 In the Blink of an Eye is award-winning author Jesse Blackadder's deeply emotional drama that explores a family's path to forgiveness and redemption in the aftermath of a tragedy. The Brennans—parents, Finn and Bridget, and their sons, Jarrah and Toby—have made a sea change, from chilly Hobart, Tasmania, to subtropical Murwillumbah, New South Wales. Feeling like foreigners in this land of sun and surf, they're still adjusting to work, school, and life in a sprawling purple clapboard house, when one morning, tragedy strikes. In the devastating aftermath, the questions fly. What really happened? And who's to blame? Determined to protect his family, Finn finds himself under the police and media spotlight. Guilty and enraged, Bridget spends nights hunting answers in the last place imaginable. Jarrah—his innocence lost—faces a sudden and frightening adulthood where nothing is certain. In the Blink of an Eye is a haunting, redemptive story about forgiveness and hope.

Like the sinking of the Titanic, the crash of TWA Flight 800 just off Long Island, New York, in the early evening of July 17, 1996, captured the world's imagination. Associated Press reporter Pat Milton has covered the story from day one and was granted unprecedented access to the FBI investigation--the largest and most complex in the agency's history. Initially suspecting that a crime had been committed, James Kallstrom, the head of the FBI's New York office, led the two-year investigation from the start. In the Blink of an Eye offers a rare look at the efforts of several government agencies--which often had different missions--to find the truth about the most mysterious and disturbing disaster in aviation history. Commercial jets don't just fall out of the sky. So what happened? Was TWA's Flight 800 the first plane to be downed by enemy action within the United States? On the night of the crash, President Clinton told his national security advisors to ready a plan to retaliate if the destruction of Flight 800 proved to be a state-sponsored terrorist attack. If a bomb or missile had caused the disaster, Kallstrom was determined to find the perpetrators before they struck again. If it wasn't either of these, he was no less determined to preclude the sort of conspiracy theorizing that followed the Warren Commission report on the assassination of JFK. As Kallstrom and his agents tried to piece together the sequence of events that preceded the explosion of Flight 800's center

fuel tank, the victims' families also had to come to terms with the tragedy. Their anguish was as much on Kallstrom's mind as the details of the mystery itself. In this vivid account, Pat Milton takes us inside the homes and lives of the victims' families as well as inside the investigation, and as close to the real cause of the crash as we'll ever come.

There was one lap to go in the 2001 Daytona 500, NASCAR's most celebrated event. Michael Waltrip and Dale Earnhardt Jr. were running one-two. Junior's legendary dad, the driver race fans called "The Intimidator," was close behind in third, blocking anyone who might try to pass. Waltrip couldn't stop thinking about all the times he'd struggled to stay ahead--and the 462 NASCAR Cup races he'd lost without a single win. He'd been a race-car driver all his adult life, following in the footsteps of his brother Darrell, a three-time NASCAR champion. And his losing streak was getting more painful every race. But this day, he knew, could be different. He was driving for Dale Earnhardt now, racing as a team with his close friend and mentor. Yet as his car roared toward the finish line, ending that losing streak once and for all, Waltrip had no clue that the greatest triumph of his life could get mired in terrible tragedy. This is the story of that fateful afternoon in Daytona, a day whose echoes are still heard today. But the story begins years earlier in a small town in Kentucky, with a boy who dreamed of racing cars, a boy who was determined to go from go-karts to the highest levels of NASCAR. For the first time ever, Michael Waltrip tells the full, revealing story of how he got to Daytona, what happened there, and the huge impact it had on so many in the racing world. He reveals for the first time how his own life changed as he dealt with guilt, faced his grief, and searched for the fortitude to climb into a race car again. It's an inspiring and powerful story, told with Michael's trademark humor, honesty, and irreverence. It's a story of family, fulfillment, and redemption--and well-earned victory in the end.

