To Kill the Irishman Taylor & Francis

The page-turning, never-before-told story of Kim Campbell's roller-coaster thirty-four-year marriage to music legend Glen Campbell, including how Kim helped Glen finally conquer his addictions only to face their greatest challenge when he was diagnosed with Alzheimer's disease. Kim Campbell was a fresh-faced twenty-two-year-old dancer at Radio City Music Hall when a friend introduced her to Glen Campbell, the chart-topping, Grammy-winning, Oscar-nominated entertainer. The two performers from small Southern towns quickly fell in love, a bond that produced a thirty-four-year marriage and three children. In *Gentle on My Mind*, Kim tells the complete, no-holds-barred story of their relationship, recounting the highest of highs—award shows, acclaimed performances, the birth of their children, encounters with Mick Fleetwood, Waylon Jennings, Alan Jackson, Alice Cooper, Jane Seymour, and others—and the lowest of lows, including battles with alcohol and drug addiction and, finally, Glen's diagnosis, decline, and death from Alzheimer's. With extraordinary candor, astonishing bravery, and a lively sense of humor, Kim reveals the whole truth of life with an entertainment giant and of caring for and loving him amid the extraordinary challenge of Alzheimer's disease. This is a remarkable account of enduring love, quiet strength, and never-faltering faith.

A 25th anniversary edition of the enchanting story of a widow who finds herself in possession of an extraordinary broom after a witch falls into her garden. Some of Minna Shaw's neighbors don't trust her clever broom. "It's dangerous," they say. But Minna appreciates the broom's help. She enjoys its quiet company. But one day two children get taught a well-deserved lesson by the broom. For her neighbors, this is proof of the broom's evil spirit. Minna is obligated to give up her dear companion. Chris Van Allsburg, master of the mysterious, brings this tale to life with moody and memorable pictures that will haunt readers long after the book's covers are closed—now in a new edition to celebrate this beloved book's twenty-fifth anniversary.

Lifespan The Jungle Book IllustratedThe Jungle Book (1894) is a collection of stories by the English author Rudyard Kipling. Most of the characters are

animals such as Shere Khan the tiger and Baloo the bear, though a principal character is the boy or "man-cub" Mowgli, who is raised in the jungle by wolves. The stories are set in a forest in India; one place mentioned repeatedly is "Seonee" (Seoni), in the central state of Madhya Pradesh.Gentle on My Mind

Profiles the solitary student of Ralph Waldo Emerson who was well-known as a naturalist in his own time but who became posthumously famous for his writings.

In this new original novel by bestselling author Barry Lyga, learn the origins of the most feared force in the universe, and see how Thanos became the Titan consumed by his quest for power. Time Reality. Space. Mind. Soul. Power. Born on a doomed world and made an outcast for his physical deviancy and intimidating intellect, Thanos believes he sees something everyone else chooses to ignore: a way to save his home and the people of Titan for generations to come. But what he perceives as genius, they see as madness. Now exiled from his home world, Thanos is determined to find the means to return to Titan and implement his plan. His journey through the galaxy is a desperate race to save everything. Thanos will be successful-no matter how many billions have to die to bring balance to the universe. Learn the origins of the most formidable foe the Avengers, Doctor Strange, the Guardians of the Galaxy, and Black Panther have ever faced-a foe whom even a group of remarkable people, pulled together to fight the battles nobody else could, failed to stop.

Parenting Without Tears Portrays the role of women and mothers in family upbringing. The author examines the different concepts of the ideal family and explains how "The Fall in the Garden of Eden" has impacted Today's Family. She explains that "Family" now exists only with a few people as it continues to lose its meaning. When a father thinks that enough is enough, he walks out on the family. When a mother feels the same way, she dumps her own children and walks away. Readers will find out: - Why God created the ideal family. - The importance of family values. - Why people fail in parenting. - The role modern technology has played.

