Genre, Nationalism and Desire in Nineteenth-Century Literature

Edinburgh University Press
Originally published in 1923, this book contains short biographies of the lives and works of several nineteenth-century female writers: Jane Austen, the Brontës, Elizabeth Gaskell, George Eliot, Elizabeth Barrett Browning and Christina Rossetti. Bald focuses on the humanity of each woman, and seeks to clarify the characteristics of 'women of literary instinct'. This book will be of value to

anyone with an interest in female authors and their motivations.

ELIZABETH GASKELL

Explores Victorian responses to death and burial in literature, journalism, and legal writing. *Literary Remains* explores the unexpectedly central role of death and burial in Victorian England. As Alan Ball, creator of HBO's *Six Feet Under*, quipped, "Once you put a dead body in the room, you can talk about anything." So, too, with the Victorians: dead bodies, especially their burial and cremation, engaged the passionate attention of leading Victorians, from sanitary reformers like Edwin Chadwick to bestselling novelists like

Charles Dickens, Elizabeth Gaskell, Thomas Hardy, and Bram Stoker. Locating corpses at the center of an extensive range of concerns, including money and law, medicine and urban architecture, social planning and folklore, religion and national identity, Mary Elizabeth Hotz draws on a range of legal, administrative, journalistic, and literary writing to offer a thoughtful meditation on Victorian attitudes toward death and burial, as well as how those attitudes influenced present-day deathway practices. *Literary Remains* gives new meaning to the phrase that serves as its significant theme: "Taught by death what life should be." "...*Literary Remains* is a fantastic literary companion and is worth reading even if you're not

initially interested in burial practices.” — M/C Reviews “...Hotz not only contextualizes her readings within a historical framework surrounding the passage of the Burial Acts, the building of large public cemeteries in the suburbs, and the late-century introduction of cremation as a widespread social practice, but offers a perceptive and compelling rhetorical analysis of the sociological, political, and theological discourse about burial.” — Victorian Studies “...the painstaking research on debates about funerary reform that Hotz brings together will be valuable for future investigations of death in Victorian culture.” — Studies in English Literature “This is an ambitious, energetic and rigorous attempt to do that very difficult thing, integrate detailed and historically informed analysis of the documents of nineteenth-century burial reform and of major literary texts into a lucid and complex argument that doesn’t fight shy of contradiction and difficulty.” — Mortality “Drawing on a vast range of primary sources—official documents, newspapers and periodicals, travel guides—and the work of anthropologists, historians, and the substantial

engagements within literary studies dealing with representations of death and the dead, Hotz’s perceptive, engaging, and eloquent study will be welcomed by a range of scholars in the humanities and social sciences.” — CHOICE “I read this fascinating book with great pleasure. It makes a valuable contribution to the study of Victorian practices of death and burial and will be an essential supplement to existing studies of the culture of Victorian melancholy and bereavement.” — Joel Faflak, author of *Romantic Psychoanalysis: The Burden of the Mystery* [Chartism, Radical Print Culture, and the Social Problem Novel](#) Oxford University Press

In this ambitious work Anita Levy exposes certain forms of middle-class power that have been taken for granted as "common sense" and "laws of nature." Joining an emergent tradition of cultural historians who draw on Gramsci and Foucault, she shows how middle-class hegemony in the nineteenth century depended on notions of gender to legitimize a culture-specific and class-specific definition of the right and wrong ways of being human. The author examines not only domestic fiction,

particularly Emily Bront's *Wuthering Heights*, but also nineteenth-century works of the human sciences, including sociological tracts, anthropological treatises, medical texts, and psychological studies. She finds that British intellectuals of the period produced gendered standards of behavior that did not so much subordinate women to men as they authorized the social class whose women met norms of "appropriate" behavior: this class was considered to be peculiarly fit to care for other social and cultural groups whose women were "improperly" gendered. When Levy reads fiction against the social sciences, she demonstrates that the history of fiction cannot be understood apart from the history of the human sciences. Both fiction and science share common narrative strategies for representing the "essential" female and "other women"—the prostitute, the "primitive," and the madwoman. Only fiction, however, represented these strategies in an idiom of everyday life that verified "theory" and "science." Originally published in 1990. These 13 original essays engage with Ranciere's accounts of literature from across his work, putting his conceptual apparatus to work in acts of literary criticism. From his archival investigations of the literary efforts of 19th-century workers to his engagements with specific novelists and poets, and from his concept of 'literarity' to his central positioning of the novel in his account of the three 'regimes' of literary practice, this collection unearths, consolidates, evaluates and critiques Ranciere's work on literature.

