The literature of Scandinavia is amazingly rich and varied, consisting of the works produced by the countries of Denmark, Norway, Sweden, Finland and Iceland, and stretching from the ancient Norse Sagas to the present day. While much of it is unknown outside of the region, some has gained worldwide popularity, including the fairy tales of Hans Christian Andersen, the stories of Isak Dinesen, and the plays of Henrik Ibsen and August Strindberg. While obviously including the area's

most famous works, the Historical Dictionary of Scandinavian Literature and Theater also provides information on lesser known authors and currents trends, literary circles and journals, and historical background. This is accomplished through a list of acronyms, a chronology, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries, which together make this reference the most comprehensive and up to date work of its kind related to Scandinavian literature and theater available anywhere.

During the final decades of the nineteenth century, a common mind-set emerged among many intellectuals--"la decadence." Many novels and novellas of the period were populated with protagonists who were fragile, refined, self-absorbed, and preoccupied with a trivially exquisite aesthetic. A Baedeker of Decadence presents thirty-two international works of literary decadence written between 1884 and 1927. George C. Schoolfield, a world authority on the decadent novel, offers an entertaining and wide-ranging commentary on this highly significant literary and cultural phenomenon. Schoolfield tracks down the symptoms of decadence in narrative works written in more than a dozen languages, providing synopses and passages in English translation to give a sense of each author's style and tone. Schoolfield throws new light on the close intellectual kinship of authors from August Strindberg to Bram Stoker to Thomas Mann, and on the ingredients, themes, motifs, and preconceptions that characterized decadent literature.

The Cimbrians U of Minnesota Press

HauptbeschreibungThe current relationship between the Nordic countries and the European Union appears complex and confusing. Although Denmark, in 1973, and Sweden and Finland, in 1995, joined the European Union, the entry of Norway into the Union was rejected in the plebiscites of 1972 and 1994. Furthermore, Nordic EU members enjoy permanent exceptions to their integration into the EU: Denmark and Sweden, like the U.K., have declined to become part of the monetary union. Finland is essentially the only Nordic country that entered the EU without substantial exceptions. A membership bid from Iceland was unthinkable; after the financial crisis - which is not the topic of this book - Iceland applied for membership in 2010 and has been in discussions with the European Commission ever since. In other words: the European Union divides Nordic societies, which has resulted in a series of national exceptions to the integration process. Taken together, these exceptions have created an integration process whose overall geometry is contradictory and paradoxical. Considering this melange, this book will discuss the actual state of Nordic integration into the EU from many different perspectives and illuminate future developments in the field of integration. Where is the North relative to Europe today? How can the geometry of Northern Europe's integration, developed over a long time, be characterised? What are the challenges that threaten further development of Nordic-European relationships?

**Pello the Conqueror ...** World Scientific

The Liar is one of Danish novelist Martin A. Hansen's best known and popular fictions. Published in 1950, the story, which takes place shortly after World War II, is told in the first person and concerns the inhabitants of a tiny island in the Danish archipelago. In this absorbing psychological work, the author probes deeply into the mind of Johannes Vig, the local schoolmaster, a lonely figure whose relationship with his fellow islanders is gradually revealed in the diary on which he retrospectively comments. The story lays bare not only his self-doubts, but his belief in the goodness of man, both of which become increasingly more complex and contradictory as the story unfolds.

Northern Europe and the Future of the EU Cambridge University Press

Taking place during the first half of the sixteenth century, The Fall of the King tells the story of dreamy, slacking student Mikkel Thøgersen and the entanglements that ultimately bring him into service as a mercenary under King Christian II of Denmark. Moving from the Danish countryside to Stockholm during the execution of Swedish nobility and finally to the imprisonment of Mikkel and Christian, the narrative is a lyrical encapsulation of "the fall"—the fall of country, history, individuals, and nature. Twice voted as the most important Danish novel of the twentieth century, The Fall of the King is both an epic depiction of real events and a complex psychological novel. Half pure narration, half prose poem, its scenes of brute realism mixed with rhapsodical passages make it a work of artistic genius.

**Kongens Fald** Alpha Edition

Portable, powerful, and a breeze to use, Python is the popular open source object-oriented programming language used for both standalone programs and scripting applications. It is now being used by an increasing number of major organizations, including NASA and Google. Updated for Python 2.4, The Python Cookbook, 2nd Edition offers a wealth of useful code for all Python programmers, not just advanced practitioners. Like its predecessor, the new edition provides solutions to problems that Python programmers face everyday. It now includes over 200 recipes that range from simple tasks, such as working with dictionaries and list comprehensions, to complex tasks, such as monitoring a network and building a templating system. This revised version also includes new chapters on topics such as time, money, and metaprogramming. Here's a list of additional topics covered: Manipulating text Searching and sorting Working with files and the filesystem Object-oriented programming Dealing with threads and processes System administration Interacting with databases Creating user interfaces Network and web programming Processing XML Distributed programming Debugging and testing Another advantage of The Python Cookbook, 2nd Edition is its trio of authors--three well-known Python programming experts, who are highly visible on email lists and in newsgroups, and speak often at Python conferences. With scores of practical examples and pertinent background information, The Python Cookbook, 2nd Edition is the one source you need if you're looking to build efficient, flexible, scalable, and well-integrated systems.

