Healing the Sounds - Heard and Unheard - of Humans and Animals. 'Read about the medicine of the future. . . . [This] book will awaken you to your essence - sound and vibration - which can be more beautifully tuned. Through energy work your chances for true healing (not just squelching symptoms temporarily) increase greatly. . . . I've sent enough people to Deena to know that it works, and I've had several tune-ups myself.' - Christiane Northrup, M.D.

A Richard and Judy Book Club pick, set in Paris and Italy, *The Truths and Triumphs of Grace Atherton* is a beautiful and uplifting exploration of love, loss and hope 'The real truth and triumph of this gem of a story is simple: it is one of the best and most gripping descriptions of heartbreak that either of us have ever read' Richard and Judy's review Grace Atherton, a talented cellist, is in love with David. Together in their apartment in Paris, Grace and David are happy until an unexpected event changes everything. Nadia is seventeen and furious. She knows that love

will only let her down: if she is going to succeed it will be on her own terms. At eighty-six Maurice Williams has discovered a lot about love in his long life, and even more about people. And yet he keeps secrets. When Grace's life falls apart in the most shocking of ways Maurice and Nadia come to her rescue, helping her to find happiness and hope through the healing power of friendship. Praise for *The Truths and Triumphs of Grace Atherton* 'Glorious on so many levels' A J Pearce, author of *Dear Mrs Bird* 'Lose yourself among beautiful symphonies, the romantic cities of Europe and quirky characters ... a triumph' *Woman's Weekly* 'A powerful and passionate novel, awash with heartbreak but still an uplifting tale of friendship and rebirth. Five stars' *Daily Express* 'Full of hope and charm' Libby Page, author of *The Lido* 'A hymn to friendship, to getting back up and finding happiness where none seemed possible' Katie Fforde Pre-order Anstey Harris' wonderful new book *Where We Belong now* - ISBN 97811473837

Improve on cello basics. *Cello Book One* helps beginning cellists play more fluently. Easy exercises are combined with famous themes from classical pieces (Mussorgsky's *Pictures at an Exhibition*, Mozart's *Alleluia*, and more) to build valuable left and right hand skills and improve your overall playing ability.

Teachers can use this book as a method or as a supplemental study book, especially with beginning students who know a few

notes but need more work on note-reading. *Cello Book One* is an excellent companion to *Knowing the Notes for Cello* and *Playing the Cello, Book One*.

This book presents a unique view of the work of the great Italian violin-makers from the 17th to the 19th centuries, based on the collection of The Royal Academy of Music in London. The Academy, founded in 1822, is Britain's senior conservatory and one of the oldest institutions in the world for advanced musical training. Included here are masterpieces by Amati, Cappa, Celoniato, Ceruti, Dalla Costa, Deconet, Gagliano, Grancino, Guadagnini, Guarneri, Landolfi, Pressenda, Rota, Rugeri, Seraphin, Sorsana, Stradivari, Tecchler, and Testore. This revised edition has an updated descriptive text, features 15 extra entries, devotes at least two full-color spreads to each instrument, and is supplemented with a new dendrochronological study. Specially-commissioned photographs display each violin, viola, or cello with large, high-quality illustrations, revealing details of these instruments as never before. The Academy's collection of stringed instruments consists of around 100 violins and a similar combined number of violas and celli, the majority of which were received as gifts over the last century, beginning with the Rutson Bequest in 1906. These working instruments are maintained in fine playing condition and generally are in the hands of young musicians during their time as students or at the outset of their careers. The fine selection presented here underlines the collection's core of masterpiece Italian violins, and for the most part this book includes only those instruments in the purest state of conservation.

Cello Book One Henry a Strobel

"This book is a cello method for beginners and is composed of different chapters. The concepts and techniques are learned very progressively and are introduced by theory boxes and exercises. The pieces are ordered by key signature and hand position. They are well known classical themes from famous composers, popular folk songs from several countries and pieces by the author"--

