Vietnam Government Printing Office
 This groundbreaking study offers a major reinterpretation of American strategy during the first half of the Vietnam War. Gregory A. Daddis argues senior military leaders developed a comprehensive campaign strategy, one not confined to 'attrition' of enemy forces. This innovative work is a must for a genuine understanding of the Vietnam War.

U.S. GROUND FORCES IN VIETNAM, 1963-1973

Little, Brown
 The Vietnam War chronicles the first war to be televised. The comprehensive description of battles, social and political issues, and revelations are all the more powerful because of first-hand accounts, telling photographs, and other primary sources. Students will learn the causes, outcomes, and repercussions of this polemic conflict through a historical lens and from the perspectives of soldiers, civilians, and others caught up in the Vietnam War.

Warfare on the Rivers and Canals of Vietnam Courier Corporation

In 1960 revolutionaries in South Viet Nam created the National Liberation Front, a political and military organization committed to overthrowing the Saigon government and liberating Viet Nam south of the seventeenth parallel. The role of the NLF during the war has been hotly debated, with officials in Washington claiming from the outset that the NLF was merely a puppet of Hanoi. Based on over a hundred interviews with former Communist cadre and high ranking Party officials as well as extensive archival research in Viet Nam, Robert K. Brigham's is a definitive work that provides a focus on the NLF not found elsewhere. It contributes greatly to our understanding of the Viet Nam War and encourages a reassessment of that conflict. Brigham assesses the impact of the NLF's diplomatic strategy on the conduct and outcome of hostilities, explores the origin and pursuit of its policy objectives, and defines its true relationship with North

Viet Nam. He contends that the NLF's success in convincing the world that it was independent of Hanoi was critical in upsetting the political and military balance in South Viet Nam and frustrating the U.S. war effort. In addition, he argues that differences in goals among Communists—building socialism in the north, liberating the south—resulted in disagreements over responses to American intervention, and he shows how these differences entered into foreign relations and seriously undermined revolutionary efforts.

Spearhead of Logistics is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military transportation and

movement for ongoing expeditionary operations. This text should be useful to both officers and noncommissioned officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

Patriots Neal Schuman Pub
Nelson Mandela was one of the most revered figures of our time. He committed himself to a compelling political cause, suffered a long prison sentence, and led his violent and divided country to a peaceful democratic transition. His legacy, however, is not uncontested: his decision to embark on an armed struggle in the 1960s, his solitary talks with apartheid officials in the 1980s, and the economic policies adopted during his presidency still spark intense debate, even after his death. The essays in this Companion, written by experts in history, anthropology, jurisprudence, cinema, literature, and visual studies, address these and other issues. They examine how Mandela became an icon during his lifetime and consider the meanings and uses of his internationally recognizable image. Their overarching concerns include Mandela's relation to 'tradition' and 'modernity', the impact of his most famous public performances, the oscillation between Africanist and non-racial positions in South Africa, and the politics of gender and national sentiment. The volume concludes with a meditation on Mandela's legacy in the twenty-first century and a detailed guide to further reading.

Will to Fight HarperCollins

Military personnel who have experience

in Afghanistan, Iraq, or Vietnam, as well as senior leaders and military historians alike, will find this book by Dr. Chris Mason thought-provoking and useful. Dr. Mason examines indigenous personnel issues at the tactical, operational, and strategic levels of war and uses empirical data and exhaustive research to argue that all three wars were lost before the first shots were fired-not on the battlefield, but at the strategic level of war. The United States interpreted all three conflicts as insurgencies, Mason writes, when in fact all three were civil wars in which the United States took a side. Success was never possible from the outset, his provocative thesis argues, because none of the three countries were nations for which the majority of their citizens were willing to fight and die. Nation-building is a slow, evolutionary, internal process through which the political identity of the peoples within a country's borders matures over centuries...

OPERATION IRAQI FREEDOM

Government Printing Office

From the Foreword: This volume focuses on that second and longer campaign. But rather than a narrative of the overall course of the conflict, it provides a soldier's-eye view of the war by focusing on detailed accounts of selected engagements. Each illustrates the everyday challenges that America's soldiers faced in a difficult struggle against an inventive and often elusive enemy. Weapons, doctrine, and procedures developed to fight a conventional campaign against a similar opposing force had to be adapted to fit a different type of conflict. The U.S. Army's combat and support forces brought both resourcefulness and resilience to this task while continuing to demonstrate the

same courage shown by previous generations fighting the nation's battles. These stories not only symbolize the tip of the spear formed by units in contact, but they also represent the contributions of all American men and women who have served their country in Operation Iraqi Freedom. Taken together, these accounts will provide our deploying leaders and soldiers a better understanding of the environment that they will encounter and prepare them for the work that must be done.

Why the Iraqi Resistance to the Coalition Invasion Was So Weak

Penguin

"THE MEN WHO SACRIFICED FOR THEIR COUNTRY ARE RIGHTFULLY HERALDED . . . This is an honest book—one well worth reading. . . . Stanton has laid his claim to the historian's ranks by providing his reader with well-documented, interpretive assessments." -Parameters
The Vietnam War remains deep in the nation's consciousness. It is vital that we know exactly what happened there—and who made it happen. This book provides a complete account of American Army ground combat forces—who they were, how they got to the battlefield, and what they did there. Year by year, battlefield by battlefield, the narrative follows the war in extraordinary, gripping detail. Over the course of the decade, the changes in fighting and in the combat troops themselves are described and documented. *The Rise and Fall of an American Army* represents the first total battlefield history of Army ground forces in the Vietnam War, containing much previously unreleased archival material. It re-creates the feel of battle with dramatic precision. "Stanton's writing . . . gives the reader a terrifying graphic description of combat in the many mini-environments of Vietnam." -The New