REPRESENTATIONS OF DEATH AND BURIAL IN VICTORIAN ENGLAND

Bloomsbury Publishing

A look back through the history of women who were about to be married only to be left at the altar—and left with no choice but to take their revenge. A wedding day is supposed to be the happiest, most special and blessed event in a bride's life. And most of the time, it is. But sometimes, it is not. In this fun, fascinating look at betrothals that went bust before anyone even said "I do," the authors have collected the true stories of what happened when the groom suddenly decided "I don't." From the 1780s right up to the 1970s, jilted women (and the occasional crushed suitor) employed a range of tactics to bring false lovers to book. Here is a full wedding party of cases in which women found very different kinds of happy endings, such as Mary Elizabeth Smith who forged evidence of a courtship to entrap an Earl, Catherine Kempshall who shot the man who denied their engagement, Gladys Knowles who was awarded a record £10,000 in damages by a jury in 1890, and Daisy Mons who

discreetly negotiated a £50,000 settlement from a nobleman. Based on original research, this social history of breach of promise shows that when men behaved badly, hell had no fury like a woman scorned.

The Meanings of Home in Elizabeth Gaskell's Fiction Introduction to the Thermodynamics of Materials, Fifth Edition First published in 1981, this book explores the reactions of some female writers to the social effects of industrial capitalism between 1778 and 1860. The period set in motion a crisis over the status of middle-class women that culminated in the constructed idea of "women's proper sphere". This concept disguised inequities between men and women, first by asserting the reality of female power, and then by restricting it to self-sacrificing influence. In this book, Judith Newton analyses novels such as Fanny Burney's *Evelina*, Jane Austen's *Pride and Prejudice*, Charlotte Brontë's *Villette* and George Eliot's *The Mill on the Floss* in order to demonstrate how some female writers reacted to the issue by covertly resisting inequities of power and reconciling ideologies in their art. She argues that in

this time period, novels became increasingly rebellious as well as ambivalent. Heroines were endowed with power, and emphasis was given to female ability, rather than to feminine influence.

Literary Remains Ashgate Publishing, Ltd.

In *Liberalizing Contracts* Anat Rosenberg examines nineteenth-century liberal thought in England, as developed through, and as it developed, the concept of contract, understood as the formal legal category of binding agreement, and the relations and human practices at which it gestured, most basically that of promise, most broadly the capitalist market order. She does so by placing canonical realist novels in conversation with legal-historical knowledge about Victorian contracts.

Rosenberg argues that current understandings of the liberal effort in contracts need reconstructing from both ends of Henry Maine's famed aphorism, which described a historical progress "from status to contract." On the side of contract, historical accounts of its liberal content have been oscillating between atomism and social-collective approaches, missing out on forms of relationality in

Victorian liberal conceptualizations of contracts which the book establishes in their complexity, richness, and wavering appeal. On the side of status, the expectation of a move "from status" has led to a split along the liberal/radical fault line among those assessing liberalism's historical commitment to promote mobility and equality. The split misses out on the possibility that liberalism functioned as a historical reinterpretation of statuses – particularly gender and class – rather than either an effort of their elimination or preservation. As Rosenberg shows, that reinterpretation effectively secured, yet also altered, gender and class hierarchies. There is no teleology to such an account.

GASKELL'S GUIDE TO WRITING

GRIN Verlag

First published in 1979, this book looks at every aspect of the life and work of Elizabeth Gaskell, including her lesser known novels and writings — especially those concerning life in the industrial north of Victorian England. It shows how her work springs from a culture and society which pervades all she thought and wrote. An opening chapter explores her religion,

culture, friendships and family. The major works are considered in turn and background material relevant to the novels' industrial scenes is presented. The process of literary creation is charted in material drawn from letters and by examination of the manuscripts. Her short stories, journalism and letters are also considered.

This book provides a complete background on metaheuristics to solve complex bi-level optimization problems (continuous/discrete, mono-objective/multi-objective) in a diverse range of application domains. Readers learn to solve large scale bi-level optimization problems by efficiently combining metaheuristics with complementary metaheuristics and mathematical programming approaches. Numerous real-world examples of problems demonstrate how metaheuristics are applied in such fields as networks, logistics and transportation, engineering design, finance and security.

