"Gilda, a twenty-something, atheist, animal-loving lesbian, cannot stop ruminating about death. Desperate for relief from her panicky mind and alienated from her repressive family, she responds to a flyer for free therapy at a local Catholic church, and finds herself being greeted by Father Jeff, who assumes she's there for a job interview. Too embarrassed to correct him, Gilda is abruptly hired to replace the recently deceased receptionist Grace. In between trying to memorize the lines to Catholic mass, hiding the fact that she has a new girlfriend, and erecting a dirty dish tower in her crumbling apartment, Gilda strikes up an email correspondence with Grace's old friend. She can't bear to ignore the kindly old woman, who has been trying to reach her friend through the church inbox, but she also can't bring herself to break the bad news. Desperate, she begins impersonating Grace via email. But when the police discover suspicious circumstances surrounding Grace's death, Gilda may have to finally reveal the truth of her mortifying existence."--Amazon.

The police called it an accident. The dead man's wife insisted it was murder. Either way it was maddeningly mysterious. Captain Harold Jeffries, swaddled in his robe, had settled down for a cozy evening with *Crime and Punishment* when his wife left the house for a bridge party. An hour later he was dead. What could have induced him to dress and go out into the stormy night—much less to walk on the beach, which he hated and never went near? Conan Flagg, proprietor of the Holliday Beach Bookshop and Rental Library, is persuaded by Jeffries' widow to investigate privately; and astonishingly, all the clues lead to Flagg's own Dickensian establishment. With passing assistance from Meg, the bookstore cat, Flagg baits a trap to catch a rat—and finds himself dangerously involved in a crime with implications far beyond this lazy seaside village.

An NPR Best Book of the Year A Vanity Fair Best Summer Read "A haunting, mind-bending memoir. . . . riveting." —New York Times "A mixture of biography and true crime, this narrative . . . offers more plot twists, shocking revelations and shady characters than most contemporary thrillers." —NPR The Book of Atlantis Black will have you questioning facts, rooting for secrets, and asking what it means to know the truth. A young woman is

found dead on the floor of a Tijuana hotel room. An ID in a nearby purse reads “Atlantis Black.” The police report states that the body does not seem to match the identification, yet the body is quickly cremated and the case is considered closed. So begins Betsy Bonner’s search for her sister, Atlantis, and the unraveling of the mysterious final months before Atlantis’s disappearance, alleged overdose, and death. With access to her sister’s email and social media accounts, Bonner attempts to decipher and construct a narrative: frantic and unintelligible Facebook posts, alarming images of a woman with a handgun, Craigslist companionship ads, DEA agent testimony, video surveillance, police reports, and various phone calls and moments in the flesh conjured from memory. Through a history only she and Atlantis shared—a childhood fraught with abuse and mental illness, Atlantis’s precocious yet short rise in the music world, and through it all an unshakable bond of sisterhood—Bonner finds questions that lead only to more questions and possible clues that seem to point in no particular direction. In this haunting memoir and piercing true crime account, Bonner must decide how far she will go to understand a sister who, like the mythical island she renamed herself for, might prove impossible to find.

America was certainly the big winner of World War II, being the last major country intact. Euphoria, hubris, and a naive self-confidence became hallmarks of the people. This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyone feel so smart, and the U-2 spy incident of 1960 that revealed Americans were being lied to by the government. The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day. When the War ended, the United States still had its economy, infrastructure and industry intact. Taking up where the British Empire left off, the powerful new America expanded its influence around the globe. Suddenly light years ahead of any competitor, Americans abandoned themselves to a haze of consumerism and entertainment, trusting that they were safe and could not be harmed. The contestants on the big-money quiz shows turned out to be fakes, and the respected TV executives were also revealed to be liars and cheats. Far worse was yet to come. The United States government was caught in a lie regarding the CIA’s U-2 reconnaissance planes overflying the Soviet Union. On the eve of a crucial summit meeting in 1960, the USSR knocked Gary Powers out of the sky, along with plenty of incriminating hardware and data. Moscow delayed revealing what it knew, and Washington spent ten days denying it was a spy plane, then denying that President Eisenhower was aware of it. The world was turning into a very scary place, and soon, American schoolchildren were being taught to duck under their desks if a bomb should strike. Fear began to percolate into the heart of the nation.

The Strange Death of Europe is the internationally bestselling account of a continent and a culture caught in the act of suicide, now updated with new material taking in developments since it was first published to huge acclaim. These include rapid changes in the dynamics of global politics, world leadership and terror attacks across Europe. Douglas Murray travels across Europe to examine first-hand how mass immigration, cultivated self-distrust and delusion have contributed to a continent in the grips of its own demise. From the shores of Lampedusa to migrant camps in Greece, from Cologne to London, he looks critically at the factors that have come together to make Europeans unable to argue for themselves and incapable of resisting their alteration as a society. Murray’s “tremendous and shattering” book (The Times) addresses the disappointing failures of multiculturalism, Angela Merkel’s U-turn on migration, the lack of repatriation and the Western fixation on guilt, uncovering the malaise at the very heart of the European culture. His conclusion is bleak, but the predictions not irrevocable. As Murray argues, this may be our last chance to change the outcome, before it’s too late.

