The Lily of the Field and the Bird of the Air Cambridge University Press

This provocative addition to The Church and Postmodern Culture series offers a lively rereading of Charles Sheldon's In His Steps as a constructive way forward. John D. Caputo introduces the notion of why the church needs deconstruction, positively defines deconstruction's role in renewal, deconstructs idols of the church, and imagines the future of the church in addressing the practical implications of this for the church's life through liturgy, worship, preaching, and teaching. Students of philosophy, theology, religion, and ministry, as well as others interested in engaging postmodernism and the emerging church phenomenon, will welcome this provocative, non-technical work.

“Far more than a conventional novel. It is a meditation on life, on the erotic, on the nature of men and women and love . . . full of telling details, truths large and small, to which just about every reader will respond.” — People In The Unbearable Lightness of Being, Milan Kundera tells the story of two couples, a young woman in love with a man torn between his love for her and his incorrigible womanizing, and one of his mistresses and her humbly faithful lover. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence, we feel "the unbearable lightness of being" not only as the consequence of our pristine actions but also in the public sphere, and the two inevitably intertwine. This magnificent novel is a story of passion and politics, infidelity and ideas, and encompasses the extremes of comedy and tragedy, illuminating all aspects of human existence.

The Faith of a Heretic Baker Academic

A beautifully illustrated collection of Gloria Steinem's most inspirational and outrageous quotes, with an introduction and essays by the feminist activist herself "A fearless book full of passion, resolute perspective, and unbiased hope for the future."—Janelle Monáe For decades—and especially now, in these times of crisis—people around the world have found guidance, humor, and unity in Gloria Steinem's gift for creating quotes that offer hope and inspire action. From her early days as a journalist and feminist activist, Steinem's words have helped generations to empower themselves and work together. Covering topics from relationships ("Many are looking for the right person. Too few are trying to be the right person.") to the patriarchy ("Men are liked better when they win. Women are liked better when they lose. This is how the patriarchy is enforced every day.") and activism ("Revolutions, like trees, grow from the bottom up."), this is the definitive collection of Steinem's words on what matters most. Steinem sees quotes as "the poetry of everyday life," so she also has included a few favorites from friends, including bell hooks, Flo Kennedy, and Michelle Obama, in this book that will make you want to laugh, march, and create some quotes of your own. In fact, at the end of the book, there's a special space for readers to add their own quotes and others they've found inspiring. The Truth Will Set You Free, But First It Will Piss You Off! is both timeless and timely. It is a gift of hope from Steinem to readers, and a book to share with friends.

Originally published in 1959, *The Faith of a Heretic* is the most personal statement of the beliefs of Nietzsche biographer and translator Walter Kaufmann. A first-rate philosopher in his own right, Kaufmann here provides the fullest account of his views on religion. Although he considered himself a heretic, he was not immune to the wellsprings and impulses from which religion originates, declaring it among the most vital and radical expressions of the human mind. Beginning with an autobiographical prologue that traces his evolution from religious believer to "heretic," the book touches on theology, organized religion, morality, suffering, and death—all examined from the perspective of a "quest for honesty." Kaufmann also subjects philosophy's faith in truth, reason, and absolute morality to the same heretical treatment. The resulting exploration of the faiths of a nonbeliever in a secular age is as fresh and challenging as when it was first published. In a new foreword, Stanley Corngold vividly describes the intellectual and biographical milieu of Kaufmann's provocative book.

Kierkegaard's Writings, VII, Volume 7 W. W. Norton & Company Obedience. Self-restraint Endurance. Silence. . . These are the duties of a Highborn lady, and like the veils, masks and tight-fitting underskirts female Kencyr students are obliged to wear, Jame finds them damnably constricting. Sent here by her brother Torisen, Highlord of the Kencyrath, she has tried valiantly to fit in, but the unruly girl can't help throwing the quiet Women's Halls into an uproar. It's not entirely Jame's fault, though. While Tori's vain and vicious consort treats her like an underling, the Kencyr Matriarchs, determined to winnow out her secrets, scheme to use her to their own advantage. And her own brother wants nothing to do with her. On top of this, Shadow Guild assassins have come hunting her, eager to fulfill a long-held contract to dispose of the last of the powerful Knorth clan. It's no wonder that Jame

