**ANTI-BIAS EDUCATION FOR YOUNG
CHILDREN AND OURSELVES**

Wadsworth Publishing Company

Crystal-clear and comprehensive yet concise, this text describes the steps involved in the curriculum design process, elaborates and justifies these steps, and provides opportunities for practicing and applying them. The description of the steps is done at a general level so that they can be applied in a wide range of particular

circumstances. The process comes to life through plentiful examples of actual applications of the steps. Each chapter includes: examples from the authors' experience and from published research tasks that encourage readers to relate the steps to their own experience case studies and suggestions for further reading that put readers in touch with others' experience Curriculum, or course, design is largely a 'how-to-do-it' activity that involves the integration of knowledge from many of the areas in the field of Applied Linguistics, such as language acquisition research, teaching methodology, assessment, language description, and materials production. Combining sound research/theory with state-of-the-art practice, Language Curriculum Design is widely applicable

for ESL/EFL language education courses around the world.

Dance Teaching Methods and Curriculum Design National Academies Press

This book was written to help you, a student studying to be an early childhood teacher, develop knowledge of curriculum and an understanding about what makes learning experiences meaningful for young children. The book's focus is on curriculum for children in the preschool and kindergarten years, though much is valid for both children in the primary grades and toddlers.

CURRICULUM LEADERSHIP

John Wiley & Sons

This resource shows educators how to establish dynamic curriculum leadership and develop a curriculum that will

transform an ordinary school into a school of excellence.

Curriculum Development in Language Teaching Curriculum Development and Design

Intentional teaching begins with focused observations and systematic documentation of children's learning and development. This book is filled with tools and techniques designed to help early childhood educators purposefully observe children, create portfolios with rich documentation, and plan curriculum that supports every child. Discussion questions, observation practice exercises, and reflection assignments are included, as well as DVD with classroom vignettes showcasing observation techniques. Gaye Gronlund is an early childhood education

consultant who trains early childhood educators across the country. Marlyn James is an education and early childhood professor.

Transforming the Workforce for Children Birth Through Age 8 Actfl

This book reflects an exceptional collection of articles, literature reviews and research finding primarily linked to curriculum and material development activities. The book covers various aspects from the theoretical frameworks and research findings that govern curriculum and material development processes to actual classroom practices that incorporated learners' needs and contexts. Articles and research findings selected and presented in this book are primarily based on practicing school teachers' interest. In addition to its wide

coverage in terms of topics and contents, the book authors and contributors are from both local and abroad. This is intended for university students, curriculum planners, teachers, school administrators and teacher trainers that serve as guide for courses in language material design and curriculum and instruction.

Reflecting Children's Lives CreateSpace Creating an innovative and successful curriculum Curriculum Leadership: Strategies for Development and Implementation, Fourth Edition is a one-of-a-kind resource written for educational leaders--administrators and teachers--who want to successfully restructure and enhance school curriculum. Authors Allan A. Glatthorn, Floyd Boschee, Bruce M. Whitehead, and

Bonni F. Boschee provide innovative and successful curriculum ideas, including reflective case studies, “Keys to Leadership” sections, curriculum tips, and “Challenge” sections with key issues and questions in every chapter. Also interspersed throughout the book are tried and true strategies that provide administrators with innovative ideas on meeting state and national standards. This is a much needed, highly informative, and easy-to-read account of curriculum development and change for curriculum leaders, those teaching curriculum courses, and those aspiring to become curriculum decision makers. It provides the knowledge and skills needed to develop and implement a PK-12 school curriculum.

