Chapter 12 3 Dna And Rna Worksheet Answer Key Biology Chapter 12 Dna And Rna Answer Key Chapter 12: DNA and RNA. Avery and other scientists discovered that DNA is the nucleic acid that stores and transmits the genetic information from one generation of an organism to the next. Hershey and Chase concluded that the

genetic material of the bacteriophage they used to infect bacteria was DNA, not protein. Chapter 12: DNA and RNA • Page - Blue Ridge Middle School ...RNA Editing

- The DNA of eukaryotic genes contains sequences of nucleotides, called introns, that are not involved in coding for proteins.
- The DNA sequences that code for proteins are called exons.
- When RNA molecules are formed, introns and exons are copied from DNA.
