Award finalist in the mystery/suspense category of USA Book News Best Books 2010 awards When word reaches her in war-torn Afghanistan that her beloved Uncle Richard has been brutally murdered, globe-trotting photojournalist Abigale Portmann reluctantly abandons her assignment and returns to the rolling hills and rocky relationships of her past in the picturesque equestrian community of Middleburg, Virginia--a place she has painstakingly avoided for 17 years. While the sheriff thinks the murder is a random robbery gone bad, Abigale soon becomes convinced her uncle was slain by someone he knew. Suspicion swirls among colorful characters in the tweedy, foxhunting

crowd, including a superficial nouveau riche social climber, the lazy heir to an old-money fortune, and, most painfully to Abigale, her former childhood sweetheart. This book focuses on the latest developments in the Asia-Pacific community in terms of how deregulation and privatization are bringing more risk to energy companies. In the light of these market changes, interest in energy risk management has grown substantially and is becoming a fiduciary responsibility of energy companies. As energy trading, power exchanges and hedging techniques establish themselves in the oil, power and gas sectors, so then do newer derivatives markets emerge in LNG hedging, weather derivatives and freight hedging. Fusaro and James, as seasoned market practitioners in the region, focus on these market changes and examine the future of Asian energy hedging.

Endorsement The not for profit world is a large and growing segment of economic activity globally. As economies grow and wealth accumulates, the urge to make a lasting, intergenerational contribution to human welfare is a deep part of our nature. Many enter this new world without a firm grasp of the financial structures that underpin the not for profit world. Into this gaps steps Biswajeet Chatterjee, with his new book Best Practices for a Global Not for Profit Organization. The book describes in clear and simple terms the fundamental accounting principles and regulatory requirements of the not for profit world. Best Practices for a Global Not for Profit Organization offers, in one place, in clear a simple language, a badly needed guide for all those new and established in this world. Not only does the book provide an outline of what is needed financially, it also provides a clear description how to navigate through the regulatory requirements that are often much different from those of the for profit world. Biswajeet Chatterjee is uniquely qualified to write this text. He is currently the Chief Financial officer of ACCESS Health International,

a not for profit organization which is active in Asia, South Asia, Europe, the Middle East and the Americas. He has written more than ten books on finance and accounting covering a wide range of topics including (International Finance Reporting Standards, Corporate Financial Reporting, Corporate Governance, risk management, financial analysis for decision making and Business Valuation, to name a few). I am pleased to recommend Best Practices for a Global Not for Profit Organization enthusiastically and without reservation. William A Haseltine PhD
