*Functions as two books in one: twelve tutorials chapters combined with thorough reference to XHTML and CSS syntax. *Integrates design, theory, and practical exercises—working on a modular basis, just as a real-world designer must. *Each chapter is self-contained, enabling readers to dip in

and out and learn specific techniques, without necessarily reading through the entire book.

As an art director, editor, and international lecturer, Roger Walton is one designer who knows how to get his name out there. In this guide, he helps designers give their careers a spin by providing them with examples of today's most attention-grabbing self-promotional work. From postcards to

elaborate direct mail pieces, this work showcases dozens of unforgettable concepts. Each spread includes technical specs and commentary from the designers on how they developed their ideas and executed their pieces. Roger Walton is currently Art Director of Duncan Baird Publishers, and he lectures on design at several major art colleges. He is also the editor of *Big Color*, *Typographics 1*, *2* and *3*. He lives in London, England.

Macromedia Studio MX 2004: Training from the Source provides a comprehensive, working introduction to the most powerful Web design and development suite available, Macromedia Studio MX. In this hands-on, project-based book for active learners, you'll get a solid overview of how you can use the integrated workflow of Macromedia's Studio MX product suite to create your own dazzling sites. Starting from the ground up, you'll build two Web sites. In the first half of the book, you'll combine the strengths of Macromedia Flash, Fireworks, Dreamweaver, and FreeHand to create an attractive, yet maintainable site. In the second half of the book, you'll focus on building a powerful and dynamic user experience, by combining Macromedia Flash, Dreamweaver, and ColdFusion. The enclosed CD-ROM contains all the files you need to complete the projects, plus completed files for you to compare with your results and use as models for future projects.

Computer technology has completely revolutionized the work of graphic designers, printers, and print production professionals. To keep pace with these far-reaching changes, *Production for Graphic Designers* is set firmly in the digital age. This revised fourth edition embraces all the new and emerging technologies in graphics and print production, comprehensively explaining the prepress and printing processes from traditional letterpress to the latest on-press CtP (computer-to-plate) digital offset and on-demand colour printing. It also covers new workflows and spells out the many acronyms encountered by today's designers. As well as covering print, it provides an authoritative guide to working in digital media, particularly the internet. There are also additional feature spreads on key graphic designers Bruce Mau, Paul Rand, Chris Ware and Pentagram.

tutorial, Lynda Weinman's well-loved and unique style of instruction. With Macromedia Flash MX Hands-On Training, you'll learn core Macromedia Flash MX principles and techniques in a real-world Web design environment. The step-by-step projects build successively, teaching you not only the various features of Macromedia Flash MX, but also how to actually work with the program to achieve results. Each lesson is chock-full of background information, tips, and insight aimed at helping you understand the process as much as the exercise itself. And the accompanying CD-ROM includes both starter files and finished files for each lesson, as well as QuickTime instructional movies, so that you can learn by watching "and" doing. Macromedia Flash MX H.O.T. covers all of the most important new features of Macromedia Flash MX, beginning with projects that focus on the MX interface, drawing and color tools, animation basics, tweening, symbols and instances, bitmaps, and more. As the projects progress, you'll tackle more complex techniques, such as working with movie clips, text, sound, and video. The latter part of the book addresses publishing and managing Macromedia Flash MX content, as well as how to create content by integrating other software into Macromedia Flash MX. If you're looking for an intelligent, approachable guide for learning Macromedia's latest version of Flash, you'll find lynda.com's Hands-On Training your e-ticket to Macromedia Flash MX expertise!