'Who better to write about RSDS than one who has lived through it for twenty-five years, enduring all that encompasses that world, yet never losing the joy of living, loving, and giving. I have been blessed to be a witness to her story of perseverance in pain, patience with provider care, and her glue of laughter and faith that helps her keep it together when it is all coming apart.' From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant—in the blink of an eye—that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work—in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of "blink": the election of Warren Harding; "New Coke"; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of "thin-slicing"—filtering the very few factors that matter from an overwhelming number of variables.

"A highly personal, deeply affecting account of what it is to be yanked from a happy, well-ordered life and thrust into a sudden, unimaginable, terrifying darkness. Rikke Schmidt Kjærgaard has done the impossible of putting into words an experience that would seem to be beyond expressing."—from the foreword by Bill Bryson *It was New Year's Day*. Rikke Schmidt Kjærgaard, a young mother and scientist, was celebrating with family and friends when she was struck down with a sudden fever. Within hours, she'd suffered multiple organ failure and was clinically dead. Then, brought back to the edge of life—trapped in a near-death coma—she was given a 5 percent chance of survival. She awoke to find herself completely paralyzed, with blinking as her sole means of communicating with the outside world. *The Blink of an Eye* is Rikke's gripping account of being locked inside her own body, and what it took to painstakingly relearn every basic life skill—from breathing and swallowing, speaking and walking, to truly living again. Much more than an account of recovery against all odds—this is, at its heart, a celebration of love, family, and every little thing that

matters when life hangs in the balance.

One man's battle to get his life back after locked-in stroke left him totally paralysed. Peter Coghlan is an ordinary bloke whose life is transformed, for the second time, after a knock to the head. So begins an extraordinary story of recovery. Peter takes the reader on a journey that will appeal to those who can relate to Peter's circumstances as well as those wanting to understand what it means

to be 'Locked-in', what it takes to break free and how to build a new life. A story told in two parts, it is (at times) uncomfortable, drawing the reader into a reality where what happens is not in his control; but Peter's easy dialogue, honesty and irrepressible humour make that journey very well worth taking with him. Be prepared to laugh, cringe and cry. His story offers some answers, but also raises many questions about the obstacles to overcome and what 'success' can look and feel like, as well as shining a light on how society can view people with disabilities. Despite many setbacks and difficulties, at the heart of this story is an acknowledgement of the sacrifices he and others made, with a deep appreciation of the love, care and professionalism shown by those helping him along the way to becoming Peter Coghlan - reborn.

For rural England, the 1950s and 1960s was a time of dramatic transition and change as we moved from wartime austerity with the radio and the local cinema as our entertainment, into the age of TV and the motor car. Social changes and changes in attitudes to sex, religion and the class system were also to have a major impact on rural life. This book attempts to capture this time of change as it affected the small hamlet of Fawler in North Oxfordshire, and to record for posterity a way of life now largely lost. It deals, sometime frankly, but sensitively with life as experience by the author with extensive contributions by his sister from her unpublished memoir of childhood.

In the Blink of an Eye The Experiment

This is the autobiography of Michael D. Virkaitis's ("Mike Vee") life up to now. It was fun for him to

tell friends and family some of the experiences that happened to him that were usually amusing and other times sad. He could talk about his experiences for hours upon hours. His listeners kept saying to him, "You should write a book." After thinking about it for years, he said, "Awh, what the hell, I'll do it." It's been well over seven years now since he started writing, and it certainly was not easy; however, recalling some of the good times made it well worthwhile. He got the name *In the Blink of an Eye* because in recent years, time has raced past him and has been nothing but a blur. So much has happened, but for some reason, most of these last twenty or so years have not been computed and stored within him. It surely was a blur. Why did it pass so fast? What did he miss? He really wishes there were do-overs. Mike was a successful high-ticket-item technical salesman. He had tried and true methods. In this book, he reveals some of the strategies that made him successful and trusted. His name and reputation is still highly respected in the industry he worked in. Mike's methods of attaining success could be a guide for those of you beginning your climb up the ladder and memories to those of you who passed this way. Mike's philosophy was focus on what's ahead and where you are going. The past is something you cannot change. Live with it. It surely is part of the building blocks that will help you succeed. Always remember his favorite proverb: "You are not judged by how many times you fell, you are remembered by how many times you got back up."
