International  
Organizations and the  
Law of the Sea Martinus

Nijhoff Publishers  
This course should be  
taken by every  
prospective seafarer. It  
covers training in personal

survival techniques and is based on the provisions of table A-VI/1-1 of the STCW Code.

*Specialized Training for Oil Tankers* CRC Press

Now in its eighth year, the NILOS Documentary Yearbook provides the reader with an excellent collection of documents related to ocean affairs & the law of the sea, issued each year by organizations, organs & bodies of the United Nations system.

Documents of the UN General Assembly, ECOSOC & its regional

Commissions, the UN Secretary-General's Informal Consultations, PrepCom ISA/ITLOS, UNCED, UNEP & UNCTAD are included first, followed by the documents of specialized agencies & other autonomous organizations of the UN system, including FAO, IAEA, ILO, IMO, UNESCO/IOC & WMO. As in the previous volumes, documents which were issued in the course of 1992 are reproduced, while other relevant documents are listed. In view of the explosive

proliferation of developments as a result of the UNCED, Volume 8 contains a Special Report by co-editor Barbara Kwiatkowska on the Ocean-Related Impact of Agenda 21 on International Organizations of the UN System in Follow-Up to the Rio Summit . For the reader's convenience, a Chronological Table of Selected Ocean-Related Post-Rio UN Meetings & Conferences up to the year 2000 is annexed to this Special Report. An extensive Index of

Keywords facilitates access by the reader to the complex matters dealt with by organizations covered by the Yearbook , as well as to the information concerning individual states, regions & international instruments. The editors have been guided in the preparation of this unique collection by several outstanding experts, members of the Yearbook's Advisory Board, including the Yearbook 's inventor Ambassador Shabtai Rosenne, & Judge Andres

Aguilar Mawdsley, Edward Brown, Günther Jaenicke, Douglas Johnston, Lee Kimball, Thomas Mensah, Judge Shigeru Oda, Francisco Orrego Vicuna, Tullio Treves. The NILOS Documentary Yearbook has proved to be of invaluable assistance in facilitating access by the community of scholars & practitioners in ocean affairs & the law of the sea to essential documentation. The entry into force of the 1992 UN Law of the Sea Convention on 16th November 1994 &

progress in the implementation of Chapter 17 of Agenda 21, make continuation of this assistance of particular significance in the years to come.

Model Course 1.17: Basic Stability IMO Publishing  
First published: IMO, 1990.

**Model Course 2.02: Maritime Search and Rescue Co-ordinator Surface Search + Compendium** IMO Publishing

This model course aims to assist instructors in the design and delivery of

Port Facility Security officer (PFSO) training courses by: Linking the knowledge required to competently perform the duties and responsibilities of a PFSO, as identified in MSC.1/Circ.1188, Guidelines on Training and Certification for Port Facility Security Officers (22 May 2006), to the relevant guidance material contained in the Guide to Maritime Security and the ISPS Code, 2012 Edition; and identifying opportunities to increase the level of knowledge in certain key

areas of responsibility

 Security Awareness Training for All Seafarers  
 Inter-Governmental Maritime Maritime Search and Rescue Mission Coordinator  
 IMO Publishing  
 This course provides training for officers and ratings. It comprises a basic training programme appropriate to their

duties, including oil and chemical tanker safety, fire safety measures and systems, pollution prevention, operational practice and obligations under applicable laws and regulations. The course takes full account of section A-V/1-1 of the STCW Code adopted by the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers as amended, including the Manila amendments 2010  
*Model Course 5.04: Human Resources*

*Management: Course + Compendium* IMO Publishing  
This course combines two important aspects of modern shipping; care for the marine environment and the importance of human performance. The course is intended to give trainees knowledge of the importance and diversity of the marine environment as well as understanding and awareness of the impacts of shipping activities on the (marine) environment. The course will stimulate personal responsibility to

use solutions that contribute to environmentally sound shipping.

**HEARING BEFORE THE SUBCOMMITTEE ON COAST GUARD AND MARITIME TRANSPORTATION OF THE COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE, HOUSE OF REPRESENTATIVES, ONE HUNDRED FIFTH CONGRESS, SECOND**

**SESSION, JUNE 25, 1998**

IMO Publishing  
This course should be taken by every prospective seafarer. It covers training in personal survival techniques and is based on the provisions of table A-VI/1-1 of the STCW Code.

Port state control IMO Publishing

This course provides training for officers and ratings. It comprises a basic training programme appropriate to their duties for liquefied gas tanker

safety, fire safety measures and cargo systems, pollution prevention, safe operational practice and obligations under applicable laws and regulations. The course takes full account of section A-V/1-2 of the STCW Code adopted by the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers as amended, including the Manila amendments 2010.

**Training Course for Instructors** Inter-

Governmental Maritime  
This model course is intended to provide the knowledge required to enable personnel without designated security duties in connection with a Port Facility Security Plan (PFSP) to enhance security in accordance with the requirements of Chapter XI-2 of SOLAS 74 as amended, the ISPS Code, the IMDG Code, the IMO/ILO Code of Practice on Security in Ports, and guidance contained in IMO MSC.1/Circ.1341. Successful trainees should contribute to the

enhancement of maritime security through heightened awareness and the ability to recognize security threats and respond appropriately.

**Basic Training for Liquid Gas Tanker Cargo Operations** IMO Publishing

This model course aims to assist instructors in the design and delivery of Port Facility Security officer (PFSO) training courses by: Linking the knowledge required to competently perform the duties and responsibilities

of a PFSO, as identified in MSC.1/Circ.1188, Guidelines on Training and Certification for Port Facility Security Officers (22 May 2006), to the relevant guidance material contained in the Guide to Maritime Security and the ISPS Code, 2012 Edition; and identifying opportunities to increase the level of knowledge in certain key areas of responsibility

Model Course 1.19 IMO Publishing

This course covers the training recommendations in annex 3 to the IMO

Assembly resolution A.703(17) - Recommendation on Training of Radio Operators related to the Restricted Operator's Certificate (ROC). The course is revised to meet the relevant regulations of the STCW Code and the 2012 Radio Regulations of the International Telecommunication Union.

*Model Course 3.13: SAR Administration (IAMSAR Manual, Volume 1)* IMO Publishing

There are two sections in the revised IMO model

course on Maritime English: - (1) Core section 1: General Maritime English (GME), and (2) Core section 2: Specialized Maritime English (SME), both of which contain a number of detailed teaching syllabi. GME means that the first stage of Maritime English instruction could be general. SME means that the second stage of Maritime English instruction could be maritime-specific.

*Medical care* IMO Publishing

Electronic navigation,

although still relatively new, is becoming increasingly more common, particularly on commercial vessels. This handbook offers a wealth of detailed information about how different charting systems operate and answers the most commonly asked questions regarding electronic charts (ENC, RNC, DNC) and electronic chart systems (ECD
