**CONTEXT,
IMPLEMENTATION
AND IMPACT**

Routledge

Should the European Neighbourhood Policy stop at the borders of the European Union's immediate neighbouring countries? This book is the first full length study of the 'neighbours of the EU's neighbours', a concept originally introduced by the European Commission with reference to Saharan Africa, the Middle East and Central Asia. These regions in the EU's broader neighbourhood are often perceived as an 'arc of crisis' from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might help promote security,

stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy. How can the EU create bridges between these regions? What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation? One of the conclusions is the suggestion to consider a pragmatic 'EU Strategy for the Neighbours of its Neighbours' which addresses the needs of the broader EU neighbourhood in a more systematic and consistent manner and helps transform in the long run the 'arc of crisis' into another 'ring of friends'.
Contestation of EU

Enlargement and

Politics - International
Politics - Topic:
European Union, grade:
A, Webster University
Vienna, language:
English, abstract: In
2004, the European
Neighbourhood Policy
(ENP) was adopted to
create "a circle of
friends" around
Europe. Since it was
first introduced, this
policy has undergone a
series of
transformations aimed
at making it more
efficient. This paper
will expose the three
normative shifts that
have occurred since its
inception, from a
rather idealist
approach to a more
pragmatic one;
describe the "ring of

fire" surrounding
Europe nowadays;
point out to the
weaknesses that still
characterize the new
version of the ENP; and
conclude.

**EU Neighbourhood
Policy in the**

Maghreb Djøf Forlag

This book looks both
backward and forward
with regard to the
European Union's
political strategies
towards its
neighbouring
countries. By bringing
together the
perspectives of critical
geopolitics, policy
studies and border
studies, it presents a
comprehensive review
of the European
Neighbourhood Policy
and how it impacts the
ongoing construction of
the EU's external
frontiers. Is the EU
committed to
promoting integration

in a 'wider' European space, or is a "fortress Europe" emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders? The book aims to problematize this question by showing how the EU's external policies are based on a mixture of openness and closure, inclusion and exclusion, cooperation and securitisation. The European Neighbourhood Policy is a controversial strategy where regionalization and bordering, homogenisations and differentiations, centrifugal and centripetal forces proceed side-by-side, in an explicit attempt to construct a

selective, mobile and fragmented border. A specific focus is devoted to the diversity of geo-strategies the EU is pursuing in its neighbouring countries and regions, macro-regional strategies and cross-border cooperation initiatives as new scales of cooperation, and the role of other global players.

European Neighbourhood Policy Springer

The Routledge Handbook on the European Neighbourhood Policy

Routledge Europe Alone?

Routledge
"This book examines the European Neighbourhood Policy (ENP) in the context of internal functions performed with regards

to the European Union (EU) political system and its key actors. It argues that the ENP has been formulated not only in reaction to external challenges and threats, but also in response to EU internal legitimacy needs at systemic, institutional and actor level. Looking beyond governance approaches and the power of norms, this book follows a sociological approach to the politics of legitimation. Using Bourdieu's field theory, it bridges the rationalist-constructivist divide inherent in much of the ENP scholarship. While analysing articulations of EU institutions in terms of narrative production, reproduction and reconstruction, it sheds

valuable light on where the conflicting goals, ambiguity and incoherence stem from. By highlighting third countries' responses and usages of ENP narratives for domestic and international legitimacy-seeking, the book calls for a more outside-in perspective on EU foreign policy. With the European integration project being increasingly contested, both internally and externally, this book provides a timely focus on the topic of legitimation and delegitimation dynamics with regards to EU foreign policy. This book is of key interest to scholars and students of European integration, EU Foreign Policy, and more broadly EU Studies and

International
Relations"--

The European Union's
Broader
Neighbourhood

Routledge

As a key element of the EU's foreign policy, the European neighbourhood policy focuses on stabilising the region in political, economic and security terms. The European neighbourhood policy governs the EU's relations with 16 of its closest eastern and southern partners. It translates the EU's wish to build on common interests with partner countries and a commitment to work jointly in priority areas. These include the promotion of democracy, the rule of law and respect for human rights, as well as enhancing economic development, the

investment climate and social cohesion.

Strengthening the state and the societal resilience of the EU's partners is a priority in the face of the threats and pressures they are experiencing, including the challenges associated with migration and mobility.

**The European
Neighbourhood
Policy in a
Comparative
Perspective**

The Routledge Handbook on the European Neighbourhood Policy The European Neighbourhood Policy (ENP) was initially intended to create 'a ring of friends surrounding the Union, from Morocco to Russia and the Black Sea' (Prodi, 2002). Today, however, the ever-worsening security situation in the region

clearly shows that the aim has not been achieved. With wars in Ukraine, Syria and Libya, the Union's neighbourhood can therefore better be described as 'a ring of fire'. Does this mean that the policy has failed and that an alternative policy towards the EU's neighbours is needed? Or should these developments be seen as temporary setbacks caused by external factors beyond EU control? By comparing the EU's approach to its eastern and southern neighbours, this volume seeks to answer such overarching questions. The authors find that the EU still has a potential role to play in providing regional security, but that this role also risks being

increasingly undermined if it does not increasingly take into account the broader geostrategic realities in both regions.

