On October 20, 1923, at Belmont Park in New York, Kentucky Derby champion Zev toed the starting line alongside Epsom Derby winner Papyrus, the top colt from England, to compete for a \$100,000 purse. Years of Progressive reform efforts had nearly eliminated horse racing in the United States only a decade earlier. But for weeks leading up to the match race that would be officially dubbed the "International," unprecedented levels of newspaper coverage helped accelerate American horse

racing's return from the brink of extinction. In this book, James C. Nicholson explores the convergent professional lives of the major players involved in the Horse Race of the Century, including Zev's oil-tycoon owner Harry Sinclair, and exposes the central role of politics, money, and ballyhoo in the Jazz Age resurgence of the sport of kings. Zev was an apt national mascot in an era marked by a humming industrial economy, great coziness between government and business interests, and reliance on national mythology as a bulwark against what seemed to be rapid social, cultural, and economic changes. Reflecting some of the contradiction and incongruity of the Roaring Twenties, Americans rallied around the horse that was, in the words of his owner, "racing for America," even as that owner was reported to have been engaged in a scheme to defraud the United States of millions of barrels of publicly owned oil. *Racing for America* provides a parabolic account of a nation

struggling to reconcile its traditional values with the complexity of a new era in which the US had become a global superpower trending toward oligarchy, and the world's greatest consumer of commercialized spectacle.

Racing for America Rowman & Littlefield

Burned out by working the baseball beat for years, in the summer of 1922 Damon Runyon was looking for a new sport to cover for The New York American as a change of pace. Having pilloried golf just a few years before, he went to Saratoga that August to sample horse racing and found that "There, right in front of him, were so many of the characters he so loved from his time covering the comings and goings of the Manhattan night crowd." This was just the tonic Runyon needed to emerge from his malaise. Runyon didn't just cover the great races and which horse won: he would get to the track days before and roam along the backstretch, speaking with the trainers, the gamblers, the rich owners, and the wise guys, many of which became model characters in his fiction and in the musical *Guys and Dolls*. This book collects the best of Runyon's horse racing columns to 1936, when he moved on to other beats.

Horse racing has a way of wrapping itself around some people's souls. For George Rowand, that moment came watching Secretariat win the 1973 Preakness. From then on Rowand knew he wanted to be in horse racing. *Diary of a Dream* chronicles his failures and successes in the sport he loves.

Beginning with her earliest days in Kentucky, the book follows Ruffian at every stage of her career and through the agony of her final hours--venturing behind the scenes of the racing world, and exploring the politics and personalities that came together to shape this extraordinary filly's life.

Irreverent Chicago racetrack publicist Jack Doyle, former advertising man and amateur boxer, accepts a new job as a thoroughbred jockey's agent. His client is a seventeen-year-old riding phenom from Ireland named Mickey Sheehan. Mickey and Jack prove to be an effective team until someone begins secretly doping the horses, affecting race results. In his quest to identify the culprit, Doyle is aided by his old friend Moe Kellman, furrier-to-the-Mob; trainer Ralph Tenuta, himself the target of a blackmailer; and young veterinarian Ingrid McGuire, a talented horse communicator. The action moves from Chicago's Heartland Downs to New York's famed Saratoga Race Course, even stepping aboard Mob capo Fifi Bonadio's lavish yacht in Chicago's Belmont Harbor. Will Jack's persistent push for answers get him killed?

Excerpt from *Horse-Racing in France: A History* It may be presumptuous for an Englishman to write a history of horse-racing in France; but, in extenuation of his presumption, let the Englishman plead that no body else seemed to be inclined to do it; that the French Turf is really but an offshoot of the English; and that the success of French race horses in England or (in the Grand Prix de Paris) against horses taken over to France from England is the only satisfactory measure of the advance made by the French in their horse - racing and horse-breeding. From that point of view this history has been written. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Only Winners Please Capstone

The father of the Kentucky Derby called him "the greatest all-around Thoroughbred in American racing history." Sportswriter Grantland Rice simply called him "the greatest racehorse." Now Eliza McGraw tells the story of how a gangling, long-shot Kentucky Derby winner named Exterminator became one of the most beloved racehorses of all time. *Here Comes Exterminator!* draws readers into the golden age of racing, with all its ups and downs, the ever-involving interplay of horses and people, and the beauty, grace, fear, and hope that are a daily part of life at the track. Caught between his hotheaded millionaire owner and his knowledgeable trainer, Exterminator captured fans' affection with his personality, consistency, athleticism, and heart. Exterminator's staggering success would dramatically change the world of horse-racing. He challenged the notion that American horses would never live up to Europe's meticulously charted bloodlines and became a patriotic icon of the country after World War I. And his longevity established him as one of the public's most beloved athletes, paving the way for equine celebrities like Seabiscuit and showing Americans they could claim—and love—a famous racehorse as their own.

Being a jockey is more than a career, it's a way of life. The glitz and glamour of the show may belie all the time and effort that goes into it, but the life of a jockey entails a great deal of risk, personal sacrifice and hardship. Often viewed as second-rate athletes, partly because of their small size, these riders are in actuality some of the toughest men in the athletic world. Pound for pound, they are unmatched in physical prowess. Controlling and guiding large thoroughbreds requires a great deal of strength and skill. In addition, there is little room for error during the close-run, high-speed races where the necessity of implementing a winning strategy makes the sport mentally as well as physically taxing. This volume provides an in-depth look at the self-employed, independent contractor known as the jockey and the all-encompassing culture of the race track he calls home. The book details the qualities and abilities of the successful jockey, the transitory nature of horse racing, the jockey's constant battle regarding weight, the financial motivation of the sport and the close-knit nature of the profession. Interviews with over 100 jockeys including Hall of Famers Pat Day, Earlie Fires and Russell Baze, add a personal focus and give the reader an inside glimpse into the world of horse racing. The last chapter includes brief biographical sketches of the most influential riders from the last 50 years.

