Robert Venturi: Architecture's Improper Hero Part 1Complexity And Contradiction In ArchitectureA "gentle manifesto for a nonstraightforward architecture," Venturi's Complexity and Contradiction in Architecture expresses in the most compelling and original terms the postmodern rebellion against the purism of modernism. Three hundred and fifty architectural photographs serve as historical

comparisons and illuminate the author's ideas on creating and experiencing architecture.Complexity and Contradiction in Architecture: Robert ...architecture evokes many levels of meaning and combina-tions of focus: its space and its elements become readable and workable in several ways at once. But an architecture of complexity and contradiction has a special obligation toward the whole: its truth must be in its totality or its

implications of totality. It must embody Complexity and Contradiction in Architecture. The "dialectical narrative" follows that architecture, as lineage, modernism included (in its best sense), is complex and contradictory. The greater point is that this implies many other good things about architecture. Architecture(PDF) Complexity and Contradiction in Architecture ... Whereas some of his acolytes have firmly established the notion that Complexity and Contradiction reintroduced history into contemporary architectural discourse as well as an appreciation of the formal repertoire of the Classical language of architecture, that was precisely not what Venturi argued for. Rather, he was interested in using the history of architecture - entirely subjectively and

guided by his own taste preferences - not as a repository of forms, but of abstract compositional ... 'Complexity and Contradiction changed how we look at ...