Reflecting Children's Lives Prufrock

Press

"This book, in its third edition, provides practitioners at local and state levels a guide to designing curriculum for the gifted at any level of learning and in any subject area. It addresses the need to differentiate at all levels in the design process, from goals through assessment, and shows how to customize curriculum for advanced learners. Using national standards, such as the Common Core State Standards and Next Generation Science Standards, as the point of departure for design, the authors demonstrate how the differentiation process works and provide products to illustrate its application to curriculum in math, science, social studies, and English language arts. Special needs gifted learners, such as those who are

twice-exceptional, second language learners, students from poverty, and minority students, are included as a group for further differentiation and customization of curriculum and instruction. The book may also be used to provide a curriculum guide for teachers in a master's program in gifted education or those taking endorsement classes"--

Curriculum Planning and Instructional Design for Gifted Learners Redleaf Press

"This is a detailed yet practical guide to planning, developing, and evaluating nursing curricula and educational programs. It provides a comprehensive and critical perspective on the totality of variables impacting curricular decisions...This book provides readers

with a comprehensive overview of curriculum development, redesign, and evaluation processes...92 - 4 Stars" -- Doody's Book Reviews Reorganized and updated to deliver practical guidelines for evidence-based curricular change and development, the fourth edition of this classic text highlights current research in nursing education as a springboard for graduate students and faculty in their quest for research projects, theses, dissertations, and scholarly activities. It also focuses on the specific sciences of nursing education and program evaluation as they pertain to nursing educators. New chapters address the role of faculty regarding curriculum development and approval processes in changing educational environments; course development

strategies for applying learning theories, educational taxonomies, and team-building; needs assessment and the frame factors model; ADN and BSN and pathways to higher degrees; and planning for doctoral education. The fourth edition continues to provide the detailed knowledge and practical applications necessary for new and experienced faculty to participate in essential components of the academic role—instruction, curriculum, and evaluation. At its core, the text discusses the importance of needs assessment and evidence as a basis for revising or developing new programs and highlights requisite resources and political support. With a focus on interdisciplinary collaboration, the book addresses the growth of simulation, how to help new

faculty transition into the academic role, and use of curriculum in both practice and academic settings. Additionally, the book describes the history and evolution of current nursing curricula and presents the theories, concepts, and tools necessary for curriculum development. Chapters include objectives, discussion points, learning activities, references, and a glossary. New to the Fourth Edition: Reorganized and updated to reflect recent evidence-based curricular changes and developments Highlights current research New chapter: Implementation of Curriculum – Course Development Strategies for the Application of Learning Theories, Educational Taxonomies, and Instruction Team-Building New chapter on Planning for Undergraduate Programs New

content on Needs Assessment and the Frame Factors Model New content on Planning for Doctoral Education in Nursing New content on curriculum evaluation, financial support, budget management, and use of evidence Key Features: Supports new faculty as they transition to academe Addresses the need for preparing more faculty educators as defined by IOM report, the ACA, and the Consensus Model Describes the scope of academic curriculum models at every practice and academic level Threads the concept of interdisciplinary collaboration in education throughout Serves as a CNE Certification Review *The Scope of Curriculum Study* Jones & Bartlett Publishers Dance Teaching Methods and Curriculum

Design, Second Edition, presents a comprehensive model that prepares students to teach dance in school and community settings. It offers 14 dance units and many tools to help students learn to design lesson plans and units and create their own dance portfolio
Language Curriculum Design and Socialisation Routledge

Presents a practical handbook to creating a child-centered curriculum and includes theme plans, assessment tools, resource lists, and practice sheets.

Curriculum Development and Teaching Theories (2nd Edition) Prentice Hall

The second edition of Early Childhood Curriculum provides a comprehensive and lively introduction to curriculum theories, approaches and issues in early childhood settings. Drawing on

contemporary research and case studies, the book employs a cultural-historical framework to illustrate a variety of approaches to early childhood education. In this new edition there is an up-to-date coverage of national curriculum documents, including the Early Years Framework and Te Whariki, a glossary of key terms and learning intentions at the beginning of each chapter. There is also an updated companion website at www.cambridge.edu.au/academic/earlychildhood. In each chapter, hypothetical transcripts and real-world examples help bring theory to life. The book explores specific domain areas, including science and mathematics; literacy and language; information and communication technology; the arts; and health and

well-being. Early Childhood Curriculum equips pre-service teachers with the practical skills and tools to promote young children's learning. It is an essential resource for pre-service teachers and practitioners alike.

