This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

THE EXTRA PHARMACOPOEIA OF UNOFFICIAL DRUGS AND CHEMICAL AND PHARMACEUTICAL PREPARATIONS

The Extra Pharmacopoeia

Martindale: The Complete Drug Reference provides unbiased, evaluated information on drugs and medicines in use around the world. It is updated by an experienced team of pharmacists and life scientists who use their professional expertise to provide an unbiased and evaluated digest of the available literature, selecting the most clinically relevant and appropriate information from reliable published sources. This 38th edition of Martindale has been completely redesigned to ensure ease of use and greatly improved readability. This latest edition contains over 6000 monographs, including 200 new monographs, on drugs and ancillary substances such as herbals, pharmaceutical excipients, and toxins and poisons. There are over 180,000 preparations giving details of preparation name, manufacturer, ingredients, and uses for proprietary preparations and now covering over 40 countries and regions, including China. The content is evidence-based and extensively referenced with links to the published literature.
