SULLIVAN SHAMAR

Computerworld

Coriolis Group

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide.

Computerworld's award-winning Web site

(Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

A Network

Management Guide

Computing McGraw-Hill

A class library is a collection of frequently used programs that software developers reuse when building applications. This book explains Powersoft's

Foundation Class (PCF) Library for PowerBuilder. It covers application development, tuning and maintenance, and running PowerBuilder applications on the Internet. The CD-ROM contains templates and tools for building Internet applications.

**ORACLE DBA
SURVIVAL GUIDE**

Sams Publishing

Provides a highly useful collection of interpreted shareware and freeware, organized and selected with power users of Microsoft's Window NT in mind. Original. (Advanced).

Hill Companies
Now developers, programmers, and analysts who create PowerBuilder applications can get a complete look at the newest version of PowerBuilder and its enhanced features, including a new compiler. Special sections explain how to use PowerBuilder for object-oriented programming and team development. The disk includes a hypertext version of the book.

AIX/6000 Internals and Architecture Wiley

The growing number of professionals who want to enhance corporate images on the Internet will discover invaluable help in this guide.

Nathan J. Muller speeds up the learning curve for users by showing how to exploit

HyperText Markup Language and by providing HTML scripts, tables, forms, graphical components, and production utilities on an accompanying disk.

NEW TECHNICAL BOOKS

Sams

Timed for publication just as RS/6000 becomes the top-selling workstation, this guide meets the growing need for guidance on the workstation's software applications. AIX/6000 Applications Guide will be for the RS/6000 what Baritz's guide is for AS/400 users. It offers a thorough overview of operating system issues, advanced systems, and user interface topics. Scores of helpful figures, tables, and examples give users a solid grounding in running the system, accounting and performance management, networking and communications,

problem diagnosis, and more. Of special note is the coverage of networking that includes a section on TCP/IP. Also provided are "Quick Start" tips that enable users to be functional at the workstation immediately.

Foundations of PowerBuilder 5.0 Programming

Computing McGraw-Hill
Discussing how CICS/6000 relates to DB2/6000, Sybase, and Oracle, IBM insider Neil Kolban addresses real-world end user scenarios and problems not covered in IBM's voluminous documentation. This tightly focused guide also included helpful AIX commands and tips.

COMPUTERWORLD

This guide, written by the author of the SNM training manual, is the first source to show how to work with Sun Microsystem's SunNet Manager, now being bundled with Sun's new Solstice package. Featuring a diskette that offers source code

and a sample SNMP agent that can be ported to other platforms, the book covers installation, start-up, creating and modifying the management database, customizing SNM, and more.

The Webmaster's Guide to HTML Annotation Advanced guide to distributed applications using PowerBuilder 9. This book addresses development Web and Intranet-based systems, including Web Services, Portals, Application-Servers, XML, and Mobile Access. Content provides both specific implementation techniques and architectural patterns for distributed application development. PowerBuilder 9, to be

released Q4 2002, introduces many highly-anticipated distributed development features including support for Web Services and Java application servers. Version 9 of PowerBuilder introduces many features designed specifically to blend the traditional strength of PowerBuilder as a rapid Client/Server application development tool with the new emerging models for distributed application development. PowerBuilder developers need PowerBuilder-specific information on interacting with Java application servers, such as WebSphere, WebLogic, and Sybases Enterprise Application Server (EAServer), and

Web Service development. This book presents the new capabilities of PowerBuilder 9 along with the architecture and patterns required to create distributed systems in PowerBuilder. William Green and his team of writers are among the most prominent members of the Sybase community, having helped found TeamSybase in 1994. They have written and served on the advisory boards for every major PowerBuilder publication and have authored three books -- PowerBuilder 5 Object-Oriented Design and Development, PowerBuilder Foundation Class (PFC), and Secrets of the PowerBuilder Masters. They respond to

several hundred newsgroups and listserv postings daily. They are active consultants implementing PowerBuilder-based solutions and serve on key community advisory panels within Sybase.

Powerbuilder 4 Developer's Guide

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.
