Vallabhacharya, the founder of the Pushti Maarg was a poet, scholar and passionate lover of Lord Krishna. Madhurashtakam is one of the immemorial compositions of Vallabhacharya, the founder of Pusti marg. These set of eight verses talk of Shri Krishna's bewitching personality. His pastimes, and His pranks all of which make Him loving and lovable. The composition has become more popular because of its simplicity. Pujya Guruji's commentary on it gives us a sense of immediacy with highlights of episodes from the lives of recent saints. It also makes us introspect on our hypocrisies which prevent us from flowing with sweetness. It opens our eyes to the healing energies of the Divine, clothed in a name and form.

In 1964, Douglas Gilbert was hired by Look magazine to photograph a young up-and-coming musician named Bob Dylan. Gilbert snapped over 900 of the most candid shots ever taken of

Dylan, less than a year before he became completely inaccessible to the public. The photos, beautifully composed, capture the 23-year-old Dylan in rare private moments hanging out with friends (including Allen Ginsberg, Phil Ochs, and John Sebastian, among others) and family in Woodstock, at concerts, and in New York City's classic dive bar -- the Kettle of Fish. Look magazine never ran the story and the photos sat unseen for forty years, until now. With an intimate and revealing text by acclaimed Springsteen biographer Dave Marsh, Forever Young is an irresistible compendium of nearly 100 of the best images from this fascinating, pivotal time in Bob Dylan's career.

Ten Classics is an in-depth look into the intricacies that went into making of ten legendary Hindi movies—milestones in the history of Indian cinema. Surprising and intriguing facts, the filmmakers' inspiration behind making them, the conceptualization and actual filming, dotted with anecdotes, incidents, events and trivia surrounding the process of making each of the films, are narrated as

recalled by the actual people involved, or someone closely associated with these films.

Painstakingly researched and fascinating to read, the book sheds light on factors that make these ten films the classics that they are today. A film journalist for over 23 years, Authors familiarity with the craft of filmmaking adds depth and colour to the perspective. Interesting facts like: Why Mughal-e-Azam took 16 long years to be completed and who the mystery financier was, who invested his trust and money in it, even though the delay had sent its budget skyrocketing; how Amitabh Bachchan bagged the role of Dr Bhaskar Banerjee in Anand, even though Zanjeer, which established him as an actor to reckon with, was yet to release...and many more curious questions like these are answered here. The author has selected one groundbreaking film made by each of the ten legendary directors that she had chosen to showcase. • Do Bigha Zamin • Mother India • Pyaasa • Do Aankhen Barah Haath • Mughal-e-Azam • Guide • Teesri Kasam • Pakeezah • Anand • Umrao Jaan

A keen critic of culture in modern Indonesia, Andrew N. Weintraub shows how a genre of Indonesian music called dangdut evolved from a debased form of urban popular music to a prominent role in Indonesian cultural politics and the commercial music industry. Dangdut Stories is a social and musical history of dangdut within a range of broader narratives about class, gender, ethnicity, and nation in post-independence Indonesia (1945-present).

The Musical Gift tells Sri Lanka's music history as a story of giving between humans and nonhumans, and between populations defined by difference. Author Jim Sykes argues that in the recent past, the genres we recognize today as Sri Lanka's esteemed traditional musics were not

originally about ethnic or religious identity, but were gifts to gods and people intended to foster protection and/or healing. Noting that the currently assumed link between music and identity helped produce the narratives of ethnic difference that drove Sri Lanka's civil war (1983-2009), Sykes argues that the promotion of connected music histories has a role to play in post-war reconciliation. The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka, and it contains a theorization of the relations between musical gifts and commodities. Eschewing a binary between the gift and identity, Sykes claims the world's music history is largely a story of entanglement between both paradigms. Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years--including the first study of Sinhala Buddhist drumming in English and the first ethnography of music-making in the former warzones of the north and east--this book brings anthropology's canonic literature on "the gift" into music studies, while drawing on anthropology's recent "ontological turn" and "the new materialism" in religious studies.

