Tiny Love Stories Simon and Schuster

Janesville, Wisconsin (cold in the sense that there is no God) 1994

"You're going to find somebody so much better than me." "What?

No, I'm not! Look at me! Are you insane?" The worst thing that's

ever happened to Craig is also the best: Amy. Craig and Amy

should never have gotten together—Craig is a Dungeons and

Dragons master with no life skills and Amy is the beautiful,

fiercely intelligent student body president of their high school.

Yet somehow they did...until Amy dumped him. Then got back

together with him. Seven times to be exact. Over the course of

their senior year, Amy and Craig's exhilarating, tumultuous

relationship is a kaleidoscope of joy and pain as an uncertain

future—and adult responsibility—looms on the horizon. Craig

fighters for his dream of escaping Janesville and finding his place at a quirky college, while Amy's quest to uncover her true self sometimes involves being Craig's girlfriend...and sometimes doesn't. Seven breakups. Seven makeups. Seven of the highest lows and lowest highs. Told non-sequentially, acclaimed playwright Don Zolidis's debut novel is a brutally funny, bittersweet taste of the utterly unique and utterly universal experience of first love.

The League of Regrettable Superheroes Elle Keaton

All relationships should come with a precautionary warning: **HANDLE WITH CARE** The final audition for Rajhans College's prestigious music band brings together three contrasting personalities. Vikrant, a perfectionist, who believes there is only one perfect someone for you. Anamika, a free spirit, who stands up for what she believes is right. And Yuvi, a die-hard music lover, who can strum the guitar all night long and still wake up the next morning to drop off his girlfriend. The three become close friends and start hanging out regularly. So how does Aditya, a stranger, become a part of their lives? And what happens next? *Sorry, You're Not My Type* is a true story that will redefine friendship, affection, and infatuation.

NEW YORK TIMES BESTSELLER • "A brilliantly funny tribute to the simple pleasures of eating" (Parade) from the author of *Dad Is Fat* Have you ever finished a meal that tasted horrible but not noticed until the last bite? Eaten in your car so you wouldn't have to share with your children? Gotten hungry while watching a dog food commercial? Does the presence of green vegetables make you angry? If you answered yes to any of the following questions, you are pretty pathetic, but you are not alone. Feast along with America's favorite food comedian, bestselling author, and male supermodel Jim Gaffigan as he digs into his specialty: stuffing his face. *Food: A Love Story* is an in-depth, thoroughly uninformed look at everything from health food to things that people actually enjoy eating.

A Half Baked Idea Bloomsbury Publishing USA

A New York Times Bestseller Megan Mullally and Nick Offerman reveal the full story behind their epic romance—presented in a series of intimate conversations between the couple, including photos, anecdotes, and the occasional puzzle. The year: 2000. The setting: Los Angeles. A gorgeous virtuoso of an actress agreed to star in a random play, and a basement-dwelling scenic carpenter said he would assay a supporting role in the selfsame pageant. At the first rehearsal she surveyed her fellow cast members, determining if any of the men might qualify to provide her with a satisfying fling. Her gaze fell upon the carpenter, and like a bolt of lightning the thought struck her: no dice. Moving on. Yet, unbeknownst to our protagonists, Cupid had merely set down his bow and picked up a rocket launcher...that fired a love rocket (not a euphemism). The players were Megan Mullally and Nick Offerman, and the resulting romance, once ignited, was...epic. Beyond epic. It resulted in a coupling that has endured to this day; a sizzling, perpetual tryst that has captivated the world with its kindness, athleticism, astonishingly low-brow humor, and true (fire emoji) passion. How did they do it? They came from completely different families, ignored a significant age difference, and were separated by the gulf of several social strata. Megan loved books and art history; Nick loved hammers. But much more than these seemingly unsurpassable obstacles were the values they held in common: respect, decency, the ability to mention genitalia in almost any context, and an abiding obsession with the songs of Tom Waits. Eighteen years later, they're still very much in love and have finally decided to reveal the philosophical mountains they have conquered, the lessons they've learned, and the myriad jigsaw puzzles they've completed. Presented as

an oral history in a series of conversations between the couple, the book features anecdotes, hijinks, photos, and a veritable grab bag of tomfoolery. This is not only the intoxicating book that Mullally's and Offerman's fans have been waiting for, it might just hold the solution to the greatest threat facing our modern world: the single life.

Gus Peake has never had the luxury of redefining himself. A Samsboro native, he's either known as the "disabled kid" because of his cerebral palsy, or as the kid whose dad was murdered. Gus just wants to be known as himself. When Gus meets Kalyn, her frankness is refreshing, and they form a deep friendship. Until their families' pasts emerge. And when the accepted version of the truth is questioned, Kalyn and Gus are caught in the center of a national uproar. This impressive debut novel, longlisted for the 2020 Booker Prize, takes its premise and inspiration from ten of the best-known thought experiments in philosophy—the what-ifs of philosophical investigation—and uses them to talk about love in a wholly unique way. Married couple Rachel and Eliza are considering having a child. Rachel wants one desperately, and Eliza thinks

she does, too, but she can't quite seem to wrap her head around the idea. When Rachel wakes up screaming one night and tells Eliza that an ant has crawled into her eye and is stuck there, Eliza initially sees it as a cry for attention. But Rachel is adamant. She knows it sounds crazy—but she also knows it's true. As a scientist, Eliza is skeptical. Suddenly their entire relationship is called into question. What follows is a uniquely imaginative sequence of ten interconnecting episodes—each from a different character's perspective—inspired by some of the best-known thought experiments in philosophy. Together they form a sparkling philosophical tale of love lost and found across the universe.
