"Anna Shinoda's deeply informed story is not to be missed." —Dr. Drew Pinsky, *Celebrity Rehab* and *Teen Mom Family* secrets cut to the bone in this mesmerizing debut novel about a teen whose drug-addicted brother is the prodigal son one time too many. There is a pecking order to every family. Seventeen-year-old Clare is the overprotected baby; Peter is the typical, rebellious middle child; and Luke is the can't-do-wrong favorite. In their eyes, they are a normal, happy family. But sometimes it's the people who are

closest to us who are the hardest to see. Clare loves her older brother, Luke—it's not his fault that he's always in the wrong place at the wrong time. Life as Luke's sister hasn't been easy—their community hasn't been nearly as forgiving of his transgressions as she and her parents are—but he's done his time and is on his way home again, and she has to believe this time will be different. But when the truths behind his arrests begin to surface, everything Clare's always known is shaken to its core. Clare has to decide if sticking up for herself and her future means selfishly turning her back on family...or if it's the only way to keep herself from drowning along with them.

"Linnea Hartsuyker brings myth and legend roaring to life in this superbly good page-turning saga of Viking-era Norway. The book's fiercest magic shines in the characters of Ragnvald and Svanhild, as unforgettable a brother and sister duo as I can remember. Linnea Hartsuyker is an exciting, original voice in historical fiction, and *The Half-Drowned King* is nothing short of mesmerizing."—Paula McLain,

bestselling author of *The Paris Wife* and *Circling the Sun* An exhilarating saga of the Vikings that conjures a brutal, superstitious, and thrilling ninth-century world and the birth of a kingdom—the debut installment in a historical literary trilogy that combines the bold imagination and sweeping narrative power of *Game of Thrones*, *Vikings*, and *Outlander*. Centuries ago, in a blood-soaked land ruled by legendary gods and warring men, a prophecy foretold of a high king who would come to reign over all of the north. . . . Ragnvald Eysteinnsson, the son and grandson of kings, grew up believing that he would one day take his dead father's place as chief of his family's lands. But, sailing home from a raiding trip to Ireland, the young warrior is betrayed and left for

dead by men in the pay of his greedy stepfather, Olaf. Rescued by a fisherman, Ragnvald is determined to have revenge for his stepfather's betrayal, claim his birthright and the woman he loves, and rescue his beloved sister Svanhild. Opportunity may lie with Harald of Vestfold, the strong young Norse warrior rumored to be the prophesied king. Ragnvald pledges his sword to King Harald, a choice that will hold enormous consequence in the years to come. While Ragnvald's duty is to fight—and even die—for his honor, Svanhild must make an advantageous marriage, though her adventurous spirit yearns to see the world. Her stepfather, Olaf, has arranged a husband for her—a hard old man she neither loves nor desires. When the chance to escape

Olaf's cruelty comes at the hands of her brother's arch rival, the shrewd young woman is forced to make a heartbreaking choice: family or freedom. Set in a mystical and violent world defined by honor, loyalty, deceit, passion, and courage, *The Half-Drowned King* is an electrifying adventure that breathtakingly illuminates the Viking world and the birth of Scandinavia.

Hailed by Time as an “extravagantly comic” novel, *A Woman Named Drown* is a wild and strange journey through America’s South that follows a young PhD dropout who falls in with an amateur actress-cum-pool shark. On the brink of earning his doctorate in chemistry, the unnamed narrator decides to chuck it all away in favor of real life. So begins an odd pilgrimage

through the American South. In Tennessee, our hero is bewitched by an older, gin-swilling, pool-playing sometimes-actress who claims to have recently starred in a theatrical production about a “woman named Drown.” He moves in with her and just as quickly begins encountering her strange compatriots. Before he knows it, they’re heading farther south together—to Florida—where the data that the dropout scientist is collecting from life’s laboratory is about to get quite contradictory. Richly influenced by offbeat literary giant Donald Barthelme, Padgett Powell’s *A Woman Named Drown* offers readers a smorgasbord of literary strangeness—a surreal series of adventures in which nothing much—and yet everything—happens at once.

