REVOLUTIONARY IDEAS

JHU Press

This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

McDougal Littell/Houghton Mifflin

Transports students beyond the classroom on an exciting journey through the diverse Spanish-speaking world. The perfect blend of culture, instruction and interaction enables and motivates students to succeed. Units are built around countries and cities. Relevant instruction is based on multi-tiered differentiation in presentation, practice, and assessments.

CONSTRUCTING EARLY MODERN EMPIRES

McDougal Littell/Houghton Mifflin

[In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

BLEU

McDougal Littell/Houghton Mifflin

A richly illustrated book exploring the origins of the modern fascination for heritage, comparing preservation in France, Germany and England.

Reflections and Perceptions McDougal Littell/Houghton Mifflin

This volume brings together Pierre Bourdieu's highly original writings on language and on the relations among language, power, and politics. Bourdieu develops a forceful critique of traditional approaches to language, including the linguistic theories of Saussure and Chomsky and the theory of speech-acts elaborated by Austin and others. He argues that language should be viewed not only as a means of communication but also as a medium of power through which individuals pursue their own interests and display their practical competence. Drawing on the concepts that are part of his distinctive theoretical approach, Bourdieu maintains that linguistic utterances or expressions can be understood as the product of the relation between a "linguistic market" and a "linguistic habitus." When individuals use language in particular ways, they deploy their accumulated linguistic resources and implicitly adapt their words to the demands of the social field or market that is their audience. Hence every linguistic interaction, however personal or insignificant it may seem, bears the traces of the social structure that it both expresses and helps to reproduce. Bourdieu's account sheds fresh light on the ways in which linguistic usage varies according to considerations such as class and gender. It also opens up a new approach to the ways in which language is used in the domain of politics. For politics is, among other things, the arena in which words are deeds and the symbolic character of power is at stake. This volume, by one of the leading social thinkers in the world today, represents a major contribution to the study of language and power. It will be of interest to students throughout the social sciences and humanities, especially in sociology, politics, anthropology, linguistics, and literature.

Fire in the Minds of Men Discovering FrenchNouveau Rouge

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the

impact on future international relations. TEXT, PRE-TEXTS, CONTEXTS

Value Inquiry Book

Critiquing the arcades of nineteenth-century Paris--glass-roofed rows of shops that served as early malls--the author, who wrote the work in the 1920s and 1930s, covers thirty-six still-trenchant topics, including fashion, boredom, photography, advertising, and prostitution, among others.

[The Everyday Life and Glorious Times of the Situationist International](#) Harvard University Press

"Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--

PRESERVING THE PAST IN FRANCE, GERMANY AND ENGLAND, 1789-1914

Transaction Publishers

The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

Power/Knowledge Createspace Independent Publishing Platform

This Companion examines the lives of medieval women by focusing on the texts that emerged from and shaped their experience.

LEVEL 3

NYU Press

This book offers a fresh reflection on *The Book of Questions* by the French-Egyptian Jewish writer Edmond Jabès and its readings, and proposes to re-contextualize Jabès' enigmatic prose through the lens of the author's manuscripts. Addressed are the main prisms through which Jabès' oeuvre has been read since its publication in 1963: Jewishness, the Shoah, intertextuality with Midrash and Kabbalah, hermeticism and interpretation. It analyzes their shapes and their becoming in the work-in-progress, reveals the dynamics and the contexts of their evolution from the pre-texts to the text and beyond, and reflects on the relationship between creation, interpretation, and writing as a process. It seeks to rethink our reading of *The Book of Questions* and the poetics and hermeneutics of enigmatic writing.

Matisse on Art Cambridge University Press

Combines motivating stories with research-based instruction that helps students improve their reading and social studies skills as they discover the past. Every lesson of the textbook is keyed to California content standards and analysis skills.

AN ANTIDOTE TO CHAOS

Vintage

Over fifty years after the Situationist International appeared, its legacy continues to inspire activists, artists and theorists around the world. Such a legend has accrued to this movement that the story of the SI now demands to be told in a contemporary voice capable of putting it into the context of twenty-first-century struggles. McKenzie Wark delves into the Situationists' unacknowledged diversity, revealing a world as rich in practice as it is in theory. Tracing the group's development from the bohemian Paris of the '50s to the explosive days of May '68, Wark's take on the Situationists is biographically and historically rich, presenting the group as an ensemble creation, rather than the brainchild and dominion of its most famous member, Guy Debord. Roaming through Europe and the lives of those who made up the movement – including Constant, Asger Jorn, Michèle Bernstein, Alex Trocchi and Jacqueline De Jong – Wark uncovers an international movement riven with conflicting passions. Accessible to those who have only just discovered the Situationists and filled with new insights, *The Beach Beneath the Street* rereads the group's history in the light of our contemporary experience of communications, architecture, and everyday life. The Situationists tried to escape the world of twentieth-century spectacle and failed in the attempt. Wark argues that they may still help us to escape the twenty-first century, while we still can.

AN INTELLECTUAL HISTORY OF THE FRENCH REVOLUTION FROM THE RIGHTS OF MAN TO ROBESPIERRE

U.S. Government Printing Office

This book is about how people behaved during the German occupation of France during World War Two, and more specifically about how individuals from different social and political backgrounds recorded and reflected on their experiences during and after these tragic events. The book focuses on the concepts of treason and sacrifice, and takes the form of an introductory overview, followed by contextualised case studies in the areas of politics, daily life, civil administration, paramilitary action, literature and film.

Proprietary Ventures in the Atlantic World, 1500-1750 BoD – Books on Demand

Presents a revision of the late Columbia University art historian's lectures given at Indiana University in 1961

T'ES BRANCH? LEVEL 2

Univ of California Press

This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

[A History of French Literature](#) Verso Books

Festivals and the French Revolution--the subject conjures up visions of goddesses of Liberty, strange celebrations of Reason, and the oddly pretentious cult of the Supreme Being. Every history of the period includes some mention of festivals; Ozouf shows us that they were much more than bizarre marginalia to the revolutionary process.

Language and Symbolic Power Utah State University Press

These essays on early modern Atlantic empires provide the first comprehensive treatment of this important vehicle of imperial formation and colonial development.