Aarhus Universitetsforlag

Revised and Updated Edition Fleeing the ice clad fjords of his native Greenland just ahead of greedy

kinsman who would keep his inheritance from him, Sigtrygg Thorgilsson, half-breed grandson of the storied explorer Leif Eiriksson, seeks his fortune on the shores of North America, last glimpsed by his grandfather some forty years before. Making his way across uncharted waters with a hastily assembled crew of untried men, he quickly learns that the inhabitants of the new land are less than pleased by their presence and that their survival will depend on their ability to carve a place for themselves in the midst of their skeptical hosts. But risking life and limb in a desperate gamble to prove their worth will not be enough as Sigtrygg's angry kinsmen unexpectedly arrive on the coast to dispute what he has won. Then only the shrewd counsel of an aged viking, and the passion of the woman Sigtrygg left behind, offer a way out of the burgeoning blood feud that threatens to engulf them all—as storm clouds gather in the distance and a defeated enemy prepares to take his revenge. A novel of Vikings and Indians in pre-Columbian North America, *The King of Vinland's Saga* reprises the failed settlement history of the Norse on the edge of the North Atlantic in the eleventh century—as Europe lay mired in medieval darkness, its inhabitants still ignorant of the places and peoples that lay just beyond their reach. Book Review: Just put down the above book. If this was your first endeavor, then I am eagerly anticipating your second. The book was fantastic! It was as enjoyable to me as "The Golden Warrior", "Musashi", and "With Fire and Sword" and other historical fiction novels that grace my bookshelves (many of which purchased through your recommendation on Amazon). It is nice to read a book and get mad, frustrated, etc. at the characters. Thanks again for a pleasurable read! Pete Giorgianni

### THE KING OF VINLAND'S SAGA

U of Minnesota Press

Med forord af Dorthe Nors. Den unge bondesøn Mikkel Thøgersen kommer til København for at studere i begyndelsen af 1500-tallet. Her ser han Christian II, hvis liv han kommer til at følge på tættest hold. Kåret til århundredets danske roman.

*Johannes V. Jensen* Lindhardt og Ringhof

This book comprises a number of cultural-historical and ethnographic studies of the history of sport in the Nordic countries. The studies examine the contribution made by sport to the development of Scandinavian nationalism in the nineteenth century, and analyze the ways in which sport became interwoven with the social life of citizens in the various Scandinavian countries in the twentieth century. The main focus of this volume, therefore, is not on the organizational history of sport, nor is it on society vis-a-vis sport - i.e., sport as a reflection of a certain societal constellation. Rather, what is of interest is sport in society, and therefore the book aims to illustrate the ways in which sport has been used and has served to help explain and understand Scandinavian society types.

**Johannes V. Jensen** Gyldendal A/S

A Danish literary critic describes his journey to the Far East, blending social commentary, personal insights, global history, and observations of people and places in his portraits of the cultures of China, Cambodia, and Vietnam.

### A BAEDEKER OF DECADENCE

U of Minnesota Press

Despite being a minor language, Danish literature is one of the world's most actively translated, and the Scandinavian country is the home of a number of significant writers. Hans Christian Andersen remains one of the most translated authors in the world, philosopher Søren Kierkegaard inspired modern Existentialism, Karen Blixen chronicled her life in colonial Kenya as well as writing imaginary, cosmopolitan tales, and the writers among the circles of literary critic Georg Brandes in the late 19th century were especially important to the further development of European Modernism. *Danish Literature as World Literature* introduces key figures from 800 years of Danish literature and their impact on world literature. It includes chapters devoted to post-1945 literature on beat and systemic poetry as well as the Scandinavia noir vogue that includes both crime fiction and cinema and is enjoying worldwide popularity.

### JOURNEYS FROM SCANDINAVIA

Xlibris Corporation

Johannes V. Jensen (1873-1950) var en uhyre produktiv forfatter, der udgav både digte, artikler, noveller og romaner. Mest kendt er han i dag for romanen "Kongens Fald" og novellesamlingen "Himmerlandshistorier". Johannes V. Jensen har som én af blot tre danske forfattere modtaget Nobelprisen i litteratur. I denne biografi fortæller K.K. Nicolaisen historien om forfatteren Johannes V. Jensen. Bogen udkom første gang i 1914. "... Hr. Nicolaisens bog er en fortræffelig vejleder for den, der ønsker at trænge ind i Johannes V. Jensens store og talentfulde produktion. Den giver en kort, men forstående analyse af hovedværkerne og indeholder et ikke ringe biografisk stof." - Emil Fog, Aarhus Amtstidende "Der er sikkert en plads for denne art småbøger i vor litteratur; mennesker med kærlighed til digtekunst vil kunne samle på dem og benytte dem som små håndbøger." - Hans Brix, Politiken "Den bæres ligesom hans Aakjær-biografi af en varm, smuk beundring, der oftest belyser noget, som er virkelig beundring værd." - Helge Rode, Illustreret Tidende Karl Kristian Nicolaisen (1883-1951) var lærer, forfatter og foredragsholder. Han er mest kendt for eftertiden for sine biografier om andre samtidige forfattere - blandt andet Jeppe Aakjær, Johan Skjoldborg, Martin Andersen Nexø og Johannes V. Jensen.

### KONGENS FALD

"O'Reilly Media, Inc."

This volume presents a comprehensive exposition of both the prehistory and medieval history of the whole of Scandinavia. The first part of the volume surveys the prehistoric and historic Scandinavian landscape and its natural resources, and tells how man took possession of this landscape, adapting culturally to changing natural conditions and developing various types of community throughout the Stone, Bronze and Iron Ages. The rest - and most substantial part of the volume - deals with the history of Scandinavia from the Viking Age to the end of the Scandinavian Middle Ages (c. 1520). The external Viking expansion opened Scandinavia to European influence to a hitherto unknown degree. A Christian church organisation was established, the first towns came into being, and the

unification of the three medieval kingdoms of Scandinavia began, coinciding with the formation of the unique Icelandic 'Free State'.