What does it mean to devote yourself wholly to helping others? In *Strangers Drowning*, Larissa MacFarquhar seeks out people living lives of extreme ethical commitment and tells their deeply

intimate stories; their stubborn integrity and their compromises; their bravery and their recklessness; their joys and defeats and wrenching dilemmas. A couple adopts two children in distress. But then they think: If they can change two lives, why not four? Or ten? They adopt twenty. But how do they weigh the needs of unknown children in distress against the needs of the children they already have? Another couple finds a leprosy colony in the wilderness in India, living in huts with no walls, knowing that their two small children may contract leprosy or be eaten by panthers. The children survive. But what if they hadn't? How would their parents' risk have been judged? A woman believes that if she spends money on herself, rather than donate it to buy life-saving medicine,

then she's responsible for the deaths that result. She lives on a fraction of her income, but wonders: when is compromise self-indulgence and when is it essential? We honor such generosity and high ideals; but when we call people do-gooders there is skepticism in it, even hostility. Why do moral people make us uneasy? Between her stories, MacFarquhar threads a lively history of the literature, philosophy, social science, and self-help that have contributed to a deep suspicion of do-gooders in Western culture. Through its sympathetic and beautifully vivid storytelling, *Strangers Drowning* confronts us with fundamental questions about what it means to be human. In a world of strangers drowning in need, how much should we help, and how much can we help? Is it right to care

for strangers even at the expense of those we are closest to? Moving and provocative, *Strangers Drowning* challenges us to think about what we value most, and why.

When Harry and Rose meet again in Canada years later, the gulf separating them is not so apparent. As a passion long repressed is rekindled, Rose takes it upon herself to reroute their destinies. A "transcendent tale of souls wounded by circumstance and rehabilitated by love" (Booklist, starred review), *He Drown She in the Sea* is a lyrical, sensuous, and suspenseful story about the origins of

Houghton Mifflin Harcourt
Drowned, set in the idyllic countryside during a short-lived Swedish summer, gets under one's skin from the first page, creating an atmosphere of foreboding in which even the perfume of freshly picked vegetables roasting in the kitchen becomes ominous. Marina has left behind her stalled relationship and floundering career in Stockholm to visit her sister in rural Skåne, where she lives in a house full of books, gorgeous flowers and, as Marina soon learns, many secrets. Nothing is as it seems in

this spellbinding novel of psychological suspense that combines hothouse sensuality with ice-cold fear on every page. More than a mere thriller, this debut novel delves deep into the feminine soul and at the same time exposes the continuing oppression of women in Sweden's supposedly enlightened society. Mixing hothouse sensuality with ice-cold fear on every page, Drowned heralds the emergence of a major new talent on the international scene.

How To Not Drown: Awareness Saves Lives! Every day people around the world drown. Sometimes, prevention, awareness, and action can turn drownings into near-drownings! When practicing Water-Based Awareness,

Super-Diligence, and prevention, lives can be saved. Plus, the life you save just may be your own! Jennifer Webb died twice in one night while drowning, before before saved and resuscitated back to life. Had the author known about Rip Tides (Rip Currents) and to swim parallel to the shore until the waves started taking her to the beach, she may have been able to make it to shore before she died and had to be into shore for resuscitation. But she did not know about Rip Tides... So, now she shares these lessons in the hope at least one wonderful life can be saved! An Excerpt: Chapter 4 Secondary & Dry Drownings Some of the side effects from a near-drowning or drowning and resuscitation are called Secondary and/or Dry Drowning. This condition can consist of

physical instability and illness immediately after rescue, or sometimes hours, and even days after being out of the water. The effects of secondary and/or dry drowning is lethal and unfortunately many die from these dry-land conditions after having lived though drowning in the water. The body begins to digress, involuntarily, after being rescued from drowning, whether it was by circumstances, miracles, or direct interventions. Secondary drowning is the name given to this process that happens to those who live through drowning, only to later get physically ill, and even possibly die from complications relating to the first drowning. Dry drowning is sometimes called secondary drowning and can also occur between one and seventy-two hours after the first near-