European Neighbourhood Policy
Rowman & Littlefield International
Foreign Policies of EU Member States provides a clear and current overview of the motivations and outcomes of EU Member States regarding their foreign policy-making within and beyond the EU. It provides an in-depth analysis of intra-EU policy-making and sheds light, in an innovative and understandable way, on the lesser-known aspects of the inter-EU and extra-EU foreign policies of the twenty-eight Member States.

The text has an innovative method of thematic organisation in which case study state profiles emerge via dominant foreign policy themes. The text examines the three main policy challenges currently faced by the twenty-eight Member States: First, EU Member States must cooperate within the mechanisms of the EU, including the Common Foreign and Security Policy (CFSP). Second, EU Member States continue to construct their own inter-EU foreign policies. Third, the sovereign prerogative exercised by all EU Member States is to construct their own foreign policies on everything from trade and defence with the rest of the world. This combination of clarity,

thematic structure and empirical case studies make this an ideal textbook for all upper-level students of European foreign policy, comparative European politics and European studies. The European Neighbourhood Policy in Perspective Routledge
The enlarged European Union needs new instruments for exporting stability and change into the fragile regions and countries beyond its borders. That is why the EU is developing and implementing the European Neighbourhood Policy (ENP): a strategic concept which is to enhance the Union's capability to be a driver of reform - without automatically promising the "golden

carrot" of membership to the neighbours. This book provides the reader with information on what ENP wants, how it works and what the prospects of the Union's cooperation with neighbouring countries are.

POLITICAL, ECONOMIC AND SOCIAL ISSUES

Springer
This book addresses the potential and limitations of the European Union Neighbourhood Policy in sustaining the expansion of the European security community towards the South Caucasus. The Caucasus' complex regional security dynamics are a hard test for regional security community building and showcase both the challenges of

security provision through liberal reforms and integration and of the interaction between security communities and balance of power. The author begins by conceptualizing security community expansion and then considers the ENP through this perspective, before moving on to individual case studies on Armenia, Azerbaijan and Georgia. The book will appeal to both scholars and practitioners interested in European security, the European Union external action, and the post-Soviet space.

Towards a Neighbourhood

Strategy Springer

This book analyses the revised European Neighbourhood Policy (ENP) which entered into force in May 2011, thereby replacing its predecessor of 2003/2004. The edited volume provides a structured and comprehensive overview of the most recent developments in EU foreign policy (EUFP) towards the EU's southern and eastern neighbourhood through the prism of continuity and change. By critically examining EU action and inaction in the framework of the 2011 ENP, it also puts the ENP's most recent review of 2015 in perspective. Topics covered include: conceptual, theoretical and methodological issues; the legal and institutional aspects of

the revised ENP and the changes brought by the entering into force of the Lisbon Treaty; and conflicts and crises in the EU's neighbourhood, such as the Western Sahara conflict, the Israeli-Palestinian conflict, the South Caucasus conflicts and the crisis in Ukraine. The authors also focus on sectoral cooperation, analysing the changes brought by the revised ENP of 2011 in the domains of energy cooperation and migration. This volume will appeal to scholars and upper level students in EU/European Studies, International Relations, Political Science, as well as practitioners and policy-makers in the field.

THE CHANGING

POLITICS OF EUROPEAN SECURITY

Taylor & Francis
Thesis (M.A.) from the
year 2010 in the
subject Politics -
International Politics -
Topic: European Union,
grade: 2.0, University
of Flensburg, language:
English, abstract: The
Eastern enlargement of
the European Union in
2004 alongside the
accession in 2007 of
Bulgaria and Romania
into the European
Union has paved way
for a historical shift of
the Union , emergence
of new borders, and
emergence of new
relations and policies
towards new
neighbours. Despite
the fact that the
European
Neighbourhood Policy
(ENP) might be
considered as a foreign

policy instrument, what
seems unknown and
less considered is the
cost of relationship,
intent of the European
Union (EU) in relations
with new members,
interest of both sides,
security and stability
alongside economic
and democratic space.
The ENP consolidates
the opinion that the
limits of Europe is
increasingly evasive;
the thesis therefore
aims at considering or
analyzing the EU
relations in the view of
its implications
stemming from the
ENP policy toward
Ukraine as a member
of the ENP.

**Theorizing the
European
Neighbourhood
Policy** Bloomsbury
Publishing
Since May 2004 the
European Union
borders countries that

have not yet accomplished their transformation process or are still struggling for stability. These countries are now the neighbours of the European Union, but are they also candidates for accession? The European Neighbourhood policy is a policy that explicitly excludes the possibility of accession. However, possible future membership is the strongest implicit argument for pushing the new neighbours towards reform. How does the European Union deal with its new neighbours and how do they deal with the European Union? What plans and programs of cooperation exist? What prospects and risks does the new neighbourhood imply?