decamps. In the company of her telepathic hunting cat, Jorin, a runaway priestling named Kindrie, and a chance-met squad of cadets, she sets out to rescue a friend from a cruel and ambitious Kencyr lord who seeks the deadly Book Bound in Pale Leather. Dodging ghostwalkers and shadow assassins, riding weirdingstorms and peripatetic trees, Jame discovers that her life is tangled up in a much larger purpose. For the war against Perimal Darkling cannot resume until three terrible objects of power, and the avatars who will wield them, appear. And she just might be one of them. . . . The long-sought third book in P.C. Hodgell's intricate and engaging fantasy series follows the warrior-magician Jame as she battles enemies both in and out of the Women's Halls at Gothregor. Casanovas: where are those great romancers of women? In *Swoon*, Betsy Prioleau gives us a smart, entertaining study of ladies' men, demystifying their character, seductive secrets, and killer charm. Combining history, science, culture, and colorful contemporary research, Prioleau gives us a portrait of the successful seducer that explodes every stereotype and shatters every cliché. Instead of a satanic rake, slick player, or rich, handsome powerbroker, he's an unlikely, often homely Romeo who cares about women and understands what they want. Through analyses of history's legendary lovers and interviews with today's heartthrobs, Prioleau uncovers the surprising seductive secrets that really rock female hearts, from unfeigned ardor to conversational flair. In doing so, she destroys the pick-up artists' advice of such books as *The Game*. Finally, Prioleau critiques the twenty-first-century sexual malaise, especially women's record discontent with men, and argues that it's high time to retrieve and celebrate the great seducer.

Spinoza's Theological-Political Treatise (1670) is one of the most important philosophical works of the early modern period. In it Spinoza discusses at length the historical circumstances of the composition and transmission of the Bible, demonstrating the fallibility of both its authors and its interpreters. He argues that free enquiry is not only consistent with the security and prosperity of a state but actually essential to them, and that such freedom flourishes best in a democratic and republican state in which individuals are left free while religious organizations are subordinated to the secular power. His Treatise has profoundly influenced the subsequent history of political thought, Enlightenment 'clandestine' or radical philosophy, Bible hermeneutics, and textual criticism more generally. It is presented here in a translation of great clarity and accuracy by Michael Silverthorne and Jonathan Israel, with a substantial historical and philosophical introduction by Jonathan Israel.

Winner of the Pulitzer prize in 1974 and the culmination of a life's work, *The Denial of Death* is Ernest Becker's brilliant and impassioned answer to the 'why' of human existence. In bold contrast to the predominant Freudian school of thought, Becker tackles the problem of the vital lie - man's refusal to acknowledge

his own mortality. The book argues that human civilisation is a defence against the knowledge that we are mortal beings. Becker states that humans live in both the physical world and a symbolic world of meaning, which is where our 'immortality project' resides. We create in order to become immortal - to become part of something we believe will last forever. In this way we hope to give our lives meaning. In *The Denial of Death*, Becker sheds new light on the nature of humanity and issues a call to life and its living that still resonates decades after it was written.

Stagnate as a 'creepy caterpillar' or transform into a 'beautiful butterfly'-this path-breaking book of a rare genre suggests-is the seminal choice before mankind, and every one of us. In this setting, the book raises some fundamental questions: What is man's rightful place in the cosmos and his manifest destiny on earth? Why are we so self-righteously self-destructive? Are we a doomed species? Or 'divine' beings struggling to overcome the hubris of the human intellect? Is God getting weary of mankind? How should we synergize human effort and Divine Grace? The book posits that any betterment in human behavior needs a cathartic change at the deepest levels. That requires diluting the dominance of the mind and reawakening the long-dormant intelligence of the human heart. To meet that challenge, we need minimum numbers, a 'critical mass' to create self-sustained momentum for transformation through consciousness change. And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference. The book offers a menu of ideas and an agenda of action. This book could be itself become an input to mobilize that very 'critical mass' it advocates for human transformation. Well-planned and cohesively written, the book is noteworthy for its delightful blend of information and arguments, and reveals the depth of the author's understanding of the human predicament... This is a closely argued and thought-provoking book... The Hindu, 13 Sept 2011 [This book] is a gripping exposition on human nature and self-transformation without preference to religion... Challa has critically provided a foundational argument for a deeper discussion of philosophical

and practical ideals concerning self-transformation... harmonizing the head and the heart is the way for humans to function as spiritual beings. Recommended by the USR. The US Review of Books [The author] reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness. The strength of this treatise is the sweep of Challa's reach and his treatment of a vastly complex set of issues that bedevil humankind today... India International Center Quarterly, Summer 2012 As a thinker and erudite scholar, [the author] has made a profound study of the world situation and the moral decadence of man... [This book] deserves to be on the shelves of university, college and public libraries... Triveni Magazine, July-Sept 2011 It is difficult to pigeon-hole this book as... a 'prophetic discourse', a 'journey into the human mind', a 'guide for human survival', a 'spiritual treatise'. It is an amalgam of all these and more... the volume reaches out to those who are already uneasy about the way we on this earth are progressing. The Book Review, India, June 2013

