Equity and Social Justice in School Counseling Simon and Schuster

This book is not written specifically for White readers, Black readers, readers who are Latino, Asian, or other specific racial or ethnic groups. If you are a business leader, individual contributor, Human Resources or DEI (Diversity, Equity and Inclusion) professional, educator, coach, or consultant, then *The Business of Race* is for you. In the business world, incident-driven, company position statements on Black Lives Matter or Stop Asian Hate are not proxies for the heavy lifting that will penetrate and sustain a shift in the status quo. Advancing racial equity to disrupt institutional racism requires more than a company-wide memo or a tab on a corporate website. Businesses often water down, negate or skirt this reality by touting successes from its cousin—diversity. However, you cannot advance a strategy you do not name. The general term “diversity” enables that dynamic. It’s impossible to create an antiracist workplace when we avoid speaking the words “race” and “racism.” Co-authored by two business women, one Black and one White, *The Business of Race* can help us all prepare for this transformative work. Rather than diving headfirst with well-meaning but ineffectual efforts, we must first ready our organizations. The authors outline both the inner work (raising our own individual awareness and creating new ways of thinking and being), and the outer work organizations must undertake. This includes honest and often uncomfortable discussions. And carrying out as core to operational business strategy and performance, policies and practices to reimagine a racially equitable workplace. Whether you’re a rising entrepreneur, a supervisor or manager, a leader of a large multinational company, or a frontline employee, you’ll find concrete actions in this essential guide: *Why Racial Diversity, Why Now - A Competitive Advantage Commitment, Specificity, and the Science of Small Wins Uncomfortable Truths and Fearless Leaders Look for Talent Where Others Are Not No Secrets in Pay and Promotions - Close the Wage Gap Discover Your “E” and Measure its Impact Woven* throughout *The Business of Race* are interviews with dozens of business professionals across myriad industries, fields and organizational levels. Their stories bring voice to the challenges and opportunities businesses face every day, and provide readers with the courage and tools to openly, honestly, and effectively address the deeply complex, emotional and intimidating dynamic of race and racism in the workplace.

A Feminist, Inclusive, Anti-racist, Nonbinary Field Guide for Graphic Designers A Practical Guide to Racism

This book proposes a comprehensive approach to confronting racism through a foundational framework as well as practical strategies to correct and reverse the course of the past and catalyze the stalled efforts of the present. It will do so by focusing on those specific aspects of law and legal theory that intersect with psychological research and practice. In Part I, the historical and current underpinnings of racial injustice and the obstacles to combating racism are introduced. Part II examines the documented psychological and emotional effects of racism, including race-based traumatic stress. In Part III, the authors analyze the application of forensic mental health assessment in addressing race-related experiences and present a legal and policy framework for reforming institutional and organizational policies. Finally, in part IV the authors advocate for a close, collaborative approach among legal and mental health professionals and their clients to seek redress for racial discrimination. *Confronting Racism* provides a framework for legal, mental health, and other related social science professionals and leaders to acknowledge and act on the harmful aspects of our societal systems.

Racism on Campus Monkfish Book Publishing

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

Confronting Racism Frances Lincoln Children's Books

A FINANCIAL TIMES BEST BOOK OF THE YEAR • An essential tool for individuals, organizations, and communities of all sizes to jump-start dialogue on racism and bias and to transform well-intentioned statements on diversity into concrete actions—from a leading Harvard social psychologist. FINALIST FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD • LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD “Livingston has made the important and challenging task of addressing systemic racism within an organization approachable and achievable.”—Alex Timm, co-founder and CEO, Root Insurance Company How can I become part of the solution? In the wake of the social unrest of 2020 and growing calls for racial justice, many business leaders and ordinary citizens are asking that very question. This book provides a

