OMB No. 5170668823297 edited by

JULIAN VANESSA

McGraw Hill Professional
Design, Implement, and Audit the Most Energy-Efficient, Cost-Effective Solar Power Systems for Any Type of Building! Solar Power in Building Design is a complete guide to designing, implementing, and auditing energy-efficient, cost-effective solar power systems for residential, commercial, and industrial buildings. From basic theory through project planning, cost estimating, and manufacturing methods, this vital resource offers you everything needed for solar power design success. Filled with case studies and illustrations, this state-of-the-art design tool covers new solar technologies...design implementation techniques...energy conservation...the economics of solar power systems...passive solar heating power...and more. Solar Power in Building Design features: Step-by-step instructions
