This case describes and explains a common problem encountered frequently by overseas manufacturers who want to enter an emerging market through a third-party agent representation. The overseas supplier uses the agent's service and solid reputation to enter an emerging market with limited exposure to costs and risk. The agent works towards guarding the

relationship with the overseas supplier for as long as possible. The development of the relationship illustrates what kind of conditions have to be stipulated in advance to provide an acceptable solution to both parties concerned once they part ways.

Sustainable finance has been one of the

emerging areas of finance in the last decade. With its emphasis on any form of financial services that take environmental, social and governance (ESG) considerations into account in decision-making processes, it can help to improve social well-being, preserve the ecosystems and promote sustainable economic development. Furthermore, it can contribute to economic and financial resilience, along with enabling sustainable recovery against crises arising from physical or financial shocks. The Handbook of Research on Global Aspects of Sustainable Finance in Times of Crises discusses theory and concepts, focuses on practices and strategies, addresses the recent challenges and trends, and presents future prospects regarding sustainable finance. It provides a global look at sustainable finance in a variety of contexts, along with highlighting contemporary issues in light of crises such as the climate emergency and the COVID-19 pandemic. Covering a wide range of topics such as climate finance, green finance, social finance, ESG investing and responsible banking, the book is ideal for corporate managers, portfolio managers, investors, financial analysts, researchers, academicians, students and policymakers.
