[Selling School Budgets in Hard Times](#) Happy About The June 2019 OMB Circular No. A-11 provides guidance on preparing the FY 2021 Budget and instructions on budget execution. Released in June 2019, it's printed in two volumes. This is Volume I. Your budget submission to OMB should build on the President's commitment to advance the vision of a Federal Government that spends taxpayer dollars more efficiently and effectively and to provide necessary services in support of key

National priorities while reducing deficits. OMB looks forward to working closely with you in the coming months to develop a budget request that supports the President's vision. Most of the changes in this update are technical revisions and clarifications, and the policy requirements are largely unchanged. The summary of changes to the Circular highlights the changes made since last year. This Circular supersedes all previous versions. VOLUME I Part 1-General Information Part 2-Preparation and Submission of Budget Estimates Part 3-Selected Actions Following Transmittal of The Budget Part 4-Instructions on Budget Execution VOLUME II Part 5-Federal Credit Part 6-The Federal Performance Framework for Improving Program and Service Delivery Part7-Appendices

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is

copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

### **STANDARDS OF EXCELLENCE IN BUDGET PRESENTATION**

#### Basic Books

Local budgeting serves important functions that include setting priorities, planning, financial control over inputs, management of operations and accountability to citizens. These objectives give rise to technical and policy issues that require open discussion and debate. The format of the budget document can facilitate this debate. This book provides a comprehensive treatment of all aspects of local budgeting needed to develop sound fiscal administration at the local level. Topics covered include fiscal administration, forecasting, fiscal discipline, fiscal transparency, integrity of revenue administration, budget formats, and processes including performance budgeting, and capital budgeting.

Praise for Streetsmart Financial Basics for Nonprofit Managers, Third Edition "Tom McLaughlin is a proven master at making the daunting concepts of nonprofit financial management clear and engaging. This book is a superb introduction for new nonprofit executives, board members, and students. It is also an excellent refresher and reference for those of us who have been around the nonprofit sector for a while. It is well written, concise, and thought provoking." —J. Gregory Dees, Professor of the Practice of Social Entrepreneurship and Nonprofit Management at Duke University's Fuqua School of Business, and coauthor of *Enterprising Nonprofits* and *Strategic Tools for Social Entrepreneurs* "A very practical guide to understanding and managing the finances of a nonprofit organization. As nonprofits strive for greater accountability, Tom McLaughlin's real-world examples and accessible style make this book indispensable for nonprofit executives, managers, and board members at organizations of any size." —Gordon J. Campbell,

President and CEO, United Way of New York City "Tom McLaughlin's powerful book is far more than a useful tool. It provides the philosophical approach to instill strong stewardship and future viability to those in the world of nonprofits. He takes apart the complex issues of nonprofit stewardship just as Einstein translated relativity into a simple equation. Purely masterful." —Jim Mellor, Senior VP, Chief Financial Officer, YMCA of the USA

#### World Bank Publications

Financial planning for education is a difficult task as schools struggle for a share of diminishing tax resources. The presentation of school budgets for voter approval must be done as effectively as possible. When presenting budgets, administrators should take into account that the public has a low tolerance for detail, budgets are boring, a well informed public is more positive, presentation materials should be attractive and brief, support groups are needed, and the media should be used wisely. The most important component of the process is the presentation of the budget support material. Fifteen suggestions for presenting budget proposals to the public are provided. The printed budget should be attractive, be self-explanatory, answer the public's questions, use graphics and easily understood tables, and use clear uncluttered prose. The author provides an example of a "bird's eye" budget that is easy to read, understandable, and inexpensively produced. A checklist for assessing a school's budget presentation is provided. Selling budgets in difficult times is hard work that takes careful planning and thorough understanding of demographics, social climate, and financial capabilities. (MD)

#### Createspace Independent Publishing Platform

Many great job candidates have poor resumes that are merely a laundry list of job tasks that do little to distinguish them from their competition. The average recruiter or hiring manager spends less than 15 seconds reviewing a resume. Most people's resumes fail to "wow" the reader and quickly end up in the "no" pile.

Writing a resume can feel like an overwhelming task. It can seem like a Herculean effort to consolidate so much important information about a career into a one or two page document. But it doesn't have to be that way! In 'Happy About My Resume', Barbara Safani offers 50 tips for creating compelling copy and presenting it in a powerful way to grab the hiring authority's attention and get them to pick up the phone to call you in for an interview. Safani provides practical and easy-to-follow advice as well as numerous samples that show each of her tips in action. The book will help readers learn how to quickly create a resume that is professional, gets them noticed, minimizes the amount of time they spend in a job search, and maximizes their earning power. The book is for anyone who wants to proactively manage their career and improve the quality of their current resume or create a resume from scratch.

Using a set of budgeting guidelines created specifically for school entities, this how-to publication takes readers through the steps necessary to develop an annual budget that meets today's most rigorous demands. The guidelines provide a means for the business management staff, school board, and community to use the budget document as an effective decision-making and communications tool. Budget examples that adhere to these guidelines and have earned award recognition for their budget presentation accomplishments are highlighted.

