assisted reproduction ... Assisted Reproductive Technology (ART)
refers to treatments and procedures that aim to achieve
pregnancy. ART covers a wide spectrum of treatments such as in
vitro fertilization (IVF), Intracytoplasmic sperm injection (ICSI) and
Intracytoplasmic morphologically-selected sperm injection (IMSI).
All methods have in common that eggs (ova) are removed from a
female and fertilized outside the female's body (in vitro) with
sperms. Assisted Reproductive Technology - ZEISS The clinical
results of assisted reproductive technologies (ART), as reflected in
the annual European IVF Monitoring (EIM) reports published by
European Society for Human Reproduction and Embryology
(ESHRE), has improved since the end of the 1990s. The assisted
