Railways: a Readers Guide ABC
British Locomotive Shed Directory and Allocations 1962
There is a continual demand for facsimile reprints of Ian Allan's abc loco books from the 1950s and 1960s, as a reference source to the railways of that era. These books generally did not include the Locoshed allocations, which were published separately. In 2002 we published the 1952 Locoshed Book and in 2004 we published the 1960 Locoshed Book. This classic reprint will give enthusiasts a complete listing of the large numbers of steam locomotives that were still in operation in the early 1960s as well as the large numbers of first-generation diesel locomotives and multiple units that had entered service by this date.

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Strengthening Forensic Science in the United States OECD Publishing
Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound

policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. **Strengthening Forensic Science in the United States: A Path Forward** provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. **Strengthening Forensic Science in the United States** gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

In the 1950s and 1960s south Lancashire

and Cheshire was criss-crossed by a web of railway lines, servicing the various needs of local industries. The region was a haven for railway enthusiasts who pursued the hundreds of steam workhorses based at British Railways depots in 'chemical towns' such as Warrington, Widnes, Wigan and Sutton Oak, besides Southport and Northwich. While these facilities appeared less glamorous than larger counterparts in Liverpool or Manchester, the stories of the engines, trains and the men who were based at the depots in these towns was no less fascinating. *Shed Side in South Lancashire and Cheshire* provides a fascinating portrait of the daily operations of the freight and passenger trains of the region during the final decade of Britain's steam era. It evokes a period of grimy, metal-clattering, smoke-filled industry, and of an era forever etched in our industrial heritage.

NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE ECONOMIST Winner of the Natan Book Award, the National Jewish Book Award, and the Anisfield-Wolf Book Award An authoritative and deeply personal narrative history of the State of Israel, by one of the most influential journalists writing about the Middle East today Not since Thomas L. Friedman's groundbreaking *From Beirut to Jerusalem* has a book captured the

essence and the beating heart of the Middle East as keenly and dynamically as *My Promised Land*. Facing unprecedented internal and external pressures, Israel today is at a moment of existential crisis. Ari Shavit draws on interviews, historical documents, private diaries, and letters, as well as his own family's story, illuminating the pivotal moments of the Zionist century to tell a riveting narrative that is larger than the sum of its parts: both personal and national, both deeply human and of profound historical dimension. We meet Shavit's great-grandfather, a British Zionist who in 1897 visited the Holy Land on a Thomas Cook tour and understood that it was the way of the future for his people; the idealist young farmer who bought land from his Arab neighbor in the 1920s to grow the Jaffa oranges that would create Palestine's booming economy; the visionary youth group leader who, in the 1940s, transformed Masada from the neglected ruins of an extremist sect into a powerful symbol for Zionism; the Palestinian who as a young man in 1948 was driven with his family from his home during the expulsion from Lydda; the immigrant orphans of Europe's Holocaust, who took on menial work and focused on raising their children to become the leaders of the new state; the pragmatic engineer who was instrumental in developing Israel's nuclear program in the 1960s, in the only interview he ever gave; the zealous religious Zionists who started the settler movement in the 1970s; the dot-com entrepreneurs and young men and women behind Tel-Aviv's booming club scene; and today's architects of Israel's foreign policy with Iran, whose nuclear threat looms ominously over the tiny country. As it examines the complexities and contradictions of the Israeli

condition, *My Promised Land* asks difficult but important questions: Why did Israel come to be? How did it come to be? Can Israel survive? Culminating with an analysis of the issues and threats that Israel is currently facing, *My Promised Land* uses the defining events of the past to shed new light on the present. The result is a landmark portrait of a small, vibrant country living on the edge, whose identity and presence play a crucial role in today's global political landscape. Praise for *My Promised Land* "This book will sweep you up in its narrative force and not let go of you until it is done. [Shavit's] accomplishment is so unlikely, so total . . . that it makes you believe anything is possible, even, God help us, peace in the Middle East."—Simon Schama, *Financial Times* "[A] must-read book."—Thomas L. Friedman, *The New York Times* "Important and powerful . . . the least tendentious book about Israel I have ever read."—Leon Wieseltier, *The New York Times Book Review* "Spellbinding . . . Shavit's prophetic voice carries lessons that all sides need to hear."—*The Economist* "One of the most nuanced and challenging books written on Israel in years."—*The Wall Street Journal*

From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when •

coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to

relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

From the author of the New York Times bestselling *Holy War, Inc.*, this is the definitive account of the decade-long manhunt for the world's most wanted man, Osama bin Laden. Al Qaeda expert and CNN national security analyst Peter Bergen paints a multidimensional picture of the hunt for Osama bin Laden over the past decade, including the operation that killed him. Other key elements of the book will include: - A careful account of Obama's decision-making process as the raid was planned - The fascinating story of a group of women CIA analysts who never gave up assembling the tiniest clues about bin Laden's whereabouts - The untold and action-packed history of the Joint Special Operations Command (JSOC) and the SEALs - An analysis of what the death of

bin Laden means for Al Qaeda and for Obama's legacy Just as Hugh Trevor-Roper's *The Last Days of Hitler* was the definitive account of the death of the Nazi dictator, *Manhunt* is the authoritative, immersive account of the death of the man who organized the largest mass murder in American history.

British Railways Locomotives

A reprint of the classic Ian Allan combined volume listing all locomotives in operation on Britain's railways as at July 1960 for the Western, Southern, Scottish and London Midland regions and August for the Eastern and North Eastern. Includes diesel and electric locomotives and multiple units and all the original 192 black/white photos, providing a nostalgic look back in time and an essential collector's item. 264 pages. Laminated pocket size hardback *Subject Index of Modern Books Acquired* Michael Harvey's new book brings to its reader the excitement of trainspotting in the 1950s and 60s, the hobby's heyday. It was the advent of the famous Ian Allan ABC Locospotters books that really gave the hobby the impetus, as they gave transpotters all the information they required. Forget the Anorak sets out to provide the reader with a personal account of what the hobby entailed - teenagers roaming the railways of Britain, sleeping on deserted platforms on porters' trolleys, 'bunking' dimly lit depots and eluding capture, travelling hundreds of miles on a platform ticket, and stink bombs on the Underground. You'll be able to smell the steam, soot and unwashed socks, and taste the boiled egg sandwiches, the chips wrapped in newspaper and the hot jam doughnuts, all washed down with warm Tizer. Illustrated with Michael Harvey's own photographs and a selection of

maps, Forget the Anorak will appeal to anyone who experienced the golden days of trainspotting, as well as to anyone interested in the social history of Britain after the Second World War.
