiteboard. No games, jokes or gimmicks. Just pure memory! I achieved this not by memorising the number, but by creating a visual image of the number. This is the secret to building a powerful memory - creating photographic images. I will show you the entire process step by step. You can apply this method to any type of information you want to learn. If you can already do this, then you are a memory master already, and you may not gain much from this course. The military rule of General Zia ul-Haq, former President of Pakistan, had significant political repercussions for the country. Islamization policies were far more pronounced and control over women became the key marker of the state's adherence to religious norms. Women's rights activists mobilized as a result, campaigning to reverse oppressive policies and redefine the relationship between state, society and Islam. Their calls for a liberal democracy led them to be targeted and suppressed. This book is a history of the modern women's movement in Pakistan. The research is based on documents from the Women's Action Forum archives, court judgments on relevant cases, as well as interviews with activists, lawyers and judges and analysis of newspapers and magazines. Ayesha Khan argues that the demand for a secular state and resistance to Islamization should not be misunderstood as Pakistani women sympathizing with a western agenda. Rather, their work is a crucial contribution to the evolution of the Pakistani state. The book outlines the discriminatory laws and policies that triggered domestic and international outcry, landmark cases of sexual violence that rallied women activists together and the important breakthroughs that enhanced women's rights. At a time when the women's movement in Pakistan is in danger of shrinking, this book highlights its historic significance and its continued relevance today.

LONGLISTED FOR THE FINANCIAL TIMES & MCKINSEY BUSINESS BOOK OF THE YEAR ONE OF THE ECONOMIST'S BEST BOOKS OF 2021 In this compelling story of lies, greed and tarnished idealism, two Wall Street Journal reporters investigate a man who Bill Gates, Western governments, and other investors entrusted with billions of dollars to make profits and end poverty, but who now stands accused of masterminding one of the biggest, most brazen financial frauds ever. Arif Naqvi was charismatic, inspiring, and self-made—all the qualities of a successful business leader. The founder of Abraaj, a Dubai-based private-equity firm, Naqvi was the Key Man to the global elite searching for impact investments to make money and do good. He persuaded politicians he could help stabilize the Middle East after 9/11 by providing jobs and guided executives to opportunities in cities they struggled to find on the map. Bill Gates helped him start a \$1 billion fund to improve healthcare in poor countries and the UN and Interpol appointed him to boards. As Pope Francis blessed a move to harness capitalism for the good of the poor, Naqvi won the support of Obama's administration and investors, who compared him to Tom Cruise in Mission: Impossible. In 2018, Simon Clark and Will Louch were contacted by an anonymous whistleblower who said Naqvi had swindled investors out of hundreds of millions of dollars and offered bribes to sustain his billionaire lifestyle. Digging into the claims, Clark and Louch uncovered hundreds of documents and exposed the wrongdoing. In April 2019—months after their exposé broke—Naqvi was arrested on charges of fraud and racketeering, and faces up to 291 years in jail. Populated by a cast of larger-than-life characters and moving across Asia, Africa, Europe and America, *The Key Man* is the story of how the global elite was duped by a capitalist fairytale. Clark and Louch shine a light on efforts to clean up global capital flows even as opaque private equity firms amass trillions of dollars and offshore tax havens cast a veil of secrecy which prevents regulators, investors and citizens from understanding what's really going on in the finance industry.

This is an author who has been there and seen it all. As a multiple world champion, and former president of the World Bridge Federation, no one is better placed to discuss the big issues that face the game today. He can talk authoritatively about cheating at the top levels of the game, destructive bidding systems, sponsorship, professional players, and the other big issues - and he does. He opens the closets of the bridge world, and shows us the skeletons inside that no one wants to talk about. Wolff names names: as the title implies, he has always been prepared to call a spade and let the chips fall where they may. Wolff describes his own life and career in bridge with a brutally honest and emotional appraisal. This book will receive major review attention, and will be as controversial as one would expect a book from this author to be.

Matthew Fox has done it again. As one of the most prophetic voices of our time, he has created a unique new project that speaks to the concerns and hopes of all of us who care about creating lives of meaning - for ourselves, our communities, our children and our children's children... The A.W.E. Project reminds us that awe is the appropriate response to the unfathomable wonder that is creation - from the magnificence of galaxies, to the complex and brilliant process of cell-differentiation, and the miracle of the humanhand (a product of 14 billion years of evolution). Imagine how much

richer learning will be for all ages when we intentionally cultivate a sense of appreciation and wonder. A.W.E. is also the acronym for Fox's proposed style of learning - an approach to balance the three R's. This approach to learning, eldering, and mentoring is intelligent enough to honor the teachings of the Ancestors, to nurture Wisdom in addition to imparting knowledge, and to Educate through Fox's 10 C's. The 10 C's are the core of the A.W.E. philosophy and process of education, and include: compassion, contemplation, and creativity. The A.W.E. Project does for the vast subject of "learning" what Fox's Reinvention of Work did for vocation and Original Blessing did for theology. With passion and conviction, Fox turns conventional "education" upside down, shakes out what is no longer working, and offers visions of what can be. The A.W.E. Project includes a DVD featuring original compositions based on the 10 Cs by Hip Hop artist and filmmaker Professor Pitt - part of the worldwide movement of rappers for peace and justice.

What does it mean to be modern outside the West? Based on a wealth of primary data collected over five years, Reality Television and Arab Politics analyzes how reality television stirred an explosive mix of religion, politics, and sexuality, fuelling heated polemics over cultural authenticity, gender relations, and political participation in the Arab world. The controversies, Kraidy argues, are best understood as a social laboratory in which actors experiment with various forms of modernity, continuing a long-standing Arab preoccupation with specifying terms of engagement with Western modernity. Women and youth take center stage in this process. Against the backdrop of dramatic upheaval in the Middle East, this book challenges the notion of a monolithic 'Arab Street' and offers an original perspective on Arab media, shifting attention away from a narrow focus on al-Jazeera, toward a vibrant media sphere that compels broad popular engagement and contentious political performance.

This book investigates the factors that led to the breakdown of democracy and the rise of violent separatism in Jammu and Kashmir in the 1980s, and how the risk of a large-scale war has grown in South Asia in the 1990s. Solutions to this conflict need to be based on knowledge about what caused it as well as perspectives on why this conflict is so particularly dangerous. Widmalm offers answers in this book, with systematic comparisons over time to establish the causes of the conflict. He refutes the contention that ethnic factors are the main cause, while acknowledging that ethnic dividing lines are salient features of the conflict today. Interviews with representatives of the Indian government, the ISI in Pakistan and separatist leaders in Jammu and Kashmir are also incorporated.

This edited volume brings together some of the most prominent scholars in the fields of theoretical, critical, and political psychology to examine crisis phenomena. The book investigates the role of psychology as a science in times of crisis, discusses how socio-political change affects the discipline and profession, and renders psychological interventions as forms of political action. The authors examine how notions of crisis and the interpretation of crisis scenarios are heavily intertwined with governmental and state interests. Seeking to disentangle individual subjectivity, subjectification, and science as forms of politics, the volume works toward an explicit goal to decolonize psychology. The chapters elaborate on the importance of the psychological sciences in times of crisis and the role of psychologists as practitioners. Ultimately, the diverse contributions underline the connection of scientific theory, practice, and politics. Interdisciplinary in scope and wide-ranging in its perspectives, this timely work will appeal to students and scholars of theoretical and political psychology, critical psychology, and cultural studies.
