Mudraraksasa Is A Historical Play Of The Nataka Type In Seven Acts Written By Vishakadatta In 6Th Century A.D., In Which Chanakya, The Minister Of King Chandragupta Of Pataliputra, Wins Over

Rakshasa, The Minister Of The Nandas To The Side Of Chandragupta. It Is An Unique Play In Many Respects. The Play Is Based On A Political Theme And It Bears Testimony To The Consummate Skill Of Visakhadatta As A Dramatist. It Does Not Present Any Of The Recognized Dramatic Sentiments (Rasa), But Introduces A New, Hitherto Unrecognized Sentiment Of Intense Rivalry Between Two Sharp-Witted Ministers Dedicated To The Service Of Their Respective Kings. *The Official Guide for GMAT Review 2017 with Online Question Bank and Exclusive Video* Ramesh Publishing House

Investing in Resilience: Ensuring a Disaster-Resistant Future focuses on the steps required to ensure that investment in disaster resilience happens and that it occurs as an integral, systematic part of development. At-risk communities in Asia and the Pacific can apply a wide range of policy, capacity, and investment instruments and mechanisms to ensure that disaster risk is properly assessed, disaster risk is reduced, and residual risk is well managed. Yet, real progress in strengthening resilience has been slow to date and natural hazards continue to cause significant loss of life, damage, and disruption in the region, undermining inclusive, sustainable development. Investing in Resilience offers an approach and ideas for reflection on how to achieve disaster resilience. It does not prescribe specific courses of action but rather establishes a vision of a resilient future. It stresses the interconnectedness and complementarity of possible actions to

achieve disaster resilience across a wide range of development policies, plans, legislation, sectors, and themes. The vision shows how resilience can be accomplished through the coordinated action of governments and their development partners in the private sector, civil society, and the international community. The vision encourages “investors” to identify and prioritize bundles of actions that collectively can realize that vision of resilience, breaking away from the current tendency to pursue disparate and fragmented disaster risk management measures that frequently trip and fall at unforeseen hurdles. Investing in Resilience aims to move the disaster risk reduction debate beyond rhetoric and to help channel commitments into investment, incentives, funding, and practical action

Three Men in a Boat published in 1889, is a humorous account by English writer Jerome K. Jerome of a two-week boating holiday on the Thames from Kingston upon Thames to Oxford and back to Kingston. The book was initially intended to be a serious travel guide, with accounts of local History along the route, but the humorous

elements took over to the point where the serious and somewhat sentimental passages seem a distraction to the comic novel. One of the most praised things about Three Men in a Boat is how undated it appears to modern readers - the jokes have been praised as fresh and witt
