CHRISTINA, BOOK 2: THE VISION OF THE GOOD

978-0-6452878-8-2

It's Christmas Eve, 2017. A philosophy professor is on her way to celebrate with her family when she is hauled out of a taxi and bundled into an interrogation room. Opposite her, the senior officer is cynical, smart and relentless. Incriminating evidence has been found against her. Or has it? Is a terrorist attack imminent or is this a case of state paranoia? The clock ticks. Played out in real time, this riveting thriller pits two powerful antagonists head to head. Both think they are saving their country. Only one of them will win. Daniel Kehlmann's Christmas Eve , translated by Christopher Hampton, premiered at the Ustinov Theatre, Bath, in October 2017.

The Big Diogenes: And Other Stories From The Anthropocene 978-1-7778384-0-9

Talks about how the legend of zombies started, what events cause zombies to appear, how they behave, and examples of zombies from other cultures.

A Complete Solution Guide to Real and Complex Analysis Forever

From a bestselling author, a captivating suspenseful, romantic, crime story. Contains mature content. The only daughter in a very strict family, Winyo's life has never been her own. Not wanted. Never touched. Never experienced pleasure. Until one day, something changed; stripped her innocence away. The hole inside making space for the darkness to come and play. The vast savanah cannot shut out the cold eyes and wild rumours of the village. She is not quite sure what she wants for herself, or how to bring an end to this newly awakened darkness. And when Guma,

the rumoured witch's son, enters her life, survival becomes tangled with desire and need. He incites her anger, makes her question everything she believes in, and forces her to push her boundaries. However, some walls are just not strong, and they crumble. Let the secrets begin...

The second book continues the story again from the perspective of her mother, Bernadette of Christinas development: the end of her school days, the revelation of her life plan and the impressive start of her work in public. Further topics in Book 2 are: the universal rules of life; how to follow our individual soul path and unfold our personal potential; support from our spiritual companions; practical tips for increasing individual and collective vibration frequency; the silent revolution of unconditional love; the importance of grounding for time-change people; the essential link between lateral thinking and spirituality; holistic science and positive technology; four possible consciousness orientation choices; the five-dimensional future of humanity on earth and the approaching golden age. I am here to help human beings to reach a state of expanded consciousness. With an expanded horizon, they will be able to see what is not working properly on this planet today for themselves. Then they can develop new solutions and perspectives in every area of life that will be successful in the long term. But human beings have free will. The decision is theirs alone. (Christina von Dreien) We are all equal in our innermost core. No one is more advanced than anyone else, no light is brighter than any other, and no task in life is more important than any other. We are all divine beings who are experiencing being human, and not human beings who are becoming divine. (Christina von Dreien)

WILD: THE NATURALISTIC GARDEN

Govinda-Verlag

Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a broad sense today that the Church, however well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say about Christianity's track record over the ages. This detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores, the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. The Scandal of the Scandals separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little you really knew about Christianity.

The Big Diogenes Ray Darwin is a disciple of Jeffrey Lebowski and an ordained minister in the Church of the Latter Day Dude. With his two sidekicks John and Rog, he convinces retired British rock star, Alex Watt, to write a theme track to promote Dudeism and The Tao of the Dude as the faith best able to inspire the revolutionary change needed to save humanity from the global climate crisis. Accompanying them on back-up are Liz Watt, former London stage actor and wife of Alex; Little Diogenes a blind, anti-social dog; and The Pisser, AKA: Ape, Apeman, Apemanus, Manus, or Big Diogenes, a homeless, misanthropic philosopher of the Greek Cynic tradition. Will it end well? Possibly not. But there will be music, intoxication, and frank exchanges of views. Death of a Boomer Norman Wolfe is a successful real estate salesman in the midst of the Covid-19 pandemic, divorced, working too hard, and making too much money. One day the thought dawns on him to search for the great unrequited love of his adolescence. Flying across the continent from the west coast to the east, in effect travelling four hours into the future, he passes instead into a world where past, present, and future are all cast into doubt. Ah, Paradise An Alberta petroleum executive's vacation idyll is impacted by karma. The Idiot A dying man receives a lesson in Russian literature, when all he wanted was a smoke. Graveyard Shift An old man recalls his final shift as a youthful convenience store clerk. Easter, 2021 Contrasting Yeats' tribute to the heroic, self-sacrificing actions of ordinary citizens during the Irish rebellion of Easter, 1916; Easter, 2021 depicts the selfish and essentially self-destructive actions of modern day citizens during a time of global pandemic and climate crisis.

THE FLYING MOUNTAIN

Independently Published

The pirate is the original enemy of humankind. As Cicero famously remarked, there are certain enemies with whom one may negotiate and with whom, circumstances permitting, one may establish a truce. But there is also an enemy with whom treaties are in vain and war remains incessant. This is the pirate, considered by ancient jurists considered to be "the enemy of all." In this book, Daniel Heller-Roazen reconstructs the shifting place of the pirate in legal and political thought from the ancient to the medieval, modern, and contemporary periods presenting the philosophical genealogy of a remarkable antagonist. Today, Heller-Roazen argues, the pirate furnishes the key to the contemporary paradigm of the universal foe. This is a legal and political person of exception, neither criminal nor enemy, who inhabits an extra-territorial region. Against such a foe, states may wage extraordinary battles, policing politics and justifying military measures in the name of welfare and security. Heller-Roazen defines the piracy in the conjunction of four conditions: a region beyond territorial jurisdiction; agents who may not be identified with an established state; the collapse of the distinction between criminal and political categories; and the transformation of the concept of war. The paradigm of piracy remains in force today. Whenever we hear of regions outside the rule of law in which acts of "indiscriminate aggression" have been committed "against humanity," we must begin to recognize that these are acts of piracy. Often considered part of the distant past, the enemy of all is closer to us today than we may think. Indeed, he may never have been closer.