On May 4, 1968, Dancer's Image crossed the finish line at Churchill Downs to win the 94th Kentucky Derby. Yet the jubilation ended three days later for the owner, the jockey and the trainers who propelled the celebrated thoroughbred to victory. Amid a firestorm of controversy, Dancer's Image was disqualified after blood tests revealed the presence of a widely used anti-inflammatory drug with a dubious legal status. Over forty years later, questions still linger over the origins of the substance and the turmoil it created. Veteran turfwriter and noted equine law expert Milt Toby gives the first in-depth look at the only disqualification in Derby history and how the Run for the Roses was changed forever.

Some of horse racing's most respected authorities looked at feats of greatness, world records, legendary rivalries, and innovations to rank the sport's top 100 moments. They weighed individual

accomplishments against industry initiatives, innovations against lucky breaks to come up with the definitive list. They pondered Secretariat's 31-length Belmont Stakes victory, Smarty Jones' elusive Triple Crown, the creation of the Breeders' Cup, and advancements in equine surgery. Racing's top 100 list will generate debate for years to come, just as did the ranking of Man o' War over Secretariat as Horse of the Century. Richly illustrated with historic and modern photos, Horse Racing's Top 100 Moments also contains comprehensive lists of leading earners, fastest times, highest prices, and most races won.

Celebrate a century and a half of horse racing in Saratoga Springs with stories of the events, horse and people who have made its summers so special. Since the inaugural meeting of August 1863, Saratoga Springs is home to one of the oldest sports venues in the country and has been the scene of memorable races, often featuring legends of the sport. Although some of the epic moments are still familiar today, such as Upset's defeat of Man o' War in the 1919 Sanford Memorial, many of the triumphs and defeats that were once famous have been forgotten. Few remember the filly Los Angeles, who thrived at Saratoga, winning sixteen stakes races, or the influential, sometimes suspicious, reasons why the track was closed three times for a total of six years. Authors Allan Carter and Mike Kane take a look back at these and other important but neglected stories and present statistics from the pre-NYRA years and a rundown of the greatest fields assembled at America's oldest track. "As the subtitle promises, the book consists of unexpected tales regarding Saratoga people, horses, and happenings--things that even certain racing historians had no previous clue about. Kane and Carter are uniquely well-equipped to guide readers down this curious road less traveled." —Mary Simon, Daily Racing Forum

The great myth of horse racing is that the game is the regal and royal Sport of Kings. It isn't. Not by a long shot. Anyone who doubts this need look no further than Suffolk Downs, a once-proud racecourse graced in its glory years by boisterous throngs and champions such as Seabiscuit. Now the blue-collar East Boston track is one of many that have fallen on hard times. These days "Sufferin' Downs" is where grizzled Thoroughbreds come to end their careers, hopeful young jockeys aspire against daunting odds to begin them, and diehard fans cheer, curse and gamble on the entire fascinating spectacle. These bit players are not just cogs of a single, struggling horse track. They are the unseen supporting cast for a 15 billion betting industry. In fifteen years as a racing reporter and press box personality, T.D. Thornton gained access to remote corners of racetrack life off limits to the general public. He got to know the raucously Runyonesque characters and the quirky personalities of the horses; he learned the tricks of the trade from trainers, owners, and jockeys; he witnessed the tragedies and small triumphs of racing lives lived below the radar. One recent season, he finally decided to write it all down. Not by a Long Shot is a deeply textured portrait of an industry where even the best in the business lose 75 percent of the time.

Kevin Chong has grand plans. He draws up a to-do list of major milestones that will give him the life he always wanted—and the life that will inspire awe and envy in his friends. Things like settling down and starting a family; learning a foreign language; getting a tattoo. But these grand plans go out the window when Chong makes an unconventional decision: he's going to buy a racehorse. Not the whole thing—he'll become part—owner of the horse. Just don't ask him which part. Thus Chong meets Blackie, the racehorse that will win his heart, even if she doesn't always win on the track. He meets Randi, the cantankerous and foul-mouthed horse trainer with a heart of gold. He meets an assorted array of characters who work, live and drink at the track—and, one by one, the items on his to-do list are crossed out and replaced with horse-related ambitions. His goals are a bit more humble (cussing like a track worker replaces learning a foreign language), but his life has gained new meaning. The story is infused with the noise, excitement and faded glamour of the horse-racing world. It is strewn with fascinating tidbits about the history and tradition of this

The Life of a Racehorse is a fictional biography detailing the life of a British racehorse from the horse's point of view. This book was republished by Cosimo in 2015 in honor of American race horning, which got a shot in the arms when American Pharaoh became the first horse to win the "Grand Slam" of American horse racing (the Triple Crown, for the first time since 1978, and the Breeders' Cup Classic.) In this book, the horse, Sheet Anchor, narrates his life, from his time as a colt, through his training and racing days, to his sale as a stud from Tattersall's and his retirement. The story is revealed through Sheet Anchor's experiences and the dialogue of the humans he interacts with, including trainers, grooms, jockeys, and his master, Sir Digby. The Life of a Racehorse was highlighted in a 2015 New York Times article bringing attention to the use of the riding crop; it was cited as one of the only references to how horses might feel about its use. As such, horse lovers and race enthusiasts alike can look to this book for better insight into how horse racing has developed over the ages.