Guide to Writing Servants and Paternalism
in the Works of Maria Edgeworth and
Elizabeth Gaskell Routledge

Breach of Promise to Marry CRC Press
Writing during periods of dramatic social
change, Maria Edgeworth and Elizabeth
Gaskell were both attracted to the idea of
radical societal transformation at the same
time that their writings express nostalgia
for a traditional, paternalistic ruling class.
Julie Nash shows how this tension is
played out especially through the
characters of servants in short fiction and
novels such as Edgeworth's *Castle
Rackrent*, *Belinda*, and *Helen and Gaskell's
North and South* and *Cranford*. Servant
characters, Nash contends, enable these
writers to give voice to the contradictions
inherent in the popular paternalistic
philosophy of their times because the
situation of domestic servitude itself
embodies such inconsistencies. Servants,
whose labor was essential to the economic

and social function of eighteenth- and
nineteenth-century British society, made
up the largest category of workers in
England by the nineteenth century and yet
were expected to be socially invisible. At
the same time, they lived in the same
houses as their masters and mistresses
and were privy to the most intimate
details of their lives. Both Edgeworth and
Gaskell created servant characters who
challenge the social hierarchy, thus
exposing the potential for dehumanization
and corruption inherent in the paternalistic
philosophy. Nash's study opens up
important avenues for future scholars of
women's fiction in the nineteenth century.

In his 1850 article "Prostitution," W. R.
Greg asserts that nineteenth-century
society conceived of prostitutes as "far
more out of the pale of humanity than
negroes on a slave plantation or fellahs in
a Pasha's dungeon." Elsie B. Michie here
provides insightful readings of novels by
Mary Shelley, Emily and Charlotte Bronte,
Elizabeth Gaskell, and George Eliot, writers

who confronted definitions of femininity
which denied them full participation in
literary culture. Exploring a series of
abhorrent images - Frankenstein's
monster, a simianized caricature of the
Irish, the menstruating woman alluded to
in debates on access to higher education,
and the fallen woman - Michie traces the
links between the Victorian definition of
femininity and other forms of cultural
exclusion such as race and class
distinctions. Michie considers a range of
fiction written in the period 1818-1870,
paying particular attention to changes in
the construction of gender which coincided
with changing attitudes toward colonial
and class relations. Drawing on the work
of such theorists as Teresa de Lauretis,
Catherine Gallagher, Mary Poovey, Gayatri
Spivak, and Homi Bhabha, she maps out
connections between two excluded
territories, one defined by gender and the
other by class, race, and economics.
Michie transforms our understanding of
familiar novels including *Wuthering
Heights* and *Middlemarch* in which the two
themes are articulated together, as she
illuminates political, economic, and social
issues connected to models of difference.

Literary theorists, feminist scholars, Victorianists, and others interested in cultural studies and the history of the novel will welcome this perceptive and engaging book.

Proposing the concept of transformation as a key to understanding the Victorian period, this collection explores the protean ways in which the nineteenth century conceived of, responded to, and created change. The volume focuses on literature, particularly issues related to genre, nationalism, and desire. For example, the essays suggest that changes in the novel's form correspond with shifting notions of human nature in Victor Hugo's *Notre-Dame de Paris*; technical forms such as the villanelle and chant royal are crucial bridges between Victorian and Modernist poetics; Victorian theater moves from privileging the text to valuing the spectacles that characterized much of Victorian staging; Carlyle's *Past and Present* is a rallying cry for replacing the static and fractured language of the past with a national language deep in shared meaning; Dante Gabriel Rossetti posits

unachieved desire as the means of rescuing the subject from the institutional forces that threaten to close down and subsume him; and the return of Adelaide Anne Procter's fallen nun to the convent in "A Legend of Provence" can be read as signaling a more modern definition of gender and sexuality that allows for the possibility of transgressive desire within society. The collection concludes with an essay that shows neo-Victorian authors like John Fowles and A. S. Byatt contending with the Victorian preoccupations with gender and sexuality.

Seminar paper from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,3, Humboldt-University of Berlin (Institut für Anglistik),

course: Mid-Victorian Social Problem Novels, 9 entries in the bibliography, language: English, abstract: Die Gesellschaft der Bundesrepublik hat sich seit dem 2. Weltkrieg stark verändert. Die damals bestehenden traditionellen Bindungen gelten heute weniger, gesellschaftliche Institutionen wie Parteien und Kirche verlieren immer mehr an Einfluss. Die Gesellschaft individualisiert sich immer weiter und stellt damit das politische System vor andere Bedingungen. Doch wie sehen diese Bedingungen genau aus? Kann die Vermittlung von Politik heute noch genauso vor sich gehen wie vor 20 Jahren oder muss das politische System heute im Bereich der Kommunikation neue Wege gehen? Und inwieweit ist dies mit den Rahmenbedingungen der politischen Vermittlung, welche im Grundgesetz verankert sind, vereinbar? Stellt die veränderte Situation vielleicht sogar eine Gefahr für die Demokratie dar? Diesen Fragen wird in dieser Hausarbeit nachgegangen. Um Antworten auf diese Fragen zu finden wird zunächst dargelegt, wie der Gesetzgeber die Rolle der politischen Vermittlung durch die Parteien

