This is a marvellously atmospheric tale of strangers summoned to a grand but neglected villa on the Italian coast. Each of them has been named in a will, but nobody

knows their benefactress... Four very different people are named in a will: Delia, an opera singer robbed of her voice by illness; George, an idealistic scientist who cannot face what his skills have created; Marjorie, desperately poor and unable to dislodge her writer's block; and Lucius, ostensibly in control but whose personal life is in chaos. All are summoned to the Villa Dante, home of the late Beatrice Malaspina. But who was she? While they wait to find out, the villa begins to work its seductive magic. With its faded frescoes, overgrown garden and magnificent mediaeval tower, it is unlike anywhere they have been before. Slowly, four characters who have gone to great lengths to hide their troubles find that change - and even hope - is possible after all. But, the mysterious Beatrice has a devastating secret to reveal that will affect them all! A beautiful evocation of Italy in the aftermath of World War

Two, the personal consequences of living through such a time, and a celebration of humankind's ability to heal and learn to love again, this most absorbing novel will win Elizabeth Edmondson a host of new fans.

Titan Comics

A "powerful and original" (The Times) historical saga that follows the quest for identity, redemption and home in the wake of World War II. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles--one for every year of the dead man's life.

First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance.

Kingdom of Twilight follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee

camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it.

Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption.

2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save

on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