drowning. This condition can occur even after only one moment of panicking in the water! A person's body can still die from this condition within moments of being pulled out of a near-drowning and for those who swim out of the water on their own. The time frame for the dangerous effects of Secondary and Dry Drowning go all the way up to three days and sometimes up to seven days or longer! Many persons who have been rescued from drowning go to sleep, but do not awaken. This usually happens after someone is pulled from the water or made it to safety on their own. I had all the symptoms of secondary and/or dry drowning of which I knew nothing about at the time. I did know to go to the hospital, because I was very aware that I was dying again even though it had been

some hours since my rescue and resuscitation. The common symptoms include breathing difficulties, chest pain, coughing, fatigue and behavioral changes. If you notice this, get the person to the emergency room as soon as possible. Drowning can happen to anyone. Children are particularly vulnerable to secondary drowning because they don't have the means of communicating their illness. Children under five are in the most danger and need extra attention after playing in any water. If someone almost drowns, no matter their age or ability, they need to be watched and monitored by someone who knows their usual behaviors, to decide if there are any changes in their physical and mental, usual demeanor. If you go swimming alone, let someone

know the time frame in which you will be gone. Ensure that you let that person know if anything happens while swimming and ask them to check in or stop by if you feel that there are any changes. Be ready for the possibility of an emergency room visit, if you do reach that point. Water-Based Safety and Awareness Saves Lives!

Conceptual Writing by Women Drown Drowning By Accident explains why it is so easy to drown, where accidents happen, and how to save lives by early rescue and resuscitation. More than 600 people die by drowning in Britain every year. Swimming is promoted as a particularly safe form of exercise, so that swimmers forget or ignore the dangers of frigid lakes, swollen rivers, incoming tides or outgoing rip currents. Drowning accidents take place because we don't recognise water as a hostile environment. We overestimate the strength and endurance of our bodies and underestimate the power and

deceptiveness of water. Year after year, victims lose their lives in typical drowning accidents, often sinking so quickly and silently that nearby family, friends and onlookers fail to notice the tragedy taking place close beside them. Babies drown in baths. Toddlers drown in garden ponds. School children fall off rafts. Teenagers strike too far from the shore. Pensioners wade into rivers to save their dogs. Victims often die within minutes of sinking beneath the surface. A quarter of those who reach hospital alive will also die, while others survive with severe permanent brain damage. This means that it is vitally important for parents, grandparents, teachers, lifeguards and lawmakers to recognise the risks and prevent drowning accidents before they take place.

Explore the wondrous sea and the oddities of human nature in this international bestselling, thrilling epic novel of a Danish port town. Hailed in Europe as an instant classic, *We, the Drowned* is the story of the port town of Marstal, Denmark, whose inhabitants sailed the world from the mid-nineteenth century to the end of the Second World War. The novel tells of ships wrecked and blown up in wars, of places of terror and violence that continue to lure each generation; there are cannibals here, shrunken heads, prophetic dreams, and miraculous survivals. The result is a brilliant seafaring novel, a gripping saga encompassing industrial growth, the years of expansion and exploration, the crucible of the first half of the twentieth

century, and most of all, the sea. Called “one of the most exciting authors in Nordic literature” by Henning Mankell, Carsten Jensen has worked as a literary critic and a journalist, reporting from China, Cambodia, Latin America, the Pacific Islands, and Afghanistan. He lives in Copenhagen and Marstal. “We, the Drowned sets sail beyond the narrow channels of the seafaring genre and approaches Tolstoy in its evocation of war’s confusion, its power to stun victors and vanquished alike...A gorgeous, unsparing novel.”—Washington Post “A generational saga, a swashbuckling sailor’s tale, and the account of a small town coming into modernity—both Melville and Steinbeck might have been pleased to read it.”—New Republic “Dozens of stories coalesce into an

odyssey taut with action and drama and suffused with enough heart to satisfy readers who want more than the breakneck thrills of ships battling the elements.”—Publishers Weekly (starred) Penguin