Let's Do A Thing! (Victor Shmud, Total Expert #1) Scholastic Inc.
Cello Playing for Music Lovers provides beginners and intermediate students with an authoritative, step-by-step guide to learning to play the cello. Diliانا Momtchilova, a graduate of Julliard, provides technical explanations and many photos. Gifted cellist Erik Friedlander plays the 116 musical figures discussed in the book on the accompanying play along CD. The book includes musical examples from folk, Broadway and classical traditions. Written from the student's viewpoint, it teaches all the

required skills, including reading music, using the bow effectively, analyzing musical structures, The book starts from scratch with songs transcribed for beginners and advances gradually to 4th position Included are folk songs, hymns, Broadway standards like "Some Enchanted Evening," and classical selections like a Bach Prelude and Sarabande. Later sections explore some music theory and how to play in chamber music groups The author, a Ph.D. and experienced teacher, presents this fascinating material in small, logical steps. As cellist Aaron Minsky said, "Your idea that the cello can be enjoyed on a simple level even within a few weeks of study is very true. . . This book will bring the joys of cello playing to many people who would not have believed it possible." Playing the cello will give any music lover unparalleled satisfaction. If you always wished you could do it "in your next life," do it now.

This book teaches the fourth position on the cello through original technique and carefully chosen study material. Shifting, playing across strings, harmonics, and extended fourth position are covered extensively. Fourth Position for the Cello is the ideal book with which to begin shifting.

PRACTICAL PERSPECTIVES & PROCEDURES

Henry a Strobel

Compiling and organizing some of the most effective etudes written for cello, this series of foundation studies gives you a comprehensive step-by-step method for perfecting your cello playing! The Cello Etude System presents both rare and classic

etudes, interspersed with newly written material, providing cello teachers and students with a library of essential resources for teaching and learning cello. Recognizing that students learn at different speeds, The Cello Etude System books allow cellists to learn at either a relaxed pace or an accelerated pace. With works by Schroeder, Nolck, Werner, Davidov, Romberg, and more, this book has a huge array of rare studies for beginning cello. There is a separate duet accompaniment volume for this book: The Cello Etude System, Part 0; Beginning Studies, Duet Book. This book, Part 0, presents cello etudes at a beginning level, starting with open strings and gradually progressing to fingered notes. All of the etudes in this book are in closed first position. This book could be followed by The Cello Etude System, Part 1A, which teaches more complex etudes in closed first position.

From Stradivarius to the modern day, violins have been revered as much for the beauty of their design as for their music. Violin Making enables anyone, whether a beginner or a skilled woodworker, to follow in the tradition of the Italian masters and, literally, make their own music. The book includes a short history of violin making; an introduction to materials, design, and techniques; chapters on each stage of making a violin, from the rib structure to varnishing and stringing the instrument; tables of measurements, including violins, violas, and cellos from quarter to full size; and 200 clear color photos and diagrams. Juliet Barker trained at the Bavarian School of Violin Making; she is a professional violin maker, restorer, and teacher.

The Swan Study Book for Cello helps you learn and perfect every measure of the famous piece. The Swan is broken down into short sections and taught through carefully graded exercises. Skills that would otherwise be difficult, such as shifts and fast scale patterns, can now be mastered. You can be free to concentrate on artistic expression by solidifying your cello technique. The Swan Study Book gives you essential tools to be a better cellist. This book is appropriate for intermediate level cellists who can play up through eighth position and know some tenor clef. An overview of tenor clef is included, as well as a section on producing better tone. If needed, preparatory exercises for The Swan are in the back of the book. The entire cello part to Camille Saint-Saens' The Swan is presented at the end of the book (the piano accompaniment is not included).

What does it mean to perform expressively on the cello? In Cello Practice, Cello Performance, professor Miranda Wilson teaches that effectiveness on the concert stage or in an audition reflects the intensity, efficiency, and organization of your practice. Far from being a mysterious gift randomly bestowed on a lucky few, successful cello performance is, in fact, a learnable skill that any player can master. Most other instructional works for cellists address techniques for each hand individually, as if their

movements were independent. In *Cello Practice, Cello Performance*, Wilson demonstrates that the movements of the hands are vitally interdependent, supporting and empowering one another in any technical action. Original exercises in the fundamentals of cello playing include cross-lateral exercises, mindful breathing, and one of the most detailed discussions of intonation in the cello literature. Wilson translates this practice-room success to the concert hall through chapters on performance-focused practice, performance anxiety, and common interpretive challenges of cello playing. This book is a resource for all advanced cellists—college-bound high school students, undergraduate and graduate students, educators, and professional performers—and teaches them how to be their own best teachers.