Christina, Book 1: Twins Born as Light Mit Press

Book 1 of the best selling book series about Christina von Dreien - now in English translation: Christina (born 2001) is a young woman from Toggenburg, Switzerland. She was born with greatly expanded consciousness and thus belongs to a new generation of young evolutionary thinkers who recognise, describe and live human existence as a complexity of quantum physics, neuropsychology and spirituality. She has always shown remarkable insight into today's world events and one cannot help but be astonished by her high ethics, her wisdom and inner peace that hint at a new dimension of being human. Without being overchallenged in any way, Christina displays a completely natural handling of a multitude of paranormal gifts such as multi-dimensional perception, aura perception, clairvoyance, telepathy, telekinesis, contact with other levels of existence, animal and plant communication and the like. From birth, she has also been consciously connected to higher dimensional spheres and civilisations of light. A harbinger of a new stage in human evolution, Christina, together with her twin sister Elena, incarnated on Earth

to spread light and peace. She says, "The lights are already here, all over the world. It just needs someone to press the 'On' button." The first book tells the story of Christina's extraordinary birth, childhood and youth up to the age of 16, from the perspective of her mother, Bernadette. For Christina, it was a time of becoming accustomed to three-dimensionality, of being trained and tested in order to prepare herself for her life's task. Christina summarises this task with the three core concepts of freedom, truth and love.

Seven Seas Entertainment

In this New York Times bestselling thriller, a doctor is kidnapped in the mountain wilderness after a fight with her husband -- and as the FBI closes in, she must make dangerous choices to survive. Dr. Emory Charbonneau, a pediatrician and marathon runner, disappears on a mountain road in North Carolina minutes after an argument with her husband Jeff. But by the time he reports her missing, the trail has (literally) gone cold. Fog and ice encapsulate the wilderness and freeze the search. While police suspect Jeff of "instant divorce," Emory regains consciousness only to find herself the captive of a man whose violent past is so dark he won't even tell her his name. She's willing to take any risks necessary to survive. But before she can escape, the two encounter dangerous people who adhere to their own code of justice. A desperate young woman is caught at the center of a dispute, and Emory can't bring herself to look the other way, even if it means breaking the law. Rising tension and barely restrained passion blurs the lines between right and wrong, and Emory begins to wonder if the man with no name is the one who has rescued her from death . . . and from heartbreak. Combining the nail-biting suspense and potent storytelling that has made Sandra Brown one of the world's best-loved authors, Mean Streak is a wildly compelling novel about love, deceit, and the choices we must make when our lives are on the line.

FINLEYI may be young, but I know what I want. I yearn to be submissive, both in and out of the bedroom. There's nothing I crave more than being under the control of another man. Handing over power would fulfill a need I feel down to the marrow of my bones. What I don't know is how to get it. This kind of relationship requires complete trust-something I don't give to anyone except my only friend. Then along comes Dr. Aidan Kingsley. For the third time in my life, he helps me, without even knowing it, and someone like that, I can't help but believe in. This is the man I'm meant to be on my knees for. Aidan is meant to be my Sir.AIDANI've never had a full-time submissive. I've certainly never had a houseboy, but when I meet Finley, I can't seem to turn him away. Instead, I decide to keep things simple, showing Finley that he can take pride on his knees but also stand on his own. He takes care of my home, and he gives me control, in a strictly platonic way, even though he wants more. He's so beautiful, so naturally submissive, that I'm having a hard time sticking to my rules. The more he flourishes and the more he craves from me, the tougher I find it to deny him. Before I know it, he's under my skin. In my bed and in my heart. It wasn't supposed to go this far. I was only supposed to give him the tools he needed to find his own strength, yet somehow, in the finding of Finley, I found myself too. But my precious boy is only twenty; nineteen years my junior. And as I've told him, forever is a long time, and nothing in life is guaranteed.

This is a complete solution guide to all exercises from Chapters 1 to 20 in Rudin's Real and Complex Analysis. The features of this book are as follows: It covers all the 397 exercises from Chapters 1 to 20 with detailed and complete solutions. As a matter of fact, my solutions show every detail, every step and every theorem that I applied. There are 40 illustrations for explaining the mathematical concepts or ideas used behind the questions or theorems. Sections in each chapter are added so as to increase the readability of the exercises. Different colors are used frequently in order to highlight or explain problems, lemmas, remarks, main points/formulas involved, or show the steps of manipulation in some complicated proofs. (ebook only) Necessary lemmas with proofs are provided because some questions require additional mathematical concepts which are not covered by Rudin. Many useful or relevant references are provided to some questions for your future research.
