Don Newman's first volume of Savannah centric poetry reflects the close personal relationship between poet and subject often found in work dedicated to a particular place. Such intimate subjectivity may seem lofty at times. But this Savannah native has a way of bringing grandiose notions of his hometown down to earth. Here, the author's regional sensibilities-together with his stretch toward the universal-offer the reader a unique perspective and a tour of Savannah unattainable during a typical day of sightseeing. While by no means a comprehensive poetic look at the city, Newman's Little Poetry Book of Savannah will surely augment the traveler's backpack, give visitors a distinctive literary keepsake, and make the perfect gift for those back home who would like an authentic little piece of Savannah.Meditative, descriptive, fun, quirky, and enjoyably honest, Newman bares parts of his soul in this down-to-earth, head-in-the-clouds "poetry for everyone."For a slightly smaller, less expensive Black & White Edition go here: <https://wwwcreatespace.com/3909405>

Time passes and yet it doesn't pass; people come and go, the mountains remain. Mountains are permanent things. They are stubborn, they refuse to move...no matter how hard they try, humans cannot actually get rid of the mountains. That's what I like about them; they are here to stay. Mountains-

snow-capped, green and filled with stories. For decades, Ruskin Bond has lived among them and his writings abound in descriptions of these hills-of life as it is lived here, of animals and birds who sometimes even wander into his room, of the many interesting and eccentric characters who he has met here. From having his roof fly off in a freak storm to becoming the 'writer on the hill', Bond has seen it all. Funny, elegiac and filled with beautiful descriptions of people, animals and places, this collection is for every mountain and nature lover.

Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the

way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. Tom Daniels grew up in a mixed, working-class neighborhood on Detroit's east side. Both men grew up in strict households where they "always got what we needed, and sometimes what we wanted" and both saw their city, their country, and their world transform around them through the Civil Rights movement, riots, and the Viet Nam War. But sometimes parallel lines intersect. As each man tells his story, it is apparent that race isn't just "black and white" but it is part of what makes their friendship extraordinary. Their experiences will show you that race made for huge differences in their experiences, while, in spite of race, there are also touching similarities that made it possible for two men, in their older years, to overcome decades of racial turbulence of their upbringing to become lifelong friends. Follow Tom and Cookie. Hear about their lives, their upbringing, their successes and regrets growing up in black and white Detroit - and how when it boils down to it, the things that are truly important are actually black and white, like you and me.

Michael Dante played the title role in *Winterhawk* (1975), a Western about a legendary Blackfoot Chief's character and his principles. In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. *Winterhawk* and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as *Death Valley Days*, *The Big Valley*, *Daniel Boone*, *Custer*, *The Texan*, *Bonanza*, *Maverick*, and *Cheyenne*.

Old Path White Clouds presents the life and teachings of Gautama Buddha. Drawn directly from 24 Pali, Sanskrit, and Chinese sources, and retold by Thich Nhat Hanh in his inimitably beautiful style, this book traces the Buddha's life slowly and gently over the course of 80 years, partly through the eyes of Svasti, the buffalo boy, and partly through the yes of the Buddha himself. Old Path White Clouds is destined to become a classic of religious literature. "I have not avoided including the various difficulties the Buddha encountered, both from his own disciples and in relation to the wider society. If the Buddha appears in this book as a man close to us, it is partly due to recounting such difficulties." - from the author's Afterword.

DIVINE VENGEANCE

For millennia, humanity has wondered, "Who are we and where did we come from?" Religions tell us we are flawed, limited, even evil. They promise reward or retribution for believing the right things about the right God and keeping our faces down and our knees bowed. Billions unquestioningly obey. Science skeptically scoffs at these old myths. It has reduced the entire universe - and humanity along with it - to a mathematical and

mechanistic accident. Billions consider themselves too smart, too educated to believe in crazy old myths or to see any reality beyond the natural world. Are either of these explanations satisfying or complete? Are we just atoms bumping into other atoms or souls to be saved by the decree of ancient Gods? White House correspondent Maria Love had never considered such questions. Suddenly and unexpectedly, she finds herself thrown into a world where everything we've been told turns out to be wrong. Now, with the help of a member of the Anunnaki elite, she tries to reveal history's greatest deception as the fate of Earth and Nibiru hangs in the balance.

The best revolution, and the domain of the Zen adept, is an inner one. The Zen Revolution reads like a novel, each compelling chapter revealing another nuance -- the whole gamut, from origin to fiery culmination. Delving into both the spiritual and worldly aspects with equal candor, The Zen Revolution takes on the basic question of existence, perhaps the most important question we face. There's a new adventure in every chapter, leading to an eventual breakthrough -- something nearly unheard of in the Zen literature of the West

WINTERHAWK'S LAND

The Way of the White Clouds

Chinese people are known for being philosophical. A person doesn't necessarily have to be religious in order to be philosophical. You just have to learn the best ways to live your life so that you can have a more prosperous future. A classic Chinese manual entitled "Tao Te Ching" teaches people the art of living and the path you must take in order to find fulfillment in your life. This classic Chinese text was written by a sage named Laozi, also known as Lao Tzu. Laozi means "Old Master" in Chinese. Some people like to refer to this classic Chinese text as Laozi instead of Tao Te Ching because they have so much respect for the author. The sage, Laozi, is believed to have lived around 600 B.C. In his professional life, he worked as a record keeper for the Zhou Dynasty Court. However, historians are still unsure about the exact date and time when the Tao Te Ching was actually written. The only thing they know is that the oldest Chinese texts that were excavated dates back to sometime in the late 4th century B.C. Even though they were originally written in the 6th century, the texts that were excavated in the 4th century are likely rewritten texts. The Tao Te Ching is one of the main Chinese classic texts that promote the religious and philosophical principles of Taoism. It is the most fundamental book of text that is studied by all Taoists. It is also a strong influence on other Chinese schools that teach Confucianism, Legalism and Chinese Buddhism. Chinese painters, poets, gardeners and calligraphers use the philosophies of the book as a source of inspiration. The influence of the Tao Te Ching has spread far throughout Eastern Asia and is one of the most translated books ever written in the history of literature. In Roman culture, the book was transcribed using the Wade-Giles Romanization system. They transcribed the title as "Daodejing." The words "Dao" and "Tao" both mean "the way." The words "De" and "Te" both mean inner strength or virtuosity. And finally, the words "Jing" and "Ching" mean "classic" or "the great book." Therefore, the translation of Tao Te Ching and Daodejing is said to be "The Classic Way to Inner Strength." In other words, if you learn the philosophies in this book then you will have the knowledge of finding the right path to strength and happiness. Tao Te Ching is not a long book to read by any means. It is only 5,000 Chinese characters long with about 81 very brief sections or chapters. The writing is of a classical form of Chinese called zhuanshu. As the centuries went by, the later versions were written in Lishu and Kaishu. As for the chapters, no one knows if the separated chapters were originally placed there by Laozi or if they were added later on. Some people think they were added later on as a way to help memorize the information and add commentary. The whole book is divided into two main parts. The first part is the Tao Ching, which goes from chapter 1 to chapter 37. The second part is the Te Ching, which goes from chapter 38 to chapter 81. Some even refer to this style of writing as laconic and poetic

because of its brief chapters and intentional contradictions. This writing is strategic in a sense because it creates memorable phrases and then forces the reader to create their own reconciliations from all the supposed contradictions. This is why it takes some people their entire lives to fully understand the message behind the text. For others, they never fully grasp it.