Are there further attempts of cooperation and European integration besides these at the EU-level? The authors try to answer these questions by providing a critical perspective of the EU policy, regional overviews, and country reports from Eastern and South Eastern Europe.

Challenges and opportunities for cooperation beyond the European Neighbourhood Policy

Universal-Publishers Seminar paper from the year 2017 in the subject Politics - International Politics - Topic: German Foreign Policy, grade: 1,3, University of Cologne, course: Aktive Außen- und Sicherheitspolitik: Geopolitik, Geostrategie, Change Management und

Völkerrecht als Mittel zur Politikgestaltung, language: English, abstract: The European Union (EU) has an increasing demand for energy, which is the basis for its economy and the prosperity of its citizens. Given the fact that the Union itself does not have the necessary resources at its disposal, it is dependent on other resource exporting countries – especially Russia. To become more independent from those countries, the EU follows a strategy of diversification of energy supplies and market liberalisation. In this context, the European Neighbourhood Policy (ENP), bringing together the EU and 16 of its Eastern and Southern neighbouring

states, plays a significant role. But the rapprochement between the EU and its neighbours is problematic regarding relations with Russia, which see its interests in its traditional zone of influence threatened. Given the high dependence of European (and ENP) states on Russian gas, Russia was traditionally able to use energy deliveries (or rather their non-delivery) as a geostrategic tool to push through its interests. With the ENP, which enables the coordination of deliveries and pipeline projects with energy transit countries, the EU has developed a geostrategic tool to potentially reduce the Russian influence on deliveries. Against the background of

relations between the EU and Russia being characterised by non-static mutual interdependence, (geopolitical) strategies can be used to change the power relations between states in favour of one actor or another. In this context, the aim of this paper is first, to elaborate on the geostrategic functioning of the ENP and second, to evaluate the value of the ENP for European Energy Security focusing on the Eastern Partnership and the resulting changes in the energy relations between the EU, its neighbours and Russia, to finally be able to give an answer to the question "To what extent does the ENP serve the EU as a geostrategic

instrument to improve its energy security?". In the analysis, the European as well as the Russian standpoint will be considered to be able to reveal strengths and weaknesses of the ENP-strategy.

External Governance as Security Community Building Routledge Contributors offer new approaches to the study of the European Neighbourhood Policy. While the main emphasis is on the empirical assessment of the impact that the ENP has had to-date and on the factors that have shaped its implementation, it also provides new theoretical and methodological perspectives on how to study this policy area.

THE LIMITS AND POTENTIAL OF THE EUROPEAN NEIGHBOURHOOD POLICY

GRIN Verlag
The Changing Politics of European Security explores the key security challenges confronting Europe, from relations with the US and Russia to the use of military force and the struggle against terrorism. In the future, the authors conclude, European states will act alone, independent of America, on security matters.

GEOPOLITICS BETWEEN INTEGRATION AND SECURITY

Routledge
This volume analyses the logic and

institutional origins of the European Neighbourhood Policy (ENP) and provides a critical assessment of the promises and prospects of the EU's broader neighbourhood policies. It does so both from an issue-oriented perspective and a regional standpoint. Expanding the European Security Community GRIN Verlag
Despite growing scholarly interest in the EU's flagship policy towards its Eastern and Southern neighbours, serious attempts at theory-building on the European Neighbourhood Policy (ENP) have been largely absent from the academic debate. This book aims at contributing to fill this research gap in a three-fold manner: first

and foremost it aims at theorizing the ENP as such, explaining the origins, development and effectiveness of this policy. Building on this effort, it also pursues the broader objective of addressing certain shortcomings in EU external relations theory, and even beyond, in International Relations theory. Finally, it aspires to provide new insights for European policy-makers. It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories, stimulating academic and policy debates and thus setting a novel, less EU-centric research agenda. This text will be of key

interest to scholars, students and practitioners in EU external relations, EU foreign policy, the European Neighbourhood Policy, and more broadly in European Union Politics and International Relations.

THE EUROPEAN NEIGHBOURHOOD POLICY - VALUES AND PRINCIPLES

Springer
The European Neighbourhood Policy is a key part of the foreign policy of the European Union (EU), through which the EU works with its southern and eastern neighbours with a view to furthering its interests and achieving the closest possible degree of political association and economic integration.

The policy is underpinned by a set of values and principles that the EU seeks to promote. The European Neighbourhood Policy – Values and Principles carries out a legal analysis of the values and principles that form the basis for the European Neighbourhood Policy – respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights (including the rights of minorities), plus the principles of conditionality, differentiation and coherence. This collection explores the

instruments that the EU has deployed under the European Neighbourhood Policy to spread its values and to achieve its interests. It assesses to what extent the EU has been (and is) consistent in upholding its values in its relations with neighbouring countries, and examines how these values have been received by these countries. The book looks in particular at the nature of EU-Russia relations, seeking to identify areas of common interest as well as those of actual and potential disagreement.