vorgesehen hat. Danach wird der Frage nachgegangen, inwiefern sich die deutsche Gesellschaft verändert, um daraufhin das Mediensystem zu analysieren. Hinsichtlich des Mediensystem wird der Schwerpunkt auf die Einführung des Privatfernsehens und dessen Auswirkungen gelegt und inwiefern man hier von einer „Macht der Medien“ sprechen kann. Danach wird betrachtet, inwieweit das politische System auf die neuen Bedingungen in den anderen Teilsystemen reagiert. Was sind die Antworten der politischen Parteien auf die Trends in ihrem Umfeld? Was hat es auf sich mit neuen Techniken des Politmarketings? Gibt es hier Rückkopplungen auf das inhaltliche Programm der Parteien? Dies führt dann gleich zu der weiterführenden Frage inwieweit sich Chancen und Risiken aus den neuen Techniken und Bedingungen der politischen Kommunikation für das demokratische System ergeben.

An Underground History of Early Victorian Fiction

John Wiley & Sons
 Much has been written about the Victorian novel, and for good reason. The cultural power it exerted (and, to some extent, still exerts) is beyond question. The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics (the novel and science, the Victorian Bildungroman) as well as essays on topics often overlooked (the novel and classics, the novel and the OED, the novel, and allusion). Manifesting the increasing interdisciplinarity of Victorian studies, its essays situate the novel within

a complex network of relations (among, for instance, readers, editors, reviewers, and the novelists themselves; or among different cultural pressures - the religious, the commercial, the legal). The handbook's essays also build on recent bibliographic work of remarkable scope and detail, responding to the growing attention to print culture. With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars — beginning with Peter Garside's examination of the early nineteenth-century novel and ending with two essays proposing the 'last Victorian novel' — the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research. Balancing breadth and depth, the clearly-written, nonjargon-laden essays provide readers with overviews as well as original scholarship, an approach which will serve advanced undergraduates, graduate students, and established scholars. As the Victorians get further away from us, our versions of their culture and its novel inevitably change; this Handbook offers fresh explorations of the novel that teach us about this genre,

its culture, and, by extension, our own.

THE FEMININE POLITICAL NOVEL IN VICTORIAN ENGLAND

Princeton University Press

Critical assessments of Elizabeth Gaskell have tended to emphasise the regional and provincial aspects of her writing, but the scope of her influence extended across the globe. Building on theories of space and place, the contributors to this collection bring a variety of geographical, industrial, psychological, and spatial perspectives to bear on the vast range of Gaskell's literary output and on her place within the narrative of British letters and national identity. The advent of the railway and the increasing predominance of manufactory machinery reoriented the nation's physical and social countenance, but alongside the excitement of progress and industry was a sense of fear and loss

manifested through an idealization of the country home, the pastoral retreat, and the agricultural south. In keeping with the theme of progress and change, the essays follow parallel narratives that acknowledge both the angst and nostalgia produced by industrial progress and the excitement and awe occasioned by the potential of the empire. Finally, the volume engages with adaptation and cultural performance, in keeping with the continuing importance of Gaskell in contemporary popular culture far beyond the historical and cultural environs of nineteenth-century Manchester.

Elizabeth Gaskell Routledge

In this beautifully written study, Carolyn Lambert explores the ways in which Elizabeth Gaskell challenges the nineteenth-century cultural construct of the home as a domestic sanctuary offering protection from the external world.

Gaskell's fictional homes often fail to provide a place of safety: doors and windows are ambiguous openings through which death can enter, and are potent signifiers of entrapment as well as protective barriers. The underlying fragility of Gaskell's concept of home is illustrated by her narratives of homelessness, a state she uses to represent psychological, social, and emotional separation. By drawing on novels, letters and non-fiction writings, Lambert shows how Gaskell's detailed descriptions of domestic interiors allow for nuanced and unconventional interpretations of character and behaviour, and evince a complex understanding of the significance of home for the construction of identity, gender and sexuality. Lambert's Gaskell is an outsider whose own dilemmas and conflicts are reflected in the intricate and multi-faceted portrayals of home in her fiction.