York Times "[A] MOVING, IMPORTANT BOOK." -St. Louis Post-Dispatch

Decisive War, Elusive Peace Lulu.com

An absorbing and definitive modern history of the Vietnam War from the acclaimed New York Times bestselling author of *The Secret War*. Vietnam became the Western world's most divisive modern conflict, precipitating a battlefield humiliation for France in 1954, then a vastly greater one for the United States in 1975. Max Hastings has spent the past three years interviewing scores of participants on both sides, as well as researching a multitude of American and Vietnamese documents and memoirs, to create an epic narrative of an epic struggle. He portrays the set pieces of Dienbienphu, the 1968 Tet offensive, the air blitz of North Vietnam, and also much less familiar miniatures such as the bloodbath at Daido, where a US Marine battalion was almost wiped out, together with extraordinary recollections of Ho Chi Minh's warriors. Here are the vivid realities of strife amid jungle and paddies that killed two million people. Many writers treat the war as a US tragedy, yet Hastings sees it as overwhelmingly that of the Vietnamese people, of whom forty died for every American. US blunders and atrocities were matched by those committed by their enemies. While all the world has seen the image of a screaming, naked girl seared by napalm, it forgets countless eviscerations, beheadings, and

murders carried out by the communists. The people of both former Vietnams paid a bitter price for the Northerners' victory in privation and oppression. Here is testimony from Vietcong guerrillas, Southern paratroopers, Saigon bargirls, and Hanoi students alongside that of infantrymen from South Dakota, Marines from North Carolina, and Huey pilots from Arkansas. No past volume has blended a political and military narrative of the entire conflict with heart-stopping personal experiences, in the fashion that Max Hastings' readers know so well. The author suggests that neither side deserved to win this struggle with so many lessons for the twenty-first century about the misuse of military might to confront intractable political and cultural challenges. He marshals testimony from warlords and peasants, statesmen and soldiers, to create an extraordinary record.

A HISTORY OF THE UNITED STATES ARMY TRANSPORTATION CORPS

Casemate Publishers

During the Vietnam War Bao Ninh served with the Glorious 27th Youth Brigade. Of the five hundred men who went to war with the brigade in 1969, he is one of only ten who survived. *The Sorrow of War* is his autobiographical novel. Kien works in a unit that recovers soldiers' corpses. Revisiting the sites of battles raises emotional ghosts for him and the memory of war scenes are juxtaposed with dreams and remembrances of his childhood sweetheart. *The Sorrow of War* burns the tragedy of war in our minds. *The Battle of Ap Bac* Cambridge University Press
This work describes riverine combat during the Vietnam War, emphasizing the operations of the U.S. Navy's River Patrol Force, which conducted Operation

Game Warden; the U.S. Army-Navy Mobile Riverine Force, the formation that General William Westmoreland said "saved the Mekong Delta" during the Tet Offensive of 1968; and the Vietnam Navy. An important section details the SEALORDS combined campaign, a determined effort by U.S. Navy, South Vietnamese Navy, and allied ground forces to cut enemy supply lines from Cambodia and disrupt operations at base areas deep in the delta. The author also covers details on the combat vessels, helicopters, weapons, and equipment employed in the Mekong Delta as well as the Vietnamese combatants (on both sides) and American troops who fought to secure Vietnam's waterways. Special features focus on the ubiquitous river patrol boats (PBRs) and the Swift boats (PCFs), river warfare training, Vice Admiral Elmo R. Zumwalt Jr., the Black Ponies aircraft squadron, and Navy SEALs. This publication may be of interest to history scholars, veterans, students in advanced placement history classes, and military enthusiasts given the continuing impact of riverine warfare on U.S. naval and military operations in the 21st century. Special Publicity Tie-In: Commemoration of the 50th anniversary of the Vietnam War (Commemoration dates: 28 May 2012 - 11 November 2025). This is the fifth book in the series, "The U.S. Navy and the Vietnam War."

"Intense and absorbing... If you buy only one book on the Vietnam War, this is the one you want." -Chicago Tribune

Christian G. Appy's monumental oral history of the Vietnam War is the first work to probe the war's path through both the United States and Vietnam.

These vivid testimonies of 135 men and women span the entire history of the Vietnam conflict, from its murky origins in the 1940s to the chaotic fall of Saigon in 1975. Sometimes detached and reflective, often raw and emotional, they allow us to see and feel what this war meant to people literally on all sides:

Americans and Vietnamese, generals and grunts, policymakers and protesters, guerrillas and CIA operatives, pilots and doctors, artists and journalists, and a variety of ordinary citizens whose lives were swept up in a cataclysm that killed three million people. By turns harrowing, inspiring, and revelatory, *Patriots* is not a chronicle of facts and figures but a vivid human history of the war. "A gem of a book, as informative and compulsively readable as it is timely." -The

COLONIAL-COMMUNIST CLASH, 1961-1974

Greenhaven Press, Incorporated
This monumental narrative clarifies, analyses and demystifies the terrible ordeal of the Vietnam war. Free of ideological bias, profound in its understanding and compassionate in its portrayal of humanity, it is filled with fresh revelations drawn from secret documents and from exclusive interviews with the participants - French, American, Vietnamese, Chinese: diplomats, military commanders, high government officials, journalists, nurses, workers and soldiers. The Vietnam war was the most convulsive tragedy of recent times. This is its definitive history.