Famous motion picture actress Mary Pickford wrote her inspirational self-help manual "Why Not Try God?" in 1934, with the aid of her collaborator Adela Rogers St. Johns. For nearly eighty years its thoughtful approach toward spirituality has encouraged and inspired her audience. Pickford's positive approach gives anyone, believer or non-believer, a rationale on which to build faith, and a path to understanding the difficulties we face in life. It contains her most famous quote: "...this thing that we call "failure" is not the falling down, but the staying down," along with her prescription for how to pull yourself back up again for a new beginning. Pickford starts her story with her own youthful rebellion against a God whom she thought unjust, after the death of a childhood friend. She continues with her own turnabout as an adult, including stories of people who have inspired her and the thoughts of scientists and philosophers in whose statements on religion she has found meaning and understanding. "Why Not Try God?" is ultimately a cheerful work, a short, effective essay on why we should believe, and how such belief can become a positive influence that will help us meet our daily challenges and affect our lives and the lives of those around us for the better. This new edition, simply and elegantly set, contains a new "Afterword" by film scholar and educator Anke Brouwers. Dr. Brouwers reveals the reasons that caused Mary Pickford to write "Why Not Try God?" and gives us a context for understanding her work that will of interest both to fans of the actress and to the general public.

Upbuilding or edification, is the central theme of Soren Kierkegaard's authorship: only the truth that builds up is truth for you (E02:354). Somewhere along the way, Soren Kierkegaard developed a plan to publish some upbuilding discourses to 'accompany his pseudonymous works. These Eighteen Upbuilding Discourses are the focus of the edifying commentaries in this volume.

"One of Soren Kierkegaard's most important writings, *Works of Love* is a profound examination of the human heart, in which the great philosopher conducts the reader into the inmost secrets of Love. "Deep within every man," Kierkegaard writes, "there lies the dread of being alone in the world, forgotten by God, overlooked among the household of millions upon millions." Love, for Kierkegaard, is one of the central aspects of existence; it saves us from isolation and unites us with one another and with God. This new edition of *Works of Love* features an original foreword by Kierkegaard scholar George Pattison."

Choice Essential Read Did God create man or did man create God? In this book, Dianna Kenny examines religious belief through a variety of perspectives - psychoanalytic, cognitive, neuropsychological, sociological, historical and psychiatric - to provide a coherent account of why people might believe in God. She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences. Freud argued that religion

is so compelling because it solves the problems of our existence. It explains the origin of the universe, offers solace and protection from evil, and provides a blueprint about how we should live our lives, with just rewards for the righteous and due punishments for sinners and transgressors. Science, on the other hand, offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race. Is religion a form of wish-fulfilment, a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology? Can there be morality without faith? Are science and religion radically incompatible? What are the roots of fundamentalism and terror theology? These are some of the questions addressed in *God, Freud and Religion*, a book that will be of interest to psychoanalysts, psychologists and psychotherapists, students of psychology, psychoanalysis, philosophy and theology and all those with an interest in religion and human behaviour. Dianna Kenny is Professor of Psychology at the University of Sydney, Australia. She is the author of over 200 publications, including six books.

Three Discourses on Imagined Occasions was the last of seven works signed by Kierkegaard and published simultaneously with an anonymously authored companion piece. Imagined Occasions both complements and stands in contrast to Kierkegaard's pseudonymously published *Stages on Life's Way*. The two volumes not only have a chronological relation but treat some of the same distinct themes. The first of the three discourses, "On the Occasion of a Confession," centers on stillness, wonder, and one's search for God--in contrast to the speechmaking on erotic love in "In Vino Veritas," part one of *Stages*. The second discourse, "On the Occasion of a Wedding," complements the second part of *Stages*, in which Judge William delivers a panegyric on marriage. The third discourse, "At a Graveside," sharpens the ethical and religious earnestness implicit in *Stages's* "Guilty"/"Not Guilty" and completes this collection.

This volume contains a new translation, with a historical introduction by the translators, of two works written under the pseudonym Johannes Climacus. Through Climacus, Kierkegaard contrasts the paradoxes of Christianity with Greek and modern philosophical thinking. In *Philosophical Fragments* he begins with Greek Platonic philosophy, exploring the implications of venturing beyond the Socratic understanding of truth acquired through recollection to the Christian experience of acquiring truth through grace. Published in 1844 and not originally planned to appear under the pseudonym Climacus, the book varies in tone and substance from the other works so attributed, but it is dialectically related to them, as well as to the other pseudonymous writings. The central issue of Johannes Climacus is doubt. Probably written between November 1842 and April 1843 but unfinished and published only posthumously, this book was described by Kierkegaard as an attack on modern speculative philosophy by "means of the melancholy irony, which did not consist in any single utterance on the part of Johannes Climacus but in his whole life. . . . Johannes does what we are told to do--he actually doubts everything--he suffers through all the pain of doing that, becomes cunning, almost acquires a bad conscience. When he has gone as far in that direction as he can go and wants to come back, he cannot do so. . . . Now he despairs, his life is wasted, his youth is spent in these deliberations. Life does not acquire any meaning for him, and all this is the fault of philosophy." A note by Kierkegaard suggests how he might have finished the work: "Doubt is conquered not by the system but by faith, just as it is faith that has brought doubt into the world!."