More than two millennia have passed, but Alexander the Great is still a household name. His life was an adventure story and took him to every corner of the ancient world. His memory and glamour persist, and his early death at thirty-three has kept him evergreen in our imaginations with a legacy that meant something different to every age- in the Middle Ages he became an exemplar of knightly chivalry, he was a star of Renaissance paintings, and by the early twentieth century he even came to resemble an English gentleman. But who was he in his own time? In *Alexander the Great*, Anthony Everitt judges Alexander’s life against the criteria of his own age and considers all his contradictions. We meet the Macedonian prince who was naturally inquisitive and fascinated by science and exploration, who enjoyed the arts and used the poet Homer’s great epic, the Iliad, as a bible. As his empire grew, stretching from Greece and Macedonia to Ancient Egypt and Persia and all the way to India, Alexander exhibited respect for the traditions of his new subjects and careful judgment in administering rule over a vast territory. But his career also had a dark side. An inveterate conqueror, who in his short life built the largest empire to that point in history, Alexander glorified war and was known to commit acts of great cruelty. As debates continue about the meaning of his life, Alexander’s death remains an unsolved mystery. Did he die of natural causes, felled by a fever, or did his marshals, angered by his tyrannical behavior, kill him? An explanation of his death can lie only in what we know of his life, and Everitt ventures to solve that puzzle, offering an ending to Alexander’s story that has eluded so many for so long.

Death in the Air Treasury of Xxth Century Murde

"Is sex the basic force of life-or is it a terminal disease? For Rodney Buckthorne, sensitive satyr, literate lecher, aging Bohemian nearing the summit in a life-long struggle up the dizzying heights of Mount Venus, the answer to this question seemed near at hand. Seeking it, he had fled wife, child, and the groves of academe, and put behind him the years misspent in guiding nubile co-eds through pastures of poetic plenty, and had launched himself

into one last seminal odyssey through the hearts and beds of New York’s women. His guide (and his nemesis) was Nickie Duart, a clean-cut, curly-headed, pot-smoking, vicious young artist with dreams of grandeur beyond Andy Warhol’s wildest imaginings. It was through Nickie that he met Lois, the dark lady of macaroni commercials, and the too-fecund Cynthia, and Maris, and Marsie, and Regina, and the former champion baton twirler and all the ones who remained nameless in the lusting, searching nights. And as the staff of life at last began to bend and the lure of the veiled lady became blinding, it was through Nickie that he came to the end of the world, perhaps the most bizarre and ironic "happening" in modern fiction and found the answer to the riddle of his long quest. For Rodney Buckthorne, like Humbert Humbert, is a seeker-and as with Nabokov’s obsessed wanderer, the passionate journey of Rodney Bucktbome casts a brilliant light on the current cultural scene and deftly pricks the frail bubble of American morality."--

Winner of the UK’s 2022 Costa Prize for Biography “A portrait of one of the most enigmatic figures in the annals of white-collar crime. . . . A well-researched, compelling book that uncovers many mysteries about a media tycoon.”—Kirkus Reviews From the acclaimed author of *A Very English Scandal*, a thrilling and dramatic true-life account of the rise and fall of one of the most notorious media moguls of all time: Robert Maxwell. In February 1991, Robert Maxwell triumphantly sailed into Manhattan harbor on his yacht, the *Lady Ghislaine*, to buy the ailing *New York Daily News*. Taxi drivers stopped their cabs to shake his hand, children asked for his autograph, and patrons of the hottest restaurant in Manhattan gave him a standing ovation while he dined. Ten months later, Maxwell disappeared off that same yacht in the middle of the night and was later found dead in the water. As John Preston reveals in this entertaining and revealing biography, Maxwell’s death was as mysterious as his remarkable life. A tightly paced, addictive saga of ambition, hubris, narcissism, greed, power, and intrigue, Fall recounts Maxwell’s rise and fall and rise and fall again. Preston weaves backwards and forwards in time to examine the forces that shaped Maxwell, including his childhood as a Jew in occupied Eastern Europe through his failed political ambitions in the 1960s which ended in accusations of financial double-dealing, and his resurrection as a media mogul--and on to the family legacy he left behind, including his daughter Ghislaine Maxwell. Preston chronicles Maxwell’s all-encompassing rivalry with Rupert Murdoch—a battle that ruined Maxwell financially, threatened his sanity and lead, indirectly, to his death. Did Maxwell have a heart attack and fall overboard? Was his death suicide? Or was he murdered—possibly by Mossad or the KGB? Few in the twentieth century journeyed as far from his roots as Robert Maxwell. Yet, as Fall reveals, no one, however rich and powerful, can entirely escape their past.

"IN THE LONG RUN, WE'RE ALL DEAD. But for some of the most influential figures in history, death marked the start of a new adventure. The famous deceased have been stolen, burned, sold, pickled, frozen, stuffed, impersonated, and even filed away in a lawyer's office. Their fingers, teeth, toes, arms, legs, skulls, hearts, lungs, and nether regions have embarked on voyages that crisscross the globe and stretch the imagination. Counterfeiters tried to steal Lincoln's corpse. Einstein's brain went on a cross-country road trip. One of the country's more perceptive younger critics, Louis Rubin is well known for his commentaries on the literature of the South. These essays—selected from his critical works over a period of more than a dozen years—reflect his wider concern with the whole spectrum of American

literature. In the title essay Rubin treats "tired literary critics" and the often-heard pronouncement that the novel is dead. He argues that the response of novelists to our difficult and demanding times "will doubtless be what the response of writers to difficult and demanding times always has been: namely, difficult and demanding works of literature." Another essay, "The Experience Difference: Southerners and Jews," is a perceptive examination of the parallels in different factors and cultural experiences which brought Southern and Jewish writers to prominence. Rubin explores the potential pitfalls for Southern writers today in an essay called "Getting Out From Under William Faulkner." Edgar Allan Poe's position in American literary history and H.L. Mencken's role as a literary critic and an "artist of destruction" who cleared the way and created an audience for the major American writers of the twenties are dealt with in other essays. The collection includes imaginative studies of Henry James, Mark Twain, Edmund Wilson, and Karl Shapiro. Several Southern writers, including Faulkner, Ellen Glasgow, Robert Penn Warren, Flannery O'Connor, and James Branch Cabell, also come under Rubin's scrutiny.