compass for all those seeking to begin the work of anti-racism. In *The Conversation*, Robert Livingston addresses three simple but profound questions: What is racism? Why should everyone be more concerned about it? What can we do to eradicate it? For some, the existence of systemic racism against Black people is hard to accept because it violates the notion that the world is fair and just. But the rigid racial hierarchy created by slavery did not collapse after it was abolished, nor did it end with the civil rights era. Whether it's the composition of a company's leadership team or the composition of one's neighborhood, these racial divides and disparities continue to show up in every facet of society. For Livingston, the difference between a solvable problem and a solved problem is knowledge, investment, and determination. And the goal of making organizations more diverse, equitable, and inclusive is within our capability. Livingston's lifework is showing people how to turn difficult conversations about race into productive instances of real change. For decades he has translated science into practice for numerous organizations, including Airbnb, Deloitte, Microsoft, Under Armour, L'Oreal, and JPMorgan Chase. In *The Conversation*, Livingston distills this knowledge and experience into an eye-opening immersion in the science of racism and bias. Drawing on examples from pop culture and his own life experience, Livingston, with clarity and wit, explores the root causes of racism, the factors that explain why some people care about it and others do not, and the most promising paths toward profound and sustainable progress, all while inviting readers to challenge their assumptions. Social change requires social exchange. Founded on principles of psychology, sociology, management, and behavioral economics, *The Conversation* is a road map for uprooting entrenched biases and sharing candid, fact-based perspectives on race that will lead to increased awareness, empathy, and action.

How Seeking and Speaking the Truth About Racism Can Radically Transform Individuals and Organizations New Harbinger Publications

Growing up, Fr. Daniel P. Horan, O.F.M., never thought much about race, racism, or racial justice except for what he read in history books. His upbringing as a white, middle-class Catholic shielded

him from seeing the persistent, pervasive racism all around him. Horan shares what he has since learned about uncovering and combatting racial inequity in our nation and in our Church, urging us to join the fight. In the spring and summer of 2020, US cities erupted in protests and racial tensions ran high following several high-profile killings of Black women and men at the hands of white police officers. As America watched and listened, many of us became dislodged from our comfortable assumptions about race. Horan recognized this unnerving dynamic as a doorway to the awakening and spiritual conversion he has been undergoing for much of his adult life. In *A White Catholic's Guide to Racism and Privilege*, Horan speaks prophetically to what has become a gnawing unease for so many. With candid critique and reflection, Horan helps us makes sense of crucial issues such as: The difference between what sociologists call common-sense racism and systemic racism. What is meant by white privilege and how it contributes to racial injustices. The Catholic Church's teachings about racism, how those can still be developed, and what those teachings require of us. Combatting racism in our everyday lives. As a white man, Horan shows his fellow white Catholics how to become actively anti-racist and better allies to our Black brothers and sisters as we work against racism in our culture and in the Church. He offers us the hope and surety of the Gospel, the wisdom of Catholic tradition, and some practical ways to educate ourselves and advocate for justice. Each chapter includes a substantial suggested-reading list. This book is perfect for individual or group study.

Unpacking Sexism and White Privilege in Pursuit of Racial Justice Beacon Press

Drawing on content from yearbooks published by prominent colleges in Virginia, this book explores changes in race relations that have occurred at universities in the United States since the late 19th century. It juxtaposes the content published in predominantly White university yearbooks to that published by Howard University, a historically Black college. The study is a work of visual sociology, with photographs, line drawings and historical prints that provide a visual account of the institutional racism that existed at these colleges over time. It employs Bonilla-Silva's concept of structural racism to shed light on how race ordered all aspects of social life on campuses from the period of post-Civil War Reconstruction to the present. It examines the lives of the Black men and women who worked at these schools and the racial attitudes of the White men and women who attended them. As such, *Racism on Campus* will appeal to scholars of sociology, history and anthropology with interests in race, racism and visual methods.

- The good life enjoyed by blacks, who shuffle through life unhindered by the white man's burdens, to become accomplished athletes, rhyme smiths, and dominoes champions
- A close look at the bizarre, sweet-smelling race known as women, who are not very good at anything - especially ruling the free world
- The sad story of the industrious, intelligent Jews, whose entire reputation is sullied by their taste for the blood of Christian babies

HOW WHITE PEOPLE CAN WORK FOR RACIAL JUSTICE 3RD EDITION

New Society Publishers

This book examines Zoombombing, the racist harassment and hate speech on Zoom. While most accounts refer to Zoombombing as simply a new style or practice of online trolling and harassment in the wake of increased videoconferencing since the outbreak of COVID-19, this volume examines it as a specifically racialized and gendered phenomenon that targets Black people and communities with racialized and gendered harassment. Racist Zoombombing brings together histories of online racism and algorithmic warfare with in-depth interviews by Black users on their experiences. The book explains how Zoombombing is a form of racial violence, interrogates our ideas about online space and community, and challenges our notions of on and off line distinction between racial harassment of Black people and communities. A vital resource for media, culture, and communication students and scholars that are interested in race, gender, digital media, and digital culture.
