Much of what we know of Cochise has come down to us in military reports, eyewitness accounts, letters, and numerous interviews the usually reticent chief granted in the last decade of his life.

Cochise: Firsthand Accounts of the Chiricahua Apache Chief brings together the most revealing of these documents to provide the most nuanced, multifaceted portrait possible of the Apache leader. In particular, the interviews, many printed here for the first time, are the closest we will ever get to autobiographical material on this notable man, his life, and his times.

Madison, Georgia was a hoppin' place while it hosted three (and

later a fourth) Confederate hospitals during the eight months before their final retreat in July 1864. Every few days the train depot was a flurry of activity as surgeons, attendants, and locals unloaded hundreds of sick and wounded soldiers fresh from the battles in Tennessee and North Georgia. Most of the records of their care were saved by the Director of Hospitals of the Army of Tennessee and then ferreted out 140 years later by the author from collections scattered across many states. This book includes

verbatim transcriptions of those documents, the subsequent hospital histories, surgeon biographies, and thousands of names in hundreds of regiments.

“A bold, new voice.” —People “A nuanced addition to the #MeToo conversation.” —Vice A young survivor tells her searing, visceral story of sexual assault, justice, and healing in this gutwrenching memoir. The numbers are staggering: nearly one in five girls ages fourteen to seventeen have been the victim of a sexual assault or attempted sexual assault. This is the true story of one of those girls. In 2014, Chessy Prout was a freshman at St. Paul’s School, a prestigious boarding school in New Hampshire, when a senior boy sexually assaulted her as part of a ritualized game of conquest. Chessy bravely reported her assault to the police and testified against her attacker in court. Then, in the face of unexpected backlash from her once-trusted school community, she shed her anonymity to help other survivors find their voice. This memoir is more than an account of a horrific event. It takes a magnifying glass to the institutions that turn a blind eye to such behavior and a society that blames victims rather than perpetrators. Chessy’s story offers real, powerful solutions to upend rape culture as we know it today. Prepare to be inspired by this remarkable young woman and her story of survival, advocacy, and hope in the face of unspeakable trauma.

From Small Places: Toward the Realization of Literacy as a Human Right brings together history, theory, research, and practices that can lead to the realization of this right, both in itself, and as a means of achieving other rights. The premise of this book is that this right begins early in life within small places across the world. This idea originates from the words of Eleanor Roosevelt, Chair of the Commission that drafted the Universal Declaration of Human Rights (UDHR): Where, after all, do universal human rights begin? In small places, close to home—so close and so small that they cannot be seen on any map of the world... Unless these rights have meaning there, they have little meaning anywhere. Herein, literacy is viewed as a life-long social process. Literacy includes reading, writing, and new literacies that are evolving along with new technologies. The book includes an examination of the evolution of literacy as a human right from 1948, the time of the writing of the UDHR, to the present. Barriers to the realization of literacy as a human right, including the pedagogy of poverty and pathologizing the language of poor children, are explored. The book also describes theory, research and practices that can serve to dismantle these barriers. It includes research about brain development, language and literacy development from birth to the age of six, and examples of practices and community initiatives that honor, support, and build upon children's language and literacy./div

Robert M. Keating's story is America's story. Born in Springfield, Massachusetts, in 1862 to poor Irish immigrants, he was just 13 when his father died suddenly. A precocious boy with a knack for mechanics, Keating filed his first patent at 22, started his own

bicycle company at 28, and at 32 was producing one of the most innovative bicycle lines in the world in a state-of-the-art factory. Along the way he flirted with baseball, briefly playing in the major leagues and patenting the game's rubberized home plate. In early 1901 Keating developed and marketed a ground-breaking motorcycle before either Indian or Harley-Davidson, and later successfully sued both companies for patent infringement. His company also manufactured automobiles beginning in 1898, producing both electric and gasoline powered vehicles. At the time of his death at 59, Keating held 49 patents--everything from bicycle and motorcycle designs to lunch-chairs to a modern flushing device for toilets. This book tells the story of Keating and his Keating Wheel Company, a Gilded Age story of unbridled inventiveness that encapsulates America's transformation into a society that would forever move on wheels.

A thrillingly original exploration of a life lived under poetry's uniquely seductive spell "Oh! there are spirits of the air," wrote Percy Bysshe Shelley. In this stunningly original book Maureen N. McLane channels the spirits and voices that make up the music in one poet's mind. Weaving criticism and memoir, *My Poets* explores a life reading and a life read. McLane invokes in *My Poets* not necessarily the best poets, nor the most important poets (whoever these might be), but those writers who, in possessing her, made her. "I am marking here what most marked me," she writes. Ranging from Chaucer to H.D. to William Carlos Williams to Louise Glück to Shelley (among others), McLane tracks the "growth of a poet's mind," as Wordsworth put it in *The Prelude*. In a poetical prose both probing and incantatory, McLane has written a radical book of experimental criticism. Susan Sontag called for an "erotics of interpretation": this is it. Part Bildung, part dithyramb, part exegesis, *My Poets* extends an implicit invitation to you, dear reader, to consider who your "my poets," or "my novelists," or "my filmmakers," or "my pop stars," might be.

Based on a treasure trove of newly discovered information, General Henry Lockwood of Delaware: Shipmate of Melville, Co-builder of the Naval Academy, Civil War Commander offers the first comparative study of Lockwood's seminal influence on the emergence of the U.S. Naval Academy. Colonel Matthews shines new light on the Civil War commander, with a description of Lockwood's duties during the Seminole Indian War, an analysis of Melville's depiction of Professor Lockwood, a critical discussion of Alfred Thayer Mahan's depiction of Lockwood, and a tactical reconstruction of Commodore Jones's seizure of Monterey. Matthews inverts Lockwood's unjust historical reputation by offering a comprehensive defense of Lockwood's actions at Cold Harbor and an unblinking exposé of the reprehensible conduct of corps commander Governor Warren in relieving him.
