Looking for that definitive text that covers improvisation in all its diversity with clarity and ease? Are you ready to put in the time and effort required to be a complete musician? Are you unable to afford huge tuitions for your education, but

want the careful guidance that a private teacher with the right text can give you? Your search has ended! This book covers "Essential" materials for a thorough study of improvisation and Jazz piano in two parts: Techniques and Styles. Part 1 includes studies of chord voicings, (how to arrange chord notes in your hands), harmonic and linear approaches to soloing, keyboard bass, rhythmic phrasing, and the "free areas" of introductions, endings, and turnarounds. Part 2 covers a chronological study of style from early Stride techniques, through Swing, Be-Bop, modal harmony, Latin "montuno" techniques and thoughts on soloing in general. Serious amateurs and

young professionals alike will learn basic concepts, enabling a deeper pursuit of each subject, opening the door to a personal repertoire and individual style for a lifetime of enjoyment. *Jazz Matters* University of Michigan Press (Jazz Piano Solos). 24 fun jazzy holiday arrangements complete with chord symbols, including: Believe * Christmas (Baby Please Come Home) * Do You Want to Build a Snowman? * Fairytale of New York * Happy Xmas (War Is Over) * Mary, Did You Know? * Please Come Home for Christmas * Wonderful Christmastime * You're All I Want for Christmas * and more. A landmark in jazz

studies, *Thinking in Jazz* reveals as never before how musicians, both individually and collectively, learn to improvise. Chronicling leading musicians from their first encounters with jazz to the development of a unique improvisatory voice, Paul Berliner documents the lifetime of preparation that lies behind the skilled improviser's every idea. The product of more than fifteen years of immersion in the jazz world, *Thinking in Jazz* combines participant observation with detailed musicological analysis, the author's experience as a jazz trumpeter, interpretations of published material by scholars and performers, and, above all, original data from

interviews with more than fifty professional musicians: bassists George Duvivier and Rufus Reid; drummers Max Roach, Ronald Shannon Jackson, and Akira Tana; guitarist Emily Remler; pianists Tommy Flanagan and Barry Harris; saxophonists Lou Donaldson, Lee Konitz, and James Moody; trombonist Curtis Fuller; trumpeters Doc Cheatham, Art Farmer, Wynton Marsalis, and Red Rodney; vocalists Carmen Lundy and Veve Williams; and others. Together, the interviews provide insight into the production of jazz by great artists like Betty Carter, Miles Davis, Dizzy Gillespie, Coleman Hawkins, and Charlie Parker. *Thinking in Jazz* overflows with musical

examples from the 1920s to the present, including original transcriptions (keyed to commercial recordings) of collective improvisations by Miles Davis's and John Coltrane's groups. These transcriptions provide additional insight into the structure and creativity of jazz improvisation and represent a remarkable resource for jazz musicians as well as students and educators. Berliner explores the alternative ways—aural, visual, kinetic, verbal, emotional, theoretical, associative—in which these performers conceptualize their music and describes the delicate interplay of soloist and ensemble in collective

improvisation. Berliner's skillful integration of data concerning musical development, the rigorous practice and thought artists devote to jazz outside of performance, and the complexities of composing in the moment leads to a new understanding of jazz improvisation as a language, an aesthetic, and a tradition. This unprecedented journey to the heart of the jazz tradition will fascinate and enlighten musicians, musicologists, and jazz fans alike.

TRANSCRIBED AND NOTATED PIANO SOLOS

"O'Reilly Media, Inc." When the renowned trumpeter and bandleader Miles Davis chose the members of

his quintet in 1955, he passed over well-known, respected saxophonists such as Sonny Rollins to pick out the young, still untested John Coltrane. What might have seemed like a minor decision at the time would instead set the course not just for each of their careers but for jazz itself. *Clawing at the Limits of Cool* is the first book to focus on Davis and Coltrane's musical interaction and its historical context, on the ways they influenced each other and the tremendous impact they've had on culture since then. It chronicles the drama of their collaboration, from their initial historic partnership to the interlude of their breakup, during which each man made tremendous progress

toward his personal artistic goals. And it continues with the last leg of their journey together, a time when the Miles Davis group, featuring John Coltrane, forever changed the landscape of jazz. Authors Farah Jasmine Griffin and Salim Washington examine the profound implications that the Davis/Coltrane collaboration would have for jazz and African American culture, drawing parallels to the changing standards of African American identity with their public personas and private difficulties. With vastly different personal and musical styles, the two men could not have been more different. One exemplified the tough, closemouthed cool of

the fifties while the other made the transition during this time from unfocused junkie to a religious pilgrim who would inspire others to pursue spiritual enlightenment in the coming decade. Their years together mark a watershed moment, and *Clawing at the Limits of Cool* draws on both cultural history and precise musical detail to illuminate the importance that their collaboration would have for jazz and American history as a whole.

Jazz Piano Solos Series
Macmillan

John Coltrane was a key figure in jazz, a pioneer in world music, and an intensely emotional force whose following continues to grow. This new biography, the first by

a professional jazz scholar and performer, presents a huge amount of never-before-published material, including interviews with Coltrane, photos, genealogical documents, and innovative musical analysis that offers a fresh view of Coltrane's genius. Compiled from scratch with the assistance of dozens of Coltrane's colleagues, friends, and family, *John Coltrane: His Life and Music* corrects numerous errors from previous biographies. The significant people in Coltrane's life were reinterviewed, yielding new insights; some were interviewed for the first time ever. The musical analysis, which is accessible to the nonspecialist, makes its own revelations--for

example, that some of Coltrane's well-known pieces are based on previously unrecognized sources. The Appendix is the most detailed chronology of Coltrane's performing career ever compiled, listing scores of previously unknown performances from the 1940s and early 1950s. Coltrane has become a musical inspiration for thousands of fans and musicians and a personal inspiration to as many more. For all of these, Porter's book will become the definitive resource--a reliable guide to the events of Coltrane's life and an insightful look into his musical practices. ". . . well researched, musically knowledgeable, and enormously interesting to read. Porter is a jazz

scholar with deep knowledge of the tradition he is studying, both conceptually and technically." --Richard Crawford, University of Michigan "Lewis Porter is a meticulous person with love and respect for Afro-American classical music. I applaud this definitive study of my friend John Coltrane's life and achievements." -- Jimmy Heath, jazz saxophonist, composer, educator Lewis Porter is Associate Professor of Music, Rutgers University in Newark. A leading jazz scholar, he is the author of *Jazz Readings from a Century of Change* and coauthor of *Jazz: From Its Origins to the Present*. He was a project consultant on *The Complete Atlantic Recordings of John*

Coltrane, which was nominated for a Grammy Award for Best Historical Reissue, and an editor and assisting author of the definitive Coltrane discography by Y. Fujioka.