'A song, so old and yet still famous' is a Malay expression of admiration for an exotic singing style, a musical contemplation on the beauty of nature, God, and love. The ghazal exists in manifold cultures all over Asia, Africa, and Southern Europe, and is intimately connected to Islam and its periphery. In each region, ghazals have been shaped into other expressions using imported features and transforming them into 'local art'. In the Malay world, ghazals come in various shapes and with different meanings. 'The song, so old' is the song that came before the proliferation of mass media. The first ghazals that were heard in the Malay world might have been those ghazals performed by Hindustani musicians traveling in Southeast Asia. However, later on, the ghazal's development was additionally triggered by mass media, with technological progress enhancing change in urban entertainment and introducing new sources of further adaptations. In this context, the second half line of the lyrics mentioned, 'and yet still famous', means that despite being old, the song is highly regarded as an art in itself. Malay ghazals are still attractive and musically demanding. They were traditionally not performed for mass appeal, but, rather, for a small knowledgeable audience that valued musical refinement and taste.

Dr. Ishwar Bhai Joshi is a Psychological Counselor (Doctor). His spiritual knowledge takes music therapy to a different height. He has a deep study of the world's major religions and musical cultures. If someone starts playing harmonium, keyboard, guitar, piano, according to the guidance of Dr. Ishwar Bhai Joshi, then he can learn to play the song in an hour. If your common sense is better, then you will get musical notes within just ten minutes. In the last 32 years, he did many experiments on music therapy for mental well being on thousands of people. He found some easy ways to play music on instruments. According to his research, newly learned artists found great difficulty with western notations. Western notations make it difficult to catch the musical note. Because the core of Hindustani music is Raga and Sapta sur. Singing and lyrics are important in Hindi Sangeet. There are only five Sur in Western music. In which noise (orchestra) and bits are important. There is no singing and Alap. Due to which, western notations can play only 80% Sur of the Hindi songs. Because of which the listener does not enjoy the song in full swing. There is a

difference between the Western language and the Hindustani language. We write and speak in the same way. Our ability to hear, speak, write is much different than Europeans. There is a lot of difference in spelling and pronunciation in their languages. Their language and music, sounds different and they write notes differently. They do not give importance to lyrics. (Listen mad 'Rap' songs.) Example of western notations E ~ ~ GE ~ C D DFD \* A # \* A # CE DF E Pyar diwana ho ta\_hai mastana hota hain Example of Hindustani Sargam Ga ~ ~ paga~ sa re remre \*ni \*nisag rem Ga Pyaar Deewana Ho Ta Hai Mastana Hota Hai You will get Sargam in this book, not notations, please remember. Please try to understand, what is a 'Sargam'? As we know the computer has its own 'language', exactly like that every instrument has its own 'language'. Like, 'Chhukar Mere Manko Kiya Tune Kya Ishara ..' This is lyrics... So someone will hum it like ... Na Na Nana Nanana Nana Nana Na Na Nana ... "Gaga resa ni\* ni\* re, p \* dh \* ni \* ni\*saregasa" So, when you play 'Sa Re Ga Ma Pa dh Ni Sa', then the lyrics of the song begin to take shape in your mind. 'Chhukar Mere Manko Kiya Tune Kya Ishara.. There are two parts to any song, the first one is the Mukhada i.e. 'head' which is of two lines. And the second is Antara i.e. 'body'. Any instrument plays the same stanza and keeps repeating it. E.g. "Papa Kahate hai Bada Naam Karega" If you study this song's Sargam, "Dhadh pama pa sare ma nidhap" Prepare this and play twice, automatically it will sound like "Papa kahate hai bada Nam karega, Beta hamara aisa kam karega" Sasasa-saresa- sasasa-saresa- mam gare re gare ga ma Play this twice, then next two lines are ready ... "Baithe hai milake sab yar apane, sabake dilome arama ye hai vo jindagi me kal kya banega har ek najar kaa sapana ye hai " Or, another example, Dilake zarokome tujhako bithakar, Yadonko teri mai dulhan banakar Sa ma ma ma ma ma ma ma ma ma Pa Dha san, ma ma ma ma ma ma ma ma ma Pa Dha san, The funny thing is that the person who made the first guitar pattern was a "leftie". Then millions of "righty" people try to learn the leftie pattern. Dr. Joshi has correct this for the new learners with the right hand. This book is for new learning artists who respect Music. Know Equipment preparation and self preparation .. (For that you will have to buy this book, buying a book is paying a GuruDaxina. If you are an artist and respect the Music, you will keep this book with you forever.)
