Astronomy and Astrophysics Abstracts, which has appeared in semi-annual volumes since 1969, is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union (according to a resolution adopted at the 14th General Assembly in 1970). Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and

astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. Volume 18 contains literature published in 1976 and received before March 1, 1977; some older literature which was received late and which is not recorded in earlier volumes is also included.

*The Complete History of the Game* The Third Edition of Harvey's Corn Tables, Or, the Farmer's and Corn-buyer's Assistant. Containing, I. Tables Wherein the Value of Any Quantity of Corn ... New York Times best selling biographer Stephen Mansfield and coauthor David A. Holland present a fascinating look at America's most popular radio host. You'll discover how the brutal murder of his father shaped Paul Harvey's life and career; how a high school teacher helped launch him in

radio; the truth behind his brief and controversial career in the Air Force; why he was arrested for breaking into a secure research laboratory during the Cold War; why he proposed to his wife, "Angel," on their very first date—and why it took her a year to say yes; the important role of faith in his life; and how his immeasurable contributions to broadcast history transformed American culture.
