SPIRIT AND BELIEF

Legends Press
Bernt Spiegel's *The Upper Half of the Motorcycle* was a best-selling motorcycling book in its original German with multiple editions and printings to its credit. Now translated into English, its provocative message is available to a wider audience. Spiegel's metaphor considers the rider and the motorcycle as a single unit, the rider being the upper half. Taking a multidisciplinary approach, the author

draws on anthropology, psychology, biology, physics, and other disciplines to analyze the theory and function of the man-machine unit. Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves. The ultimate goal for riders is the integration of the man-machine interface and subsequent skill development to the point of virtuosity. Spiegel considers the various aspects of motorcycle riding that must be understood, practiced, and mastered before

virtuosity can be attained. Many anecdotes, supplementary material, and in-depth treatment of specialized topics is contained in sidebars and footnotes.

Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set.

By finding out how your intuition works, you can connect with anyone in spirit without

true mediumship qualities. I have done this with the *Ultimate Warrior*, and this book will explain my journey through meditation, dreams, signs, and many other traits. My humility enabled the universe to work with me, and I never doubted. If you wish to connect with a passed celebrity in spirit, my book will show how you too can work with your abilities while remaining genuine in your intent.

Do you believe in witches? Well, every witch had to have been a kid at first. Lilly can see, hear, and do things that no one else can. Getting into trouble is easy for Lilly because she forgets and does and says things that can call attention to herself. Lillian is not sure what you would call someone like her, but she has an idea. Lillian is a little kid in Boston during the 1950s. Lilly can predict the weather, find lost

items, know who is calling on the phone, and just by concentrating, she can become the person and find out how she or he thinks and feels. She can see ghosts and perform feats of telekinesis, as well as tap into a plethora of handy and amusing bits of other magic. Lilly has one adventure after another, and sometimes she discovers another new paranormal ability along the way. She tries to find the good in people most of the time, but sometimes people can be mean. Bit of a Witch

Turtleback Books
Jennifer Houle's debut collection, *The Back Channels*, reflects the effort to build a meaningful life in a rapidly changing culture, in a region afflicted, as many are, with outmigration and an economy of anxiety and hard choices. Here, where memories of a more prosperous past loom large, she

takes us to the backwoods where a discouraged woman walks, down to the shore beyond the fairgrounds, and into the parking lots where smokers gather to talk about layoffs or pay cuts. Houle's poems invite the reader to listen in on these moments and pause among these landscapes, never mistaking its often rural settings for places of retreat or escape. The largely Acadian culture depicted in these poems may still be influenced by the past, caught in its own

reflected image, but it moves, as do the poems, to a steady, if moody, rhythm determined to find meaning and purpose in spite of difficulties, flux, and a seemingly pervasive cynicism. Reminiscent of Karen Solie's early work, Houle's brilliance as a poet is her mastery of language and keen sense of observation with which she draws the reader in. These poems come from a place of grappling, an attempt to find meaning, beauty and connection in the day-to-day, without being confined by it.