Infants and Toddlers Cambridge University Press

This book brings together current research and theories about how infants grow and develop, and applies that information to their early care and education settings.

The Essentials of Teaching Health Education Corwin Press

Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care

and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they

work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and

learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

CURRICULUM DEVELOPMENT AND DESIGN

Springer Publishing Company

Anti-bias education begins with you!
Become a skilled anti-bias teacher with
this practical guidance to confronting
and eliminating barriers.

Curriculum Planning for Better School
Revised Ed. Corwin Press

This new edition of the classic text
extends the scope of critically-oriented
work in curriculum studies.

**Teaching Young Children, Preschool-
K** Routledge

The second edition of the current leading
nursing text in curriculum development
and evaluation continues to serve nurse
educators in academic settings as well
as in the practice arena. It is a practical
guide for developing, revising, and
evaluating nursing curricula and
educational programs, complete with
case studies and details on conducting a

needs assessment to determine the
extent of revision necessary within
current curricula. This text focuses on
evidence-based practice, safety and
quality assurance concepts, and the role
of creative and critical-thinking aspects.
It highlights NLN and AACN core
competencies in developing and
evaluating curricula in all levels of
nursing programs. Additionally, it
includes a comprehensive list of critical
evaluation and accreditation tips,
directions on how to prepare for an
accreditation visit, and two proposed
curricula for nurse educators to consider
adapting into educational materials. Key
features: Discusses the continuing
growth of technology and its application
in nursing programs Examines health
care reform legislation that is expected

to change the way care is delivered
 Contains updates on the continuing
 career-ladder and entry-level issues
 related to nursing Provides details on
 pedagogical methods, objectives,
 discussion points, learning activities, and
 references Includes a glossary of
 commonly used terms in curriculum
 development and evaluation This revised
 edition further examines several major
 objectives of the text, including major
 milestones for the past 100 years in the
 American nursing education system,
 program review and accreditation
 processes, and evaluating current trends
 in nursing education and their role in
 curriculum development.

The Second Language Curriculum

Human Kinetics

This book, the second in the

Perspectives on Higher Education series,
 brings together a number of insights into
 a key area of higher education:
 curriculum planning, design, and
 implementation. This book is designed to
 provide educators with the knowledge
 and skills needed to design, develop,
 and evaluate university curricula,
 programmes, and courses. It is aimed at
 those involved in programme
 development and delivery at many
 levels, from the most experienced
 administrator or senior professor
 through to the new teacher. In this
 manner, beginning from the initial steps
 of curriculum design all the way through
 to quality assurance and how to evaluate
 whether your curriculum has met its
 intended aims, this book is intended to
 be a short and easy-to-reference guide

for educators at all levels.

Curriculum Development in Language Teaching Springer Publishing Company

Consider new possibilities in documentation, observing, and activities when planning child-centered curriculum with this updated handbook.

Language Curriculum Design Springer Publishing Company

This book applies social theory to curriculum design and sets out a program for language curriculum renewal for the 21st century. It includes many examples of text-based curricula and describes a plan for curriculum renewal based on texts as the unit of analysis for planning, for teaching and for assessment. Underpinned by Halliday's semiotic theory of language, the book combines the theory of

language as a resource for meaning-making with learning language as learning to mean. The curriculum design constructs curriculum around social practices and their texts rather than presenting language as grammatical and lexical objects. This work will provide teachers, teacher educators and curriculum planners with a curriculum model for teaching children and adults in different contexts from preschool to adult education as well as serving as a practical guide for students.

Curriculum, The Rex Bookstore, Inc. Issues of language curriculum development underlied the planning and implementation of language teaching programmes. These papers argue for the process to be made explicit and deal with curriculum planning, specification of

ends and means, programme

implementation and classroom
implementation.
