Technical Description Alimak  
Scando 650 Technical description The  
new SCANDO 650 hoists are construction  
hoists for personnel and materials  
transport. Two car base structures can  
be combined with different gate units  
and extensions to a number of different  
car lengths up to maximum 4.6 m (15'-  
1"). Car width 1.5 m (4'- 11") is fixed.  
The car, as well as the ground  
enclosures doors Technical Description  
ALIMAK SCANDO 650 Construction  
Hoists The 650 modular system that can  
adapt to different applications using  
relatively few modules and components.  
The Alimak Scando 650 offers payloads  
of 1,500 kg to 3,200 kg per car and has  
a standard maximum lifting height of  
250 m, which can be increased up to 400  
m on request. No applications are too

difficultALIMAK SCANDO 650With internal car lengths up to 5 m, a width of 2 m and a height of 2.8 m the new Alimak Scando 650 XL surpasses all existing standard construction hoists operating on a single mast. By using a forklift truck or a board transit bench the loading and unloading of bulky materials can be done easy and ergonomically.ALIMAK SCANDO 650 XLThe 650 modular system that can adapt to different applications using relatively few modules and components. The Alimak Scando 650 offers payloads of 1,500 kg to 3,200 kg (3,300—7,054 lbs) per car and has a standard maximum lift - ing height of 250 m (825 ft) , which can be increased up to 400 m (1,300 ft) on request. No applications are too difficultALIMAK SCANDO
