Map Skills - Latin America (ENHANCED eBook) Milliken Publishing Company

Color Overheads Included! Explore the varied features of the United States while reinforcing basic map reading skills. Sixteen student pages and

accompanying blackline and full-color maps coordinate to provide a relational study of the elevation, vegetation, products, population, and peoples of the United States. Student pages challenge students to combine maps and additional resources in order to answer questions and make judgments.

Question topics follow the Five Themes of Geography as outlined by the National Geographic Society: finding absolute and relative locations on a map, relating physical and human characteristics to an area, understanding human relationships to the environment, tracing movement of peoples and goods throughout an area, and organizing countries and continents into regions for detailed study.

Map Skills - Asia Lorenz Educational Press

This book presents supplementary learning experiences which focus on basic geographical concepts and skills. The activities provide practical learning projects, stimulate critical responses, and enhance the understanding of the geography of the United States. Each of the twelve teaching units in the book is introduced by a full-color transparency (print books) or PowerPoint slide (eBooks) that emphasizes the basic concept of the unit. Student activity pages provide reinforcement and follow-up activities. The teaching guide offers student activity objectives, the teaching focus, suggestions for enrichment projects, and a complete answer key.