We're All Wonders Houghton Mifflin Harcourt

The game under the tree looked like a hundred others Peters and Judy had at home. But they were bored and restless and, looking for something interesting to do, thought they'd give Jumanji a try. Little did they know when they unfolded its ordinary-looking playing board that they were about to be plunged into the most exciting and bizarre adventure of their lives. In his second book for children, Chris Van Allsburg again explores the ever-shifting line between fantasy and reality with this story about a game that comes startlingly to life. His marvelous drawings beautifully convey a mix of the everyday and the extraordinary, as a quiet house is taken over by an exotic jungle.

Queen of the Falls Houghton Mifflin Harcourt

A call to action from Jane Fonda, one of the most inspiring activists of our time, urging us to wake up to the looming disaster of climate change and equipping us with the tools we need to join her in protest "This is the last possible moment in history when changing course can mean saving lives and species on an unimaginable scale. It's too late for moderation." In the fall of 2019, frustrated with the obvious inaction of politicians and inspired by Greta Thunberg, Naomi Klein, and student climate strikers, Jane Fonda moved to Washington, D.C., to lead weekly climate change demonstrations on Capitol Hill. On October 11, she launched Fire Drill Fridays, and has since led thousands of people in nonviolent civil disobedience, risking arrest to protest for action. In *What Can I Do?*, Fonda weaves her deeply personal journey as an activist alongside conversations with and speeches by leading climate scientists and inspiring community organizers, and dives deep into the issues, such as water, migration, and human rights, to emphasize what is at stake. Most significantly, Fonda equips us all with the tools we need to join her in protest, so that everyone can work to combat the climate crisis. No stranger to protest, Fonda's life has been famously shaped by activism. And now she is once again galvanizing the public to take to the streets. Many are already aware of the looming disaster of climate change and realize that a moral responsibility rests on our shoulders. In 2019, we saw atmospheric concentrations of greenhouse gases hit the highest level ever recorded in human history, and our window of opportunity to act is quickly closing. We are facing a climate crisis, but we're also facing an empathy crisis and an inequality crisis; the surge of protests over police violence against black Americans has once again highlighted the links between racism and environmental degradation in our country. It isn't only earth's life-support systems that are unraveling. So too is our social fabric. This is going to take an all-out war on drilling and fracking and deregulation and racism and misogyny and colonialism and despair all at the same time. As Annie Leonard, executive director of Greenpeace USA and Fonda's partner in developing Fire Drill Fridays, has declared, "Change is inevitable; by design, or by disaster." Together, we can commandeer change for the positive—but it will require collective actions taken by social movements on an unprecedented scale. The problems we face now require every one of us to join the fight. The fight for not only our immediate future, but for the future of generations to come. 100% of the author's net proceeds from *What Can I Do?* have gone to Greenpeace

A NEW YORK TIMES BESTSELLER "Brilliant and enthralling." —The Wall Street Journal A paradigm-shifting book from an acclaimed Harvard Medical School scientist and one of Time's most influential people. It's a seemingly undeniable truth that aging is inevitable. But what if everything we've been taught to believe about aging is wrong? What if we could choose our lifespan? In this groundbreaking book, Dr. David Sinclair, leading world authority on genetics and longevity, reveals a bold new theory for why we age. As he writes: "Aging is a disease, and that disease is treatable." This eye-opening and provocative work takes us to the frontlines of research that is pushing the boundaries on our perceived scientific limitations, revealing incredible breakthroughs—many from Dr. David Sinclair's own lab at Harvard—that demonstrate how we can slow down, or even reverse, aging. The key is activating newly discovered vitality genes, the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it. Recent experiments in genetic reprogramming suggest that in the near future we may not just be able to feel younger, but actually become younger. Through a page-turning narrative, Dr. Sinclair invites you into the process of scientific discovery and reveals the emerging technologies and simple lifestyle changes—such as intermittent fasting, cold exposure, exercising with the right intensity, and eating less meat—that have been shown to help us live younger and healthier for longer. At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind, *Lifespan* will forever change the way we think about why we age and what we can do about it.
