Poetry. In Noel Sloboda's second book of poems, he delves beneath the surface of suburban life, weaving together ancient myths, childhood nightmares, and historical reveries. OUR RARER MONSTERS explores intersections between real and imagined geographies: a residential block where Grendel lives next door and Prospero is parked out in the street. These poems—and the accompanying linocuts by Marc Snyder—plumb the depths of memory to unearth roots that bind us to the literary, cultural, and mythological traditions of yesterday as we hurtle

irresistibly through the twenty-first century. "Noel Sloboda's OUR RARER MONSTERS is an imaginative book full of wonder and charm."—Jeannine Hall Gailey "I kept coming back to Sloboda's poems and to Marc Snyder's exquisite linocuts included in this utterly winning book. Here is a poetry collection not to be missed for its audacity and verve."—Kristin Ong Muslim

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

If you have ever thrown up your hands in despair over the spiraling cost of astronomy textbooks, you owe your students a good look at this one.
