Harry Stout's groundbreaking study of preaching in colonial New England changed the field when it first appeared in 1986. Here, twenty-five years later, is a reissue of Stout's book: a reconstruction of the full import of the colonial sermon as a multi-faceted institution that served both religious and political purposes and explained history and society to the New England Puritans for one and a half centuries.

The Rhetoric of the Pulpit treats the sermon as the single most important factor in evangelism for a parish, and also the most important factor in the spiritual growth of both the congregation and the pastor. With emphasis on the Word as the foundation, the author adds music and liturgy to the sermon's structure to build a unified worship experience. Recognizing that the Word is truth, but that the truth needs to be made to seem true, the book offers sound, practical advice on sermon preparation based on both classical and contemporary communication theory. Sermon preparation is viewed as a process that begins with downloading the Word, followed by productive meditation. The process then moves through the rhetorical steps, from a search for content to the sermon's delivery. Throughout the book, the rhetorical principles are treated as a subordinate element to the Word, a means of giving effectiveness to the truth. The Rhetoric of the Pulpit aims to reflect the spirit of Aristotle, St. Augustine, St. Paul, and Kenneth Burke.

A man who's been transformed by Christ and desires to preach the gospel might say he feels called to be a pastor. This personal conviction, while heartfelt, doesn't acknowledge important, challenging steps necessary to be a qualified leader. So where should full-time ministry begin? In *The Path to Being a Pastor*, Bobby Jamieson explains why it's better to emphasize "aspiration" over "calling" as men pursue the office of elder and encourages readers to make sure they are pastorally gifted before considering the role. He shares from his own eleven-year experience preparing to be a pastor by walking potential leaders through different stages of ministry training, from practical steps—such as cultivating godly ambition and leadership, observing healthy churches, and mastering Scripture—to personal advice on building a strong family and succeeding in seminary. Emphasizing the importance of prayer, godly counsel, and immersion in the local church, Jamieson encourages men to ask Am I qualified? instead of Am I called? when considering a life in ministry.

The Path to Being a Pastor Lulu.com

There's a seemingly innocuous villain that is taking up residence in the pulpits of countless churches, disrupting the connection between the pastor and the people and keeping the proclamation of God's word from having its full effect. That villain is the preacher's notes. Preachers know this all too well. Many wish that they could "preach by heart" without the aid of notes, but are unsure how to do so--and are left feeling frustrated and discouraged by the presence of that disruptive interloper. Author Ryan Tinetti shares an unexpected solution in the form of an ancient and time-tested practice known as the method of loci, or Memory Palace. Surveying portions of classical rhetoric that are especially relevant for contemporary preachers and diving deep into the theory and practice of the Memory Palace, *Preaching by Heart* plunders these ancient treasures that have been so formative for preachers through the ages but too oft neglected in our own time. When pastors preach by heart, they find greater satisfaction in the homiletic task and their proclamation is even more effective. *Preaching by Heart* shows how to pitch the notes and reach that goal.
