*Economics of Forestry* Penguin  
The "vivid" and "electrifying" true story of how five monks saved the oldest Zen Buddhist monastery in the United States from wildfire (San Francisco Chronicle).

When a massive wildfire surrounded Tassajara Zen Mountain Center, five monks risked their lives to save it. A gripping narrative as well as a portrait of the Zen path and the ways of wildfire, *Fire Monks* reveals what it means to meet a crisis with full presence of mind. Zen master and author of the classic *Zen Mind, Beginner's Mind*, Shunryu Suzuki Roshi established a monastery at Tassajara Hot Springs in 1967, drawn to the location's beauty, peace, and seclusion. Deep in the wilderness east of Big Sur, the center is connected to the outside world by a single unpaved road. The remoteness that makes it an oasis also makes it particularly vulnerable when disaster strikes. If fire entered the canyon, there would be no

escape. More than two thousand wildfires, all started by a single lightning storm, blazed across the state of California in June 2008. With resources stretched thin, firefighters advised residents at Tassajara to evacuate early. Most did. A small crew stayed behind, preparing to protect the monastery when the fire arrived. But nothing could have prepared them for what came next. A treacherous shift in weather conditions prompted a final order to evacuate everyone, including all firefighters. As they caravanned up the road, five senior monks made the risky decision to turn back. Relying on their Zen training, they were able to remain in the moment and do the seemingly impossible-to greet the fire not as an enemy to

defeat, but as a friend to guide. Fire Monks pivots on the kind of moment some seek and some run from, when life and death hang in simultaneous view. Novices in fire but experts in readiness, the Tassajara monks summoned both intuition and wisdom to face crisis with startling clarity. The result is a profound lesson in the art of living.

The Buddha's definitive teachings on how we should understand the ground of enlightenment and the nature and qualities of buddhahood. All sentient beings, without exception, have buddha nature—the inherent purity and perfection of the mind, untouched by changing mental states. Thus there is neither any reason for conceit nor self-contempt. This is obscured by veils that are removable and do not touch the inherent purity and perfection of the nature of the mind. The Mahayana Uttaratantra Shastra, one of the "Five Treatises" said to have been dictated to Asanga by the Bodhisattva Maitreya, presents the Buddha's definitive teachings on how we should understand this ground of enlightenment and clarifies the nature and qualities of buddhahood. This seminal text details with great clarity the view that forms the basis for Vajrayana, and especially Mahamudra, practice.

What is a Hero? New York Times best-selling author Oliver North says, "Real heroes are selfless. Those who serve America in harm's way in the war against radical Islam have that quality in abundance. And so do their families and loved ones at home. Yet, they rarely get the attention or coverage they deserve. "Despite the way they are presented by too many in the press and politics, the men and women in uniform today are overwhelmingly good. I never cease to be amazed at the self-discipline of these brave young Americans. They can endure the adrenaline-pumping violence of an enemy engagement, and then, just minutes later, help school children get safely to their classes . . . No nation--ours included--has ever had a military force better than the one we have today. I'm proud of them. You should be too." In American Heroes (a New York Times, Wall Street Journal, and Washington Post best seller), North offers an inspiring, first-hand account of the extraordinary men and women defending America against radical Islamic terror from his perspective as a forty year member of the United States military, a member of the National Security Council staff and serving as the U.S. government's counter-terrorism coordinator from 1983-1986. This patriotic book also pulls in new reports and exclusive full-color photographs from War Stories, the award-winning FOX News Channel series hosted by North. Endorsements "Oliver North has spent his life among America's heroes. This book with its moving words and powerful

images will inspire patriots, reassure the faint of heart, and infuriate our nation's adversaries. These are our heroes, they deserve to have their story told, and no one is better to tell it than Col. North, because when it comes to heroes, it takes one to know one. This book is a treasure." --Newt Gingrich, former Speaker of the House of Representatives and New York Times bestselling author of Real Change "Ollie North has 'been there--done that' with the American heroes who are winning the war against radical Islamic terror. This book is a magnificent tribute to the warriors who defend us all." --Sean Hannity, host of The Sean Hannity Show and FOX News Channel's Hannity & Colmes  
Quarterly Review of Military Literature  
B&H Publishing Group  
Dr Williams begins by exploring the role of the forest in American culture: the symbols, themes, and concepts - for example, pioneer woodsman, lumberjack, wilderness - generated by contact with the vast land of trees. He considers the Indian use of the forest, describing the ways in which native tribes altered it, primarily through fire, to promote a subsistence economy.