### **GUIDELINES FOR PUBLIC EXPENDITURE MANAGEMENT**

#### John Wiley & Sons

Do you want to know what your local government is up to? Would you like to know how your city or town is spending the taxpayers' money? As a concerned citizen, you have the right to know how your tax dollars are being spent. You want to understand why the city cuts programs that benefit the community, like after-school activities, while at the same time they are building a parking garage. Your city or town's budget document identifies what money the council approved for specific services, such as public safety. The budget document may be available on the city's website, making it easy to access. However, most city budget documents are very complicated, with pages filled with tables of numbers and terms few residents understand. If you can't

understand the city's budget, how will you know if your tax dollars are being well used? How can you hold your elected officials accountable? This book is intended to guide you through the hundreds of pages of numbers and jargon that makes up most municipal budget documents. It will help you to focus on the most important information in your city's budget. The book includes an extensive glossary of terms used in government finance and budgeting. This easy to read guide is written for neighborhood taxpayers and community leaders, who want to be more effectively involved in their city or town. It is an excellent resource for newly elected city or town council members and appointed committee volunteers, eager to get a handle on the inner workings of government finance before having to cast critical budget votes. This 7 Keys book is also perfectly suited to the academic setting such as a public administration class or a community workshop on local government. The book includes creative hands-on projects intended to give the reader a solid working knowledge of the city budget.

### **BUDGET OF THE UNITED STATES GOVERNMENT**

Government Printing Office

Government is broke. The 2004 federal deficit is the highest in U.S. history. The states have suffered three years of record shortfalls. Cities, counties, and school districts are laying off policemen and teachers, closing schools, and cutting services. But the fiscal pain won't go away, and the bankrupt ideologies of left and right offer little guidance. *The Price of Government* presents a radically different approach to budgeting—one that focuses on buying results for citizens rather than cutting or adding to last year's spending programs. It advocates consolidation, competition, customer choice, and a relentless focus on results to save millions while improving public services.

*Building a Better Budget Document* R&L Education

Traditionally, economics training in public finances has focused more on tax than public expenditure issues, and within expenditure, more on policy considerations than the more mundane matters of public expenditure management. For many years, the IMF's Public Expenditure Management Division has answered specific questions raised by fiscal economists on such

missions. Based on this experience, these guidelines arose from the need to provide a general overview of the principles and practices observed in three key aspects of public expenditure management: budget preparation, budget execution, and cash planning. For each aspect of public expenditure management, the guidelines identify separately the differing practices in four groups of countries - the francophone systems, the Commonwealth systems, Latin America, and those in the transition economies. Edited by Barry H. Potter and Jack Diamond, this publication is intended for a general fiscal, or a general budget, advisor interested in the macroeconomic dimension of public expenditure management.

### **Managing the Effects of Tax Expenditures on National Budgets** World Bank Publications

*Building a Better Budget Document*

*Message to the General Assembly* International Monetary Fund

Abstract: "Tax expenditures, in the form of tax provisions, are government expenditures. They are conceptually and functionally distinct from those tax provisions whose purpose is to raise revenue. Tax expenditure programs are comparable to entitlement programs. Therefore, tax expenditures must be analyzed in spending terms and integrated into the budgetary process to ensure fiscal accountability. In addition, tax expenditures must be audited for performance and the information must be published (with comprehensive analysis) to ensure fiscal transparency. The author analyzes the concept and definition, size, and effects of tax expenditures, as well as the fiscal accountability and transparency of tax expenditure spending. In short, tax expenditures affect (1) the budget balance, (2) budget prioritization in allocation, (3) the effectiveness and efficiency of fiscal resources, and (4) the scope for abuse by taxpayers, government officials and legislators. While reviewing the current practices in tax expenditures against the requirements of fiscal accountability and transparency, she finds that this fiscal area must be strengthened. The author sketches four building blocks to strengthen tax expenditures toward fiscal accountability and transparency, based on the literature developed by Surry and McDaniel, the practices from industrial and developing countries, the Campos and Pradhan

fiscal accountability model, and the International Monetary Fund's fiscal transparency code. The author argues that normative/benchmark tax structure, a revenue-raising component of the tax system, should be formalized. The normative/benchmark tax structure should be legally defined in the tax law and should be transparent. The tax receipts from this normative/benchmark tax structure should be quantified and published. Presently, many countries could publish imputed tax revenue from normative/benchmark tax structures because such data is available. Only if imputed tax revenue is published in the same way as the other budget components—tax revenue received, tax expenditures, direct expenditures, and fiscal balance—will a budget system be truly transparent in terms of revenue-raising activities and expenditure activities. In addition, when the tax revenue-raising activity is formalized, the inherent spending nature of tax expenditures is further exposed. Therefore, tax expenditures should be added to direct expenditures forming total government expenditures. Furthermore, the conventional concept of the size of government should be remedied by including both direct expenditures and tax expenditures."--World Bank web site.
